Bankers Handbook for Asia Asian Finance Publications, Limited Staff,T. K. Seshadri,1978-05-01

Future of Regional Cooperation in Asia and the Pacific Bambang Susantono,Cyn-Young Park,2020-11-01 This book reviews progress with regional cooperation and integration in Asia and the Pacific and explores how it can be reshaped to achieve a more resilient, sustainable, and inclusive future. Consisting of papers contributed by renowned scholars and Asian Development Bank staff, the book covers four major areas: public goods, trade and investment, financial cooperation, and regional health cooperation. The book emphasizes how the region can better leverage regional integration to realize its vast potential as well as overcome challenges such as the coronavirus disease (COVID-19) pandemic.

Where to Find Business Information David M. Brownstone,Gorton Carruth,1982-04-06 Shows where current business information is located and how to get it. Lists over 5,000 publications (appearing in English throughout the world), covering all subjects of interest to the business world. Focuses on periodic publications and services such as magazines, newsletters, continuously revised loose-leaf services, computerized data bases, printouts, and microforms.

Monetary and Financial Cooperation in East Asia Masahiro Kawai,Yung Chul Park,Charles Wyplosz,2015-04-02 The global financial crisis and the Eurozone crisis have led to a profound rethink in East Asia about the international monetary system and regional monetary and financial integration. After the East Asian crisis of 1997, deeper regional cooperation was seen as the way to avoid reliance on the IMF and the rest of the world. Steps were taken, but they were limited because of disagreements reflecting regional rivalries. Still, integration into the global financial system and Europe's regional process were seen as objectives to be adapted to East Asia, as detailed in an overview chapter. The crises have shaken this strategy but also revealed the pre-existing deep disagreements. This book presents contributions by scholars from different countries. Each one was invited to describe the vision of their policymakers. The traditional rivalry between China and Japan, the region's largest economies, reveals Chinese confidence into its rising power and Japanese growing doubts about its ability to weigh on the debate. For opposite reasons, both display a declining interest into regional cooperation. Korea and the ASEAN countries do not wish to choose between the regional powers but remain attached to regional cooperation and integration. They look for pragmatic solutions that recognize the value-chain characteristic of trade. Additional contributions by US and European scholars provide evaluations of the global and Eurozone crises and of their relevance for East Asian integration.

Hidden Debt Martin Melecky,2021-07-15 The COVID-19 crisis, which has sent economies in South Asia and around the world into a deep recession, has highlighted South Asia's rising debt levels and sizable hidden liabilities. State-owned enterprises, state-owned commercial banks, and public-private partnerships have been at the center of the rising debt wave and the latest pandemic response. Historically, South Asia has relied on these direct public interventions more than other regions. The interventions have helped governments tackle key development challenges

and rapidly deliver relief measures during crises. However, because of their inefficiencies and weak governance, the interventions are also a significant source of public indebtedness and macrofinancial risks. *Hidden Debt* examines the trade-off between tackling development challenges through direct state presence in the market and avoiding unsustainable debt due to economic inefficiencies of such off-balance sheet operations, which greatly leverage public capital. The study recommends a reform agenda based on the four interrelated principles of purpose, incentives, transparency, and accountability (PITA). The reforms can mitigate the risks that off-balance sheet operations will become the source of the next financial crisis in South Asia.

Inflation Dynamics in Asia Ms.Carolina Osorio,Ms.Filiz Unsal,2011-11-01 The perception that Asia's inflation dynamics is driven by idiosyncratic supply shocks implies, as a corollary, that there is little scope for a policy reaction to a build-up of inflationary pressures. However, Asia's fast growth and integration over the last two decades suggest that the drivers of inflation may have changed, and that domestic demand pressures may now play a larger role than in the past. This paper presents a quantitative analysis of inflation dynamics in Asia using a Global VAR (GVAR) model, which explicitly incorporates the role of regional and global spillovers in driving Asia's inflation. Our results suggest that over the past two decades the main drivers of inflation in Asia have been monetary and supply shocks, but also that, in recent years, the contribution of these shocks has fallen, whereas demand-side pressures have started to emerge as an important contributor to inflation in Asia.

Asian Eclipse Michael Backman,2001-05-23 Backman really understands why business evolved the way it did in Asia.--Economist Backman's brisk analysis . . . should be required reading. The real strength of *Asian Eclipse* is its accessibility to nonspecialists through its startling insights into the business interests, machinations, and relationships.--Independent (London) The research and reporting is impressive and up-to-date . . . it's a pleasure to read, rich in anecdotes and never boring or academic.--Far Eastern Economic Review Named one of the finest general nonfiction books of 1999 by the Economist, *Asian Eclipse* was the first book to comprehensively assess the corporate and business practices in Asia. This revised and updated edition features a new chapter on the Internet and e-commerce in Asia and updates on current markets and events. Michael Backman (Australia) is a leading researcher specializing in Asian corporate practice and a regular contributor to numerous leading newspapers and magazines.

Regional Integration and Economic Development in South Asia Sultan Hafeez Rahman,Sridhar Khatri,Hans-Peter Brunner,2012-04-01 South Asian leaders have made it a priority to tackle key regional issues such as poverty, environment degradation, trade and investment barriers and food insecurity, among others.

Risk Management and Corporate Governance Organization for Economic Cooperation and Development,2014 This sixth peer review of the OECD Principles of Corporate Governance analyses the corporate governance framework and practices relating to corporate risk management, in the private sector and in state-owned enterprises. The review covers 26 jurisdictions and is based on a general survey of all participating jurisdictions in December 2012, as

well as an in-depth review of corporate risk management in Norway, Singapore and Switzerland. The report finds that while risk-taking is a fundamental driving force in business and entrepreneurship, the cost of risk management failures is often underestimated, both externally and internally, including the cost in terms of management time needed to rectify the situation. The reports thus concludes that corporate governance should ensure that risks are understood, managed, and, when appropriate, communicated.

The Global Social Crisis United Nations,United Nations. Department of Economic and Social Affairs,2011 During 2008-2009, the world experienced its worst financial and economic crisis since the Great Depression of the 1930s. The crisis followed the effects of the food and fuel price hikes in 2007 and 2008. In 2009, global output contracted by 2 per cent. This 2011 Report on the World Social Situation reviews the ongoing adverse social consequences of these crises after an overview of its causes and transmission.

Real Exchange Rates, Economic Complexity, and Investment Steve Brito,Mr.Nicolas E Magud,Mr.Sebastian Sosa,2018-05-10 We show that the response of firm-level investment to real exchange rate movements varies depending on the production structure of the economy. Firms in advanced economies and in emerging Asia increase investment when the domestic currency weakens, in line with the traditional Mundell-Fleming model. However, in other emerging market and developing economies, as well as some advanced economies with a low degree of structural economic complexity, corporate investment increases when the domestic currency strengthens. This result is consistent with Diaz Alejandro (1963)—in economies where capital goods are mostly imported, a stronger real exchange rate reduces investment costs for domestic firms.
