Heart of the Artichoke and Other Kitchen Journeys David

Tanis, 2010-11-01 Recipes from a very small kitchen by a man with a very large talent. Nobody better embodies the present-day mantra Eat real food in season than David Tanis, one of the most original voices in American cooking. For more than a quarter-century, Tanis has been the chef at the groundbreaking Chez Panisse, in Berkeley, California, where the menu consists solely of a single perfect meal that changes each evening. Tanis's recipes are down-to-earth yet sophisticated, simple to prepare but impressive on the plate. Tanis opens this soulful, fun-to-read cookbook with his own private food rituals, those treats—jalapeño pancakes, beans on toast, pasta for one—for when you are on your own in the kitchen with no one else to satisfy. Then he follows with twenty incomparable menus (five per season) that serve four to six. Each transports the reader to places far and wide. And for grand occasions, a time for the whole tribe to gather around the table, Tanis delivers festive menus for holiday feasts. So in one book, three kinds of cooking: small, medium, and large.

The Business of Sports Betting Becky Harris, John T.

Holden, Gil Fried, 2024-02-28 With the repeal of the Professional

and Amateur Sports Protection Act in 2018, regulated sports betting has exploded in the United States, with more than half the states adopting legalized sports betting and many more poised for business. As a result, career opportunities with sportsbook operators and venues; sport leagues, teams, and sponsors; and gaming regulatory agencies abound for today's students. The arrival of *The Business of Sports Betting* introduces the first dedicated text—written by a team of academic faculty and internationally recognized experts in the field—covering every aspect of the sports betting industry. It begins with a historical overview of sports betting and key legislation that has led to legalized betting today. Included are the various types of wagers available to bettors, the sports in which betting can take place, and the industry's major stakeholders. Next, readers will examine the multiple layers of sports betting regulations in the United States and the interplay between federal laws, state authorization, and tribal governance. Regulatory frameworks in the United States, United Kingdom, and Canada are covered, as well as compliance focal points addressing anti-money laundering regulations, placement of wagers, and the Bank Secrecy Act. The book then warns of the negative aspects of the business, such as illegal

sports betting, gambling scandals, and match fixing; the risks associated with illegal betting; and harm from problem gambling. To combat these risks, guidelines are presented for protecting against illegal gambling, minimizing potential harms, and ensuring integrity in sports betting. Next, students learn the how-tos of establishing, operating, and marketing a sportsbook. Traditional brick-and-mortar sportsbooks are discussed in detail, including the many facility management considerations that come with operating and maintaining a physical venue. Students also learn about the various mobile sportsbooks available today (including websites, kiosks, and phone apps), how they operate, and their connection to and interaction with physical sportsbooks. In addition, the authors present marketing and advertising strategies for acquiring customers and forging relationships with teams, leagues, and sportsbooks. Special attention is given to the American Gaming Association's Responsible Marketing Code for Sports Wagering and its compliance considerations for sportsbook operators. Sports wagering is a data-driven business, and students will see how data are generated and transmitted to sportsbook operators. Managing and protecting that data is paramount to competitive advantage, and students will learn about intellectual property protections

granted to sportsbook operators. Additionally, the book discusses the proliferation and potential positive and negative impacts of gamification and virtual currencies in sports betting. Chapters are punctuated with supplemental sidebars and case studies providing real-life examples of the positive and negative impacts of sports betting. *The Business of Sports Betting* offers a comprehensive introduction to the nuances of the sports betting industry, including the key players, regulatory environment, marketing and technology drivers, and business operations of a sportsbook.

Strawberries and Crime Elle Brooke White, 2021-10-12 In Elle B. White's delightful second Finn Family Farm mystery, farmer Charlotte Finn and her sleuthing baby pig are neck-deep in strawberries and crime. Things are finally growing smoothly on the Finn Family Farm. With the help of caretakers Joe and Alice Wong and farmer Samuel Brown, Charlotte Finn is starting to feel at home at the Santa Barbara County produce farm she inherited. But

all is not strawberries and cream: A blight is destroying young berry plants. Worse, another mysterious death is shaking Little Acorn. The victim is grizzled, cantankerous Linc Pierce, the only farmer in Little Acorn whose strawberry crop was fruitful. Charlotte and her old friend Beau Mason find him hanging from the rafter, an apparent suicide. But a cursory search turns up a half-eaten sandwich. Who eats before he kills himself? Chief Goodacre suspects foul play. Her prime suspect is Beau, who exchanged words--and worse--with Linc earlier in the day. Meanwhile, Little Acorn's farmers point accusing fingers at one another, recalling Linc's suggestion that someone sabotaged their strawberries. As Charlotte searches for clues to exonerate Beau, she finds something on Linc's workbench not buried in dust. Could this be why Linc's strawberry plants are alive? And, perhaps, why Linc is dead? Now, if Charlotte and Horse--the farm's baby pig with a bottomless stomach and an insatiable hunger for sleuthing--can't root out the murderer, they, too, may end up dead and berried.

The Lotus and the Artichoke Justin P. Moore, 2013-06-01

Artichoke's Heart Suzanne Supplee, 2008-06-12 Blubber meets
Steel Magnolias in this funny and honest story about body image
and family. Rosemary Goode is smart and funny and loyal and the
best eyebrow waxer in Spring Hill, Tennessee. But only one thing
seems to matter to anyone, including Rosemary: her weight. And
when your mom runs the most successful (and gossipy) beauty
shop in town, it can be hard to keep a low profile. Rosemary
resolves to lose the weight, but her journey turns out to be about
everything but the scale. Her life-changing, waist-shrinking year is
captured with brutal honesty and humor, topped with an extralarge
helping of Southern charm. A truly uncommon novel about an
increasingly common problem.

Wittgenstein's Folly: Philosophy, Psychoanalysis and Language Games Françoise Davoine, 2023-10-25 Wittgenstein's Folly: Philosophy, Psychoanalysis and Language Games presents a dialogue between the philosopher Ludwig Wittgenstein, the

author Françoise Davoine and Davoine's patients with extreme lived experience. This book begins with Davoine's seminar at the École des Hautes Études en Sciences Sociales in Paris, which is attended by Wittgenstein. He then accompanies Davoine on visits to colleagues at the Austen Riggs Center in Massachusetts, in California, on a Sioux reservation in South Dakota and at Freud's house in Vienna. The dialogic form of the book allows a performance centered on the psychotherapy of madness and trauma, in which Wittgenstein takes the floor. Davoine introduces us to a contemporary Feast of Fools and creates new language games with madness, enlarging the scope of psychoanalytic approaches to authors like Wittgenstein. The chapters of this book closely resemble short plays in which a conversation with living human beings or with characters from philosophy, literature, science and the arts encounter one another and begin to open new ways of speaking that can render the mad more familiar and more manageable. Wittgenstein's Folly: Philosophy, Psychoanalysis and Language Games will be of great interest to psychoanalysts and to academics and students engaged in psychoanalytic studies, philosophy and trauma-related studies.

Hunting Fish Jay Greenspan,2007-04-01 If you want to prove you're a good poker player, you don't have to battle against the best. Nobody really cares if you ever bluffed Phil Ivey or got Daniel Negreanu to make a bad call. You're at the table for the money, not stories of conquest. A disciplined player, one who's playing for the right reasons, would rather sit with the worst, those he's sure to outplay. He's looking for donkeys and donors. He's hunting fish. In Hunting Fish author Jay Greenspan sets out on a cross-country drive---from Connecticut to Los Angeles---looking for players he can outclass. In casinos, underground clubs, and home games throughout the country, Jay shared tables with the most inept gamblers America has to offer. In South Carolina he wiped out some racial-epithet-spewing good ole boys; in Houston he fleeced the country club set; and in Vegas he happily pounded drunken tourists. Hunting Fish is, however, not merely the story of a hustler's travels. In addition to fleecing suckers, Jay was convinced he could beat the very best and make it as a full-time pro. This trip gave him the opportunity to build his bankroll to the point where he could test his mettle in high-stakes games when he reached Los Angeles. Although to play in the high-limit rooms at Commerce

Casino he needed a steady nerve---and a fatter bankroll. In his three months on the road, he needed to pad his roll with an additional twenty thousand dollars. That's a lot of fish to hunt.
