Karin Aggestam, Annika Björkdahl

The Market for Force Deborah D. Avant, 2005-07-25 The legitimate use of force is generally presumed to be the realm of the state. However, the flourishing role of the private sector in security over the last twenty years has brought this into question. In this book Deborah Avant examines the privatization of security and its impact on the control of force. She describes the growth of private security companies, explains how the industry works, and describes its range of customers – including states, non-government organisations and commercial transnational corporations. She charts the inevitable trade-offs that the market for force imposes on the states, firms and people wishing to control it, suggests a new way to think about the control of force, and offers a model of institutional analysis that draws on both economic and sociological reasoning. The book contains case studies drawn from the US and Europe as well as Africa and the Middle East.

Flying Under the Radar with the Royal Chicano Air Force Ella Maria Diaz, 2017-04-11 The first book-length study of the Royal Chicano Air Force maps the history of this vanguard Chicano/a arts collective, which used art and cultural production as sociopolitical activism.

War and Peace in Transition Karin Aggestam, Annika Björkdahl, 2009-01-06 A systematic approach to analyzing some of the transient aspects of war and peace with empirical cases that include Iraq, Israel-Palestine, Sri Lanka, and the Armenian genocide, this book discusses some of the critical and transformative issues in war and peacemaking. Considering subjects such as the roles of private military and security companies, the use of force in peace-support operations, how states, organizations, and individuals contribute to conflict resolution, and the challenge of coordinating various peacemaking efforts, this study explores the manifold demands and challenges facing external actors such as international peacekeeping forces and mediators.

The Markets for Force Molly Dunigan, Ulrich Petersohn, 2015-03-19 The Markets for Force examines and compares the markets for private military and security contractors in twelve states: Argentina, Guatemala, Peru, Ecuador, the United Kingdom, the Czech Republic, Ukraine, Russia, Afghanistan, China, Canada, and the United States. Editors Molly Dunigan and Ulrich Petersohn argue that the global market for force is actually a conglomeration of many types of markets that vary according to local politics and geostrategic context. Each case study investigates the particular characteristics of the region's market, how each market evolved into its current form, and what consequence the privatized market may have for state military force and the provision of public safety. The comparative standpoint sheds light on better-known markets but also those less frequently studied, such as the state-owned and -managed security companies in China, militaries working for private sector extractive industries in Ecuador and Peru, and the ways warlord forces overlap with private security companies in Afghanistan. An invaluable resource for scholars and policymakers alike, The Markets for Force offers both an empirical analysis of variations in private military and security companies across the globe and deeper theoretical knowledge of how such markets develop. Contributors: Olivia Allison, Oldich Bure, Jennifer Catallo, Molly Dunigan, Scott Fitzsimmons, Maiah Jaskoski, Kristina Mani, Carlos Ortiz, Ulrich Petersohn, Jake Sherman, Christopher Spearin.

US National Security Reform Heidi B. Demarest, Erica D. Borghard, 2018-07-12 This collection of essays considers the evolution of American institutions and processes for forming and implementing US national security policy, and offers diverse policy prescriptions for reform to confront an evolving and uncertain security environment. Twelve renowned scholars and practitioners of US national security policy take up the question of whether the national security institutions we have are the ones we need to confront an uncertain future. Topics include a characterization of future threats to national security, organizational structure and leadership of national security bureaucracies, the role of the US Congress in national security policy making and oversight, and the importance of strategic planning within the national security enterprise. The book concludes with concrete recommendations for policy makers, most of which can be accomplished under the existing and enduring National Security Act. This book will be of much interest to students of US national security, US foreign policy, Cold War studies, public policy and IR in general.

The Challenge of Nation-Building Rebecca Patterson, 2014-09-17 The Challenge of Nation-Building examines the conditions that have allowed or prevented the U.S. Army to innovate for nation-building effectively. By doing so, it shows how military leadership and civil-military relations have changed.

European Avant-Gardes, 1905-1935 Sascha Bru, 2018-08-02 The works of the classic European avant-gardes (cubism, futurism, expressionism, Dadaism, constructivism and many other -isms) today still strike many students of modernism as strange or incomprehensible. Is this art? Do we have to take a sound poem seriously? How, at all, are we to read and interpret avant-garde works? And what on earth is the fourth dimension in physics that fascinated so many avant-gardists? This engaging introduction is designed to answer all these questions and more.
