Matt Mollgaard

Radio and Society Matt Mollgaard, 2011-12-14 Radio is the original mass electronic medium and it continues to be critical for audiences wanting news, information, music and entertainment. For over a century enthusiasts, scholars, practitioners, governments, businesses and listeners have developed and influenced radio, making it a fascinating medium to explore today. There is still no mass medium as ubiquitous as radio and the Internet has extended its geographical and temporal reach even further. Radio remains a key media form and technology, not only surviving the challenges of the screen and digital ages, but developing despite and because of them. This book is a collection of contemporary research by radio scholars from the United Kingdom, Canada, Australia and New Zealand. It explores different aspects of this both simple and complex medium, from early radio histories to the contemporary developments of radio on the Internet. Chapters engage with critical debates about the role of government, business and communities in how radio is used in our societies. Some chapters provide important new insights into making radio, and radio as a cultural force. Other chapters explore developments in research methodologies that enable deeper insights into contemporary radio and its audiences. This book provides a range of platforms for engaging with radio and radio research as a rich, vibrant and fruitful way to further our understandings of the media and ultimately, ourselves.

Covering Niagara Joan Nicks,Barry Keith Grant,2010-07-03 Covering Niagara: Studies in Local Popular Culture closely examines some of the myriad forms of popular culture in the Niagara region of Canada. Essays consider common assumptions and definitions of what popular culture is and seek to

determine whether broad theories of popular culture can explain or make sense of localized instances of popular culture and the cultural experiences of people in their daily lives. Among the many topics covered are local bicycle parades and war memorials, cooking and wine culture, radio and movie-going, music stores and music scenes, tourist sites, and blackface minstrel shows. The authors approach their subjects from a variety of critical and historical perspectives and employ a range of methodologies that includes cultural studies, textual analysis, archival research, and participant interviews. Altogether, *Covering Niagara* provides a richly diverse mapping of the popular culture of a particular area of Canada and demonstrates the complexities of everyday culture.

Changing Channels Peter S. Grant,2013 Renowned advocate and legal trailblazer Peter S. Grant has acted for – and against – virtually all of the major players in the Canadian broadcast and telecommunications industry. His résumé features stints as a rapporteur for UNESCO, Special Counsel for the CRTC, Broadcasting Arbitrator for Canada’s political parties, and advocate for the underdog in the David-and-Goliath struggle to expand Canada’s culture industries. In his sweeping memoir, *Changing Channels: Confessions of a Canadian Communications Lawyer*, Grant affords readers an insider’s glimpse into some of the biggest changes in the history of Canadian communications policy.

Interspersed with fond recollections of his hometown of Kapuskasing and anecdotes of his growing family, Grant provides an eye-opening account of the Canadian communications industries.
