Deliberate Mischief Parag Arun, Vikram Bhagwat at 22 with his engineering degree and decent job was already ready to create history. But on that stormy night while Pune was in its deep sleep and nature was on in its full song evil strikes at him. On that day his life changed completely. He was arrested on charges of stealing IP and cheating organization. Though he gets bail, he was outcasted from the IT community; his dream was shattered in no time. As he battled against the red wolves in society - while hiding in dormitories in suburbs - he kept learning. The young and beautiful lawyer, Nupur, fought battles for him. Their passionate love story blossoms amidst all upheavals. This is not about business - IP or the corporate world; rather it is the odyssey of a man in search of truth.

Pearls of Vedic Wisdom to Succeed Dr. Yogi Devaraj, Arun Kumar, Venugopala CV, 2018-09-11 The light of knowledge from this book is definitely going to illumine and enlighten the society, nation and the world. This book is a revolutionary step to usher in the golden era of ethics, morals and value-based living. - Dr. Chinmay Pandya, Vice Chancellor, Dev Sanskriti University, Haridwar, Uttarakhand, India. This book provides an insight into the ideas of the ancient Vedic tradition and how they might be applied to contemporary life. An excellent survey, I would certainly recommend it to those eager to consider a spiritual perspective on their life and career. - Dr. Herbert Daly, Senior Lecturer, Maths & Computer Science, University of Wolverhampton, UK. Convincingly explains how to drop the ego and realize the presence of the Sentient Life Energy that is giving us life every moment and also shows us the way to experience this all-important Sentient Life Energy. - Dr. Dillibabu Vijayakumar, Scientist, DRDO, Bangalore, India. Exist as mass of Consciousness. Exist as Sentient Life Energy. Exist as Silent Awareness. For that Be Silent. Just Be. The goal of Vedanta can't be expressed in any simpler terms than this. - Dr. Veerappa Gowda, Professor, TIFR Centre for Applicable Mathematics, Bangalore, India. Repeatedly calling the Self or Atman as Life Energy is ingenious. Interpreting 'Chit' of Vedanta as Sentience and calling Atman as Sentient Life Energy is a masterstroke. - Dr. Guru Murthy, Dean, Spartan Health Science University, St Lucia, West Indies. The book is fascinating, reasonable and practical, all at the same time. Both an intellectual challenge and strangely, pleasantly relaxing to read. -

Literature of Java Theodore G. TH. Pigeaud, 2013-06-29 The third, concluding volume of Literature of Java contains Addenda and a General Index, preceded by Illustrations, Facsimiles of Manuscripts, Maps and some Minor Notes, additions which may be of use to students of Javanese literature. The older catalogues of collections of Indonesian manuscripts (Javanese, Malay, Sundanese, Madurese, Balinese), which were written in Dutch, did not offer such additional aids to interested readers. One of the reasons was, that the authors (Vreede, Brandes, van Ronkel, Juynboll, Berg) presupposed a certain knowledge of the Indonesian peoples, their countries and their culture with Dutch students. As often as not the latter, or their families, had lived for many years in Java, and they were destined, when they had completed their studies in The Netherlands, to pass one or more decades of their active life in the tropics in the service of Government, the Christian Missions or the Bible Society. The Archipelago was their second home country. Some familiarity with things Indonesian was found in several circles of society in The Netherlands before the second world war, and information (though not always scholarly and exact) was supplied by quite a number of books and periodicals. For this reason it was thought superfluous to encumber specialistic books like catalogues of manuscripts with maps and general information which could be found easily elsewhere, for instance in the Dutch Encyclopaedie van Nederlandsch-Indie. As circumstances have changed it is.

The RF and Microwave Handbook Mike Golio, 2000-12-20 The recent shift in focus from defense and government work to commercial wireless efforts has caused the job of the typical microwave engineer to change dramatically. Corporate Social Responsibility in India Nayan Mitra, René Schmidpeter, 2016-09-28 This book provides a comprehensive overview of Corporate Social Responsibility (CSR) in Indian corporations following the 2013 legal mandate on corporate spending of profits for CSR. Bringing together authors hailing from diverse walks of life, the book pursues a 'hands-on' approach, with real-world case studies and examples that help the reader feel the dynamic pulse of India immediately after the ratification of the CSR mandate in the Companies Act, 2013. The Act is expected to affect over 16,300 companies with an estimated flow of approximately 200 billion Indian rupees into the economy every year, thus shaking the foundations of business and society and impacting the country at multiple stakeholder levels. As a result, India is likely to become the birthplace of social, economic, and environmental transformation through financial investments in CSR! In order to insightfully reflect on this transition, this book has been divided into three parts. The first part presents the CSR mandate and its implications, while the second focuses on its implementation and the third part provides a view on the way forward. The book helps to reveal the various layers of CSR in an emerging economy like India and is expected to spark debate, discussion and research among policy-makers, consultants, academics,

practitioners and other stakeholders the world over, which will further expand its contribution to CSR literature and open up new vistas in CSR research. This is indeed a first of its kind book and marks a watershed in the journey of CSR. It is an extremely important contribution to the body of knowledge in the area of CSR and Corporate Governance in emerging economies that is driven by a completely different set of challenges, opportunities and requirements from that of developed economies.
