The Penguin Atlas of British & Irish History ,2002

An Atlas of Irish History Ruth Dudley Edwards,Bridget Hourican,2004-08-02 An Atlas of Irish History provides coverage of the main political, military, economic, religious and social changes that have occurred in Ireland and among the Irish abroad over the past two millennia.

The Printed Maps in the Atlases of Great Britain and Ireland Thomas Chubb,1966

Historians' Guide to Early British Maps Helen Wallis,1994 This guide to pre-1900 maps relating to Great Britain and Ireland records for the first time the rich cartographic heritage of these islands. It thus responds to the increasing appreciation of maps as historical documents. The Guide is divided into two sections. The first describes the history and purpose of maps in a series of short essays on the different types of regional and special maps. Part Two is a guide to the collections. It comprises a comprehensive survey of nearly 450 repositories, from the national libraries to the county record offices, and includes some of the private collections. There is a full record, for example, of the rich holdings of the Oxford and Cambridge colleges. Details are given on each institution's holdings, access, availability of originals, reproductions, indices. The Guide is the first of its kind, we believe, for any country. It should be of great practical value to a wide readership.

Atlas of British Overseas Expansion Andrew N. Porter,1994 This atlas comprises a full guide to the history of Britain's imperial enterprise. In addition to Britain's colonial development, it touches on subjects including the changing territorial pattern of empire, exploration, trade, communications and imperial defence, war and conquest, the activities of Britain's missionaries and consuls and the spread of white settlement.

Modernist Literature and Postcolonial Studies Rajeev S. Patke,2013-05-20 Provides a fresh account of modernist writing in a perspective based on the reading strategies developed by postcolonial studies Neither modernity nor colonialism (and likewise, neither postmodernity nor postcoloniality) can be properly understood without recognition of their intertwined development. This book interprets modernity as an asymmetrically global phenomenon complexly connected to the course of Western imperialism, and demonstrates how the impact of Western modernism produced new developments in writing from all the former colonies of Europe and the US. These developments constitute the afterlife of Western modernism. The various ways in which the aesthetic ideologies and writing strategies of Western modernism have been adapted, transposed and modified by some of the most innovative writers of the twentieth century is demonstrated in the book through a set of case studies, each of which juxtaposes a canonical modernist text with a postcolonial text that shows how modernist modes metamorphosed in interaction with the turbulent and volatile realities of colonies and new nations struggling to arrive at a modernity of their own in contexts marked by colonial histories. Thus Kafka's allegories are juxtaposed with the use of allegory in writers like Salman Rushdie and J.M.Coetzee; the gendered modernity of Virginia Woolf is juxtaposed with the disturbing and powerful fictions of writers such as Jean Rhys and Katherine Mansfield; the intellectualized and urbanized spirituality of T.S. Eliot's *The Waste Land* is re-read in the revisionist contexts created by the brilliant and troubled urban spirituality of writers such as Arun Kolatkar from India and a text such as *The Woman Who Had Two Navels*, from the Philippines.
