**Carnivore Cooking for Cool Dudes** Brad Kearns, Brian McAndrew, William Shewfelt, 2019-12-06 The carnivore diet has emerged as an extremely compelling and scientifically validated strategy to drop excess body fat quickly, heal from assorted autoimmune, inflammatory, and leaky gut conditions, and dramatically elevate the nutrient density of your diet. While uncool naysayer dudes will dismiss the carnivore diet out of hand as crazy or even dangerous, these Cool Dudes will give you the straight scoop about the rationale for and benefits of eating sustainably-raised, nose-to-tail animal foods. This can be done with a strict protocol to address chronic ailments, or with a carnivore-ish strategy where certain less-offensive plant foods (e.g., fruit, dark chocolate, guacamole) are included in delicious recipes and snacks. This fun-loving but highly informative book will help you sort through the hype and misinformation about carnivore, and gain insights from some of the world's leading carnivore advocates like Dr. Paul Saladino and Dr. Shawn Baker. For example, with the intestinal microbiome widely regarded as the next frontier of health and medical science, you'll learn why a carnivore eating pattern can spark a dramatic reconstitution of gut bacteria and an improvement in damaged gut lining in only a few days. By restricting otherwise healthy plant foods like fruits, vegetables, nuts, and seeds, those with leaky gut or lectin sensitivity have experienced truly mind-blowing health improvements. What's more, the high satiety and easy compliance with carnivore can help you shed excess body fat quickly, without having to suffer from calorie restriction, extreme workouts and frequent backslides and burnout. The three Cool Dudes--Brad, Brian and William--health experts who walk their talk, enjoy life, perform magnificent athletic feats fueled by meat, and are nice to their wives and strangers alike, give you everything you need to succeed in this award-winning book. You'll learn the right way to implement a nose-to-tail carnivore eating strategy featuring a strategic variety of sustainably raised animal foods like grassfed meat, pastured eggs, wild-caught seafood, and the true superfoods of the planet: liver and other nutrient-dense organ meats. You'll also pick up some cool fitness and lifestyle tips to help support your dietary transition instead of compromise it. Forget the hassle and complexity of typical cookbook offerings and enjoy 97 delicious, quick and easy carnivore-friendly recipes. Isn't it about time for you to become a lean, mean, athletic, smart, happy, tan cool dude? This book will help you get there, and have fun along the way.

**Keto Cooking for Cool Dudes** Brad Kearns, Brian McAndrew, 2019-11-08 A hilarious and irreverent cookbook written just for dudes (like Brad and Brian) who are interesting, successful, confident, and extremely good looking; dudes who like to eat healthy, colorful, creative keto-friendly creations, but are too busy and important to stress over time-consuming, complex recipes. Co-authors Brad Kearns and Brian McAndrew pose as experts to help you swagger into the low carb, moderate protein, high fat ketogenic diet the right way, without the stress and frustration of ordinary keto cookbooks. While naysayers may criticize keto as a "bacon and butter" fat-fest, and disparage Brad and Brian as a couple of posers trafficking on their sex appeal and athletic prowess instead of their cooking skills, this book emphasizes an incredible array of genius or near-genius level recipes featuring nutritious natural animal foods, colorful vegetables, and other nutrient-dense ingredients that will help optimize gut health, boost immune function, and improve performance on the athletic field, in the bedroom, and at work by three to four levels. You will be amazed at the creativity these two dudes will inspire in you to become a freakin' kitchen legend in less time and less hassle than you ever dreamed possible before meeting these two dudes. While originally envisioned as a great gift idea for females to give to their favorite dudes, several female recipe testers, photographers, designers and key grips on the project have indicated that they want to keep the book for themselves. Brad and Brian are prepared for viral acceptance by females and agree to show up and rock the house at any ladies book club meeting they are invited to.

'You know, I really love the French Alps, and looking at all the animals that live in the mountains. I'm Australian, so I had never seen a marmot before moving to France. I worked one summer, for a kids' summer camp, and part of my job was to take the children out on walks. We would go looking for marmots, all of us being very quiet, secretly sneaking up to the holes in the ground, where the entrances to the marmot burrows were. Of course, we would make too much noise and the marmots would disappear into their underground tunnels, but sometimes we were lucky and able to take photos. I think their underground homes took over my imagination, and before you knew it, I had a whole chapter book in my head, with Magali as the principal character!'

The Snake Pit Book Ben Snakepit, 2014-11-28 By now you know the drill: Ben White draws his life everyday in 3 comic panels. This was his first book, collecting quite a few various zines. After describing dozens of various Snakepit titles I'm going to defer to the wisdom of Jimmi Payne's Punk Zine, Taken individually, each strip resembles what a friend would say if you asked what they had done that day. Ben sifts through the minutiae of life as well as the full experience of time in a day. This is different than James Kochalka's work as there is no pretense at narrative or point. The narratives in Snakepit open up on the macro level. If Snakepit is to be read on the toilet, a mere bowel movement is enough time to live months through the protagonist's eyes. Patterns emerge and story arcs materialize and years of common actions load into a highly concentrated snapshot that wakes you up to the ongoing machinations of life beyond your present day. This has led many to label Snakepit an existential text. Introduction about doing cocaine by Aaron Cometbus.
