Mass Authorship and the Rise of Self-Publishing Timothy Laquintano, 2016-10-15 In the last two decades, digital technologies have made it possible for anyone with a computer and an Internet connection to rapidly and inexpensively self-publish a book. Once a stigmatized niche activity, self-publishing has grown explosively. Hobbyists and professionals alike have produced millions of books, circulating them through e-readers and the web. What does this new flood of books mean for publishing, authors, and readers? Some lament the rise of self-publishing because it tramples the gates and gatekeepers who once reserved publication for those who met professional standards. Others tout authors' new freedom from the narrow-minded exclusivity of traditional publishing. Critics mourn the death of the author; fans celebrate the democratization of authorship. Drawing on eight years of research and interviews with more than eighty self-published writers, *Mass Authorship* avoids the polemics, instead showing how writers are actually thinking about and dealing with this brave new world. Timothy Laquintano compares the experiences of self-publishing authors in three distinct genres—poker strategy guides, memoirs, and romance novels—as well as those of writers whose self-published works hit major bestseller lists. He finds that the significance of self-publishing and the challenge it presents to traditional publishing depend on the aims of authors, the desires of their readers, the affordances of their platforms, and the business plans of the companies that provide those platforms. In drawing a nuanced portrait of self-publishing authors today, Laquintano answers some of the most pressing questions about what it means to publish in the twenty-first century: How do writers establish credibility in an environment with no editors to judge quality? How do authors police their copyrights online without recourse to the law? How do they experience Amazon as a publishing platform? And how do they find an audience when, it sometimes seems, there are more writers than readers?

Ithaca David Davidar, 2011-10-11 By bestselling author David Davidar, Ithaca is a thrilling account of international publishing. In the early years of the 21st Century, sweeping change is taking place in the publishing industry. Ill-equipped to handle the transformation of their world, a number of publishing houses struggle to survive – one of these is Litmus, an independent firm in the UK. The onus of ensuring that the company remains viable falls upon its publisher, Zachariah Thomas, who also edits its most successful author, Massimo Seppi. Seppi's quartet of novels, featuring angels and archangels, has sold millions of copies worldwide. Unfortunately for Zach and for Litmus, Seppi dies unexpectedly. Without its star writer, Litmus's chances of surviving the economic downturn are slim, and when a giant corporation intent on taking it over begins to move in for the kill, it seems impossible that Litmus will remain independent. To keep his company intact, and to give it room to regroup and chart out a strategy for the future, Zach must, among other things, try and mine the Seppi legacy for one last gem. He travels around the globe, from London to the new Litmus subsidiary in Delhi, from negotiating meetings in Toronto to the halls of the renowned Frankfurt Book Fair, from a sales extravaganza in New York City to the streets of Sydney, and more, in his quest to stave off disaster. By turns compelling and thought-provoking, this eagerly anticipated new novel by one of the industry's foremost figures masterfully depicts the exhilarating and surprisingly turbulent world of book publishing.

Writers' Handbook 2022 J. Paul Dyson, 2021-11-17 The 2022 edition of firstwriter.com's bestselling directory for writers is the perfect book for anyone searching for literary agents, book publishers, or magazines. It contains over 2,500 listings, including revised and updated listings from the 2021 edition, and over 400 brand new entries. Finding the information you need is now quicker and easier than ever before, with multiple tables and a detailed index, and unique paragraph numbers to help you get to the listings you're looking for. The variety of tables helps you navigate the listings in different ways, and includes a Table of Authors, which lists over 3,000 authors and tells you who represents them, or who publishes them, or both. The number of genres in the index has expanded to over 600. So, for example, while there was only one option for "Romance" in the previous edition, you can now narrow this down to Historical Romance, Fantasy Romance, Supernatural / Paranormal Romance, Contemporary Romance, Diverse Romance, Erotic Romance, Feminist Romance,

Christian Romance, or even Amish Romance. International markets become more accessible than ever, with listings that cover both the main publishing centres of New York and London, as well as markets in other English speaking countries. With more and more agents, publishers, and magazines accepting submissions online, this international outlook is now more important than ever. There are no adverts, no advertorials, and no obscure listings padding out hundreds of pages. By including only what's important to writers – contact details for literary agents, publishers, and magazines – this directory is able to provide more listings than its competitors, at a substantially lower price. The book also allows you to create a subscription to the firstwriter.com website for free until 2023. This means you can get free access to the firstwriter.com website, where you can find even more listings, and also benefit from other features such as advanced searches, daily email updates, feedback from users about the markets featured, saved searches, competitions listings, searchable personal notes, and more. “I know firsthand how lonely and dispiriting trying to find an agent and publisher can be. So it's great to find a resource like firstwriter.com that provides contacts, advice and encouragement to aspiring writers. I've been recommending it for years now!” ~ Robin Wade; literary agent at the Wade & Doherty Literary Agency Ltd, and long-term firstwriter.com subscriber

Reveille Various,2017-07-30 Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates.
