**Methodology for Impact Assessment of Free Trade Agreements** Michael G. Plummer, David Cheong, Shintaro Hamanaka, 2011-02-01 This publication displays the menu for choice of available methods to evaluate the impact of Free Trade Agreements (FTAs). It caters mainly to policy makers from developing countries and aims to equip them with some economic knowledge and techniques that will enable them to conduct their own economic evaluation studies on existing or future FTAs, or to critically re-examine the results of impact assessment studies conducted by others, at the very least.

*Economic Cooperation Between Singapore and India* Faizal bin Yahya, 2008-05-15 Asian interregional economic cooperation has assumed greater prominence with the rise of Asia's two giant economies of China and India. The economic liberalization of China's economy in 1979, followed by India in 1991, signalled the presence of business opportunities to foreign investors - including those from Asia. This book examines the growing economic relations between India and Singapore which has culminated in a Free Trade Agreement (FTA), the Comprehensive Economic Cooperation Agreement (CECA), signed by both economies in June 2005. Using the information technology sector as the main case study of the 'alliance' between Singapore and India, the book examines the challenges that both have overcome to expand their bilateral trade. In the process, Singapore has become one of the top five foreign investors in India. The CECA is important as it is the first free trade agreement that Singapore signed with a developing country; and furthermore it provided a blueprint for India to conclude similar FTAs with other ASEAN members. This book provides a competitive analysis for intra-regional foreign direct investment. Faizal Yahya demonstrates that the economic relationship between Singapore and India illuminates how both economies are attempting to meet future challenges. It will be of interest to scholars of international business studies, cross-cultural management, international trade, international relations, information management and South and Southeast Asian Studies.

Singapore-India Relations Mun Cheong Yong, V. V. Bhanoji Rao, 1995 This primer on Singapore-India relations seeks to present a comprehensive framework within which to appreciate the multi-dimensional (namely, the historical, social, political, cultural and economic) facets of Singapore's linkages with India. It includes topics such as The Indian Economy: Past Progress, Recent Reforms and Medium-term Potentials; Singapore-India Economic Relations: Exploring Synergies for Mutual Benefit; Indian Financial System and Development Opportunities; Human Resources Complementarities between Singapore and India; and Legal Framework for Doing Business in India.

*A Stone's Throw* Bethney Jones, 2020-03-31 Filth, and sickness proliferate in Stepney, England, in the 1830's, where Robert Stone and his family lived. For the husband and father, the ability to make a living and feed his family was

shrinking rapidly. Then, by chance came hope, emigration to Van Diemen's Land. It would take every ounce of bold courage, grit and determination to make the journey. Were they, Robert, Elizabeth and their o? spring resourceful enough to defy the elements and challenge the unexpected in a gamble to forge a new life in a distant, desolate land? Elizabeth, embroiled in circumstances of an unforeseen, tragic loss had reservations. Finally, in desperation, the wrenched family left everyone near and dear, to join forty-six other emigrants on a long perilous journey.

**Economic Aspects of Regional Trading Arrangements** Fairchild-Martindale Center for the Study of Private Enterprise, Iacocca Institute of Lehigh University, 1989 Papers presented at a conference sponsored by the Martindale Center and the Iacocca Institute of Lehigh University, May 25-27, Bethlehem, Pa.

**The Economic Consequences of Globalization on Thailand** Juthathip Jongwanich, 2022-01-31 This book explores the impact of globalization, especially in the context of trade and investment policies, on the key economic outcomes, including innovation, productivity, employment, and wages, using Thai manufacturing as a case study. The book looks at the impacts of the shift of manufacturing share from industrialized to emerging countries and emergence of 'global value chains' (GVCs) as well as liberalization through the proliferation of free-trade agreements (FTAs) on key economic outcomes. The book highlights that globalization, through trade (including the parts and components trade) and investment, continues in Thailand amid the anti-globalization sentiment since the onset of the new millennium, especially the US-China trade war and the COVID-19 pandemic. Thailand has gained considerable benefit from trade and investment liberalization in various forms, including innovation, firm productivity improvements, and workers' skills enhancement. Although the country has prospered in these areas, several further enhancements are needed in order to effectively harness the benefits available from globalization, including continued trade and investment policy reforms. Key policy inferences are provided in the last chapter. The book will appeal to those with an interest in international economics, especially issues relating to the economic consequences of globalization. It will also appeal to policymakers and practitioners responsible for international trade and investment regulations.

**Realizing the ASEAN Economic Community** Michael G Plummer, Chia Siow Yue, 2009 The goal of this book is to assess empirically the likely economic effects of the AEC on the ASEAN member states and associated stakeholders.

*Singapore's Foreign Policy* Michael Leifer, 2013-07-04 In the years following its traumatic separation from Malaysia, Singapore has risen to become one of the leading economic powers in Southeast Asia. This economic strength has carried it through the recent East Asian economic crisis, as well as providing the resources for an excellent defence capability. Singapore's diplomatic achievements include relationships with countries across Asia and Europe, and ensure its international status. Yet, despite this success, Singapore's foreign policy has continued to be influenced by a deep seated sense of its own vulnerability. Politicians from the first prime minister, Lee Kuan Yew, onwards have focused on Singapore's limited physical size, potential domestic and international frailty due to racial tension and confirmed geographical location. These factors have combined to create a powerful nation-state which has never allowed itself to take its sovereign

status for granted. Singapore's Foreign Policy is the first full-length English-language study of this subject and is an essential resource for all those interested in Singapore's international role.

**Is Regionalism Simply a Diversion? Evidence from the Evolution of the EC and EFTA** Mr.Tamim Bayoumi,Mr.Barry J. Eichengreen,1995-11-01 This paper considers the impact on trade of preferential arrangements in Europe since the 1950s. Using a first difference version of the gravity model, we find that the EEC and EFTA altered the pattern of international trade. We also find evidence of trade diversion in several cases, notably that of the EEC in the 1960s.

Applying General Equilibrium John B. Shoven,John Whalley,1992-05-29 The central idea underlying this work is to convert the Walrasian general equilibrium structure (formalized in the 1950s by Kenneth Arrow, Gerard Debreu and others) from an abstract representation of an economy into realistic models of actual economies.

**Realism and Interdependence in Singapore's Foreign Policy** Narayanan Ganesan,2005-10-18 Singapore's existence and success derive in part from its achievements in the domestic political arena and in part from the skilful management of a well-defined foreign policy with clearly identifiable goals and issues. A visible core of realist self-reliance is layered with the demands of a competitive trading state that requires a liberal international trading regime. Hence, both competitive and cooperative philosophies support Singapore's foreign policy. This text charts the philosophical underpinning of Singapore's foreign policy output and the institutions responsible for it and examines the importance of economic and defence diplomacy that are central to Singapore's foreign policy output. It gives particular attention to the two most important regional bilateral relationships -- with Indonesia and Malaysia -- and how relations with its adjacent neighbours have influenced Singapore's foreign policy. Combining first-hand research with excellent analysis, this volume provides a much-needed report on the survival of a small state in the globalizing world.

*Southeast Asian Affairs 2008* Daljit Singh,Tin Maung Maung Than,2008 Since its inception in 1974, Southeast Asian Affairs (SEAA) has been an indispensable annual reference for generations of policy-makers, scholars, analysts, journalists, and others. Succinctly written by regional and international experts, SEAA illuminates significant issues and events of the previous year in each of the Southeast Asian nations and the region as a whole. Southeast Asian Affairs 2008 provides an informed and readable analysis of the events and developments in the region in 2007. In the regional section, the first two articles provide the political and economic overview of Southeast Asia. They are followed by an article on India's geopolitics and Southeast Asia, and two articles on ASEAN. Eleven country reviews as well as four country-specific thematic chapters follow, delving into domestic political, economic, security, and social developments during 2007 and their implications for countries in the region and beyond.

**India & Southeast Asia** Sudhir Devare,2006 In the context of the geopolitical situation in the Asia-Pacific in the post-September 11 period, the security dimension between India and Southeast Asia cannot be overemphasized. With the continued U.S. preponderance in the region and China's phenomenal rise, the countries of Southeast Asia and India have an

opportunity to evolve a co-operative relationship not only with one another, but also with the major powers of the region. This book examines the areas of comprehensive security and the growing understanding between India and Southeast Asia where there is less divergence and greater convergence. The author argues that India-Southeast Asia security convergence is not and should not be aimed at any particular country. On an optimistic note he concludes that such convergence will contribute to creating harmony among the major powers of Asia to make the twenty-first century the Asian century.

**Mind the Gaps** Sree Kumar, Sharon Siddique, Yuwa Wong, 2005 Provides an analysis of how to be successful in China, especially for the Singapore business community.
