Computers and Astrology Patricia Foreman,1992 Computers and Astrology - ISBN 0-9624648-1-3

Computers and Astrology is a unique keep-by-your-computer reference for astrologers. There is no other book of its kind that tells you in graphic detail the many options available in today's high-powered astrological computing programs. Here you can find answers to such questions as: what's the difference between the 20+ different house systems - and which one is best to use when? What are progressed angles and primary directions? What is the significance of planetary patterns such as kite, grand cross, yod, etc. How to read a 90° sort graphic ephemeris? The answers are all here - often graphically with over 100 diagrams and tables to clarify confusing concepts. Computers and Astrology is actually four books in one: (1) a Universal Software User's Guide that describes the many options available when electronically casting charts. This section includes examples of chart output types, house systems, coordinates, points, city databases, ephemeris, asteroids, uranians and more; (2) a software comparison methodology that explains how to assess commercially available astrology programs to find the most suitable one based upon your needs and budget, (3) an astrological dictionary that offers an encyclopedia presentation of hard to find astrology and astronomy related facts and definitions; (4) information useful for casting charts such as time zones, major life transits, and a listing of over 1,000 major world city coordinates. Software programs evolve daily, but almost all the information in this book remains timelessly current. You can find more about Computers and Astrology, including the table of contents,

The Gemini Syndrome Roger B. Culver, Philip A. Ianna, 1984 In recent years, our society has witnessed a resurgence in astrology that has elevated that durable art form to a level of popularity it hasn't enjoyed since the eve of western European Renaissance. In what has thus far been a relatively successful attempt to cash in on the triumphs of twentieth-century science and technology, contemporary astrologers unashamedly claim far and wide that their craft is rationally consistent, that it is scientifically based, and, above all, that it works. In *The Gemini Syndrome*, two professional astronomers have produced a highly readable and well-referenced response to claims by astrologers that their theories are scientifically based. The authors elucidate the glaring internal inconsistencies associated with many of the basic concepts of modern astrology. They trace the historical development of the celestial twins of astronomy and astrology and leave little doubt concerning the differences, both historical and modern, between astronomical science and astrological art-form. The book's most telling chapters are those dealing with the empirical evidence concerning the supposed astrological influences. Culver and Ianna offer the reader what is the most complete summary of the available data about sun-signs, houses, and aspects. In every instance the empirical astrologer is found to have no clothes on! Finally, the oft-stated claim that astrology works is investigated and laid to rest under the debris of more than three thousand busted predictions made by the astrologers themselves, ranging from the start of World War III to the existence of an anti-earth orbiting on the other side of the sun.

Sydney Omarr's Day-By-Day Astrological Guide for the Year 2011: Gemini Trish MacGregor, Rob MacGregor, 2010-06-01 Reach for the stars-and a bright future-with Sydney Omarr's Predictions for 2011 Month by month forecasts for every zodiac sign from America's most accurate astrologer As the new year begins, these expert forecasts for 2011 offer valuable insights about the past and extraordinary predictions for the future. Gemini: A Guided Journal Constance Stellas, 2022-10-25 Let the stars be your guide and discover who you really are with this guided journal to help you explore and learn more about yourself as the quick-witted Gemini you are! Learn who you are according to the stars. Whether you're just starting to dive into the world of astrology or read your horoscope every day, *Gemini: A Guided Journal* is here to help you explore your sun sign...and what it really means for you. Self-reflection can be an important part of a successful astrological practice, and this guided journal is here to help you take that next step to really consider what the stars say about you. First, get a quick refresher on your sign—your strengths and weaknesses and main qualities and goals. Then dive into over 75 questions that are perfectly tailored to help you gain deeper insight into what you really are. From general astrology prompts to questions that touch on your element to prompts that speak to your unique sun sign, there's plenty to explore and uncover. Examine situations where you showed your greatest strengths and reflect on how to harness those skills in the future. Face your weaknesses head on and discover ways to understand your instincts, change your responses, and find the good in even your most challenging moments. Perfect for the budding astrologer, this is the book you need to really understand your sun sign...and yourself!

Sydney Omarr's Gemini Trish MacGregor, 2007-06-05 Furnishing horoscopes for July 2007 to December 2008, an updated new collection of astrological guides by one of America's leading astrologers presents a host of predictions for the upcoming year, along with daily, eighteen-month outlooks for each zodiac sign and forecasts on romance, health, career opportunities, and more. Original.

Zodiac Signs: Gemini Colin Bedell, 2020-02-04 A new series of sign-by-sign guides from contemporary astrologers. Astrology is a vital tool for understanding our place in the world and the universal forces that move us. A cosmic calling rather than a fated destiny, our astrological sign is a key to uncovering our mission here on earth. Learn about how your sign grows from child to adult, fits in at school and at work, and functions best as a friend, lover, parent, and more. In these practical and empowering guides to the zodiac signs, contemporary astrologers teach you to use this dynamic language to better understand yourself and the people around you.
