Current Trends in the Historiography of Inquisitions Autori Vari,2024-03-28T10:04:00+01:00 This volume launches the book series of "Inquire – International Centre for Research on Inquisitions" of the University of Bologna, a research network that engages with the history of religious justice from the 13th to the 20th century. This first publication offers twenty chapters that take stock of the current historiography on medieval and early modern Inquisitions (the Spanish, Portuguese and Roman Inquisitions) and their modern continuations. Through the analysis of specific questions related to religious repression in Europe and the Iberian colonial territories extending from the Middle Ages to today, the contributions here examine the history of the perception of tribunals and the most recent historiographical trends. New research perspectives thus emerge on a subject that continues to intrigue those interested in the practices of justice and censorship, the history of religious dissent and the genesis of intolerance in the Western world and beyond.

Plant Collectors in Angola Estrela Figueiredo,Gideon F. Smith,2024-06-06 An authoritative treatise on the history of botanical studies and exploration in Angola. For any region, cataloging, interpreting, and understanding the history of botanical exploration and plant collecting, and the preserved specimens that were amassed as a result, are critically important for research and conservation. In this book, published in cooperation with the International Association for Plant Taxonomy, Estrela Figueiredo and Gideon F. Smith, both botanists with expertise in the taxonomy of African plants, provide the first comprehensive, contextualized account of plant collecting in Angola, a large country in south-tropical Africa. An essential book for anyone concerned with the biodiversity and history of Africa, this authoritative work offers insights into the lives, times, and endeavors of 358 collectors. In addition, the authors present analyses of the records that accompanied the collectors' preserved specimens. Illustrated in color throughout, the book fills a large gap in the current knowledge of the botanical and exploration history of Africa.

Gendering the Portuguese-Speaking World ,2021-05-25 This book explores the significance of gender in shaping the Portuguese-speaking world from the Middle Ages to the present. Sixteen scholars from disciplines including

history, sociology, anthropology, linguistics, literature and cultural studies analyse different configurations and literary representations of women's rights and patriarchal constraints. Unstable constructions of masculinity, femininity, queer, homosexual, bisexual, and transgender identities and behaviours are placed in historical context. The volume pioneers in gendering the Portuguese expansion in Africa, Asia, and the New World and pays particular attention to an inclusive account of indigenous agencies. Contributors are: Darlene Abreu-Ferreira, Vanda Anastácio, Francisco Bethencourt, Dorothee Boulanger, Rosa Maria dos Santos Capelão, Maria Judite Mário Chipenembe, Gily Coene, Philip J. Havik, Ben James, Anna M. Klobucka, Chia Longman, Amélia Polónia, Ana Maria S. A. Rodrigues, Isabel dos Guimarães Sá, Ana Cristina Santos, and João Paulo Silvestre.

Forgotten Continent: The Battle for Latin America's Soul Michael Reid, 2010-08-18 The bestselling primer on the social, political, and economic challenges facing Central and South America by The Economist editor and author of Brazil. Latin America has often been condemned to failure. Neither poor enough to evoke Africa's moral crusade, nor as explosively booming as India and China, it has largely been overlooked by the West. Yet this vast continent, home to half a billion people, the world's largest reserves of arable land, and 8.5 percent of global oil, is busily transforming its political and economic landscape. This book argues that rather than failing the test, Latin America's efforts to build fairer and more prosperous societies make it one of the world's most vigorous laboratories for capitalist democracy. In many countries—including Brazil, Chile and Mexico—democratic leaders are laying the foundations for faster economic growth and more inclusive politics, as well as tackling deep-rooted problems of poverty, inequality, and social injustice. They face a new challenge from Hugo Chávez's oil-fueled populism, and much is at stake. Failure will increase the flow of drugs and illegal immigrants to the United States and Europe, jeopardize stability in a region rich in oil and other strategic commodities, and threaten some of the world's most majestic natural environments. Drawing on Michael Reid's many years of reporting from inside Latin America's cities, presidential palaces, and shantytowns, the book provides a vivid, immediate, and informed account of a dynamic continent and its struggle to compete in a globalized world. "No one who seriously aspires to discuss Latin American politics, economics, and culture should go without reading *Forgotten Continent*."—National Interest

Non-State Actors and Sustainable Development in Brazil Eduardo Gonçalves Gresse, 2022-11-23 This book investigates how non-state actors have become key drivers of the diffusion of the UN 2030 Agenda for Sustainable Development in Brazil. The UN ranks Brazil as the most biodiverse country in the world, but the country's environment has never been under greater threat, with the rise of multiple crises bringing mounting challenges to socioeconomic development and environmental protection. As state support has fallen away, non-state actors have actively engaged and eventually mobilized other social actors towards the promotion of the SDGs and the implementation of the UN agenda. This book asks why it is that non-state actors have dedicated so much time, effort and resources to promote a non-binding agenda that was ratified by and is mainly assigned to state actors. Looking at the roles of academia, civil society, and the private sector, the book explores the different ways in

which these social actors make sense of and translate the 2030 Agenda into practice within their respective local contexts. Drawing on extensive fieldwork, this book sheds light on a series of challenges, opportunities and contradictions within the global agenda and its implementation. Assessing what the Brazil case can teach us about the diffusion of the 2030 Agenda and the SDGs more broadly, this book will be of interest to academics in the field of Sustainable Development, Latin America Studies and Environmental Politics as well as sustainable development researchers and policy makers.

Issues & Trends of Information Technology Management in Contemporary Organizations Information Resources Management Association. The leaders within these organizations are challenged on a continuous basis to develop and implement programs that successfully apply information technology applications. This is a collection of unique perspectives on the issues surrounding IT in organizations and the ways in which these issues are addressed. This valuable book is a compilation of the latest research in the area of IT utilization and management.

Living with Covid-19 Chaudhery Mustansar Hussain, Gustavo Marques da Costa, 2021-11-25 At the end of 2019, the world came across a virus, SARS-CoV-2, which causes a disease classified as COVID-19. The virus is highly transmissible and causes an acute respiratory syndrome that ranges from mild symptoms in about 80% cases to very severe symptoms with respiratory failure in 5% to 10% of cases. The epicenter of the outbreak of this pandemic was Wuhan, a city in China's Hubei Province. The World Health Organization has declared the outbreak of COVID-19 to be a pandemic and classified it as a high global risk. Human health risk assessment for COVID-19 depends on the characteristics of the virus and includes the process of gathering and analyzing environmental and health information using specific techniques to support decision making, systematically taking actions, and articulating the collected information within and between sectors for promoting health and improving the social and living conditions of populations. To assess COVID-19 risk factors, it is important to consider and document all relevant information available at the time of assessment. In this way, decision making will get a direction and the assessment process will get recorded, which includes evaluation of the risk factors, control measures, methods used for evaluation, why they were considered important, and their order of priority. This book addresses in detail the challenges posed by the virus and presents up-to-date knowledge on safety risk assessment and economics, as well as ethical, legal, and social implications (ELSI) of COVID-19.

Mangalore,Ozgun Odabasi,Pankaj Pandey,Rafael Risso Moleiro,Sabri Kizanlik,Sandy Cash,Soumyadeep Paul,Tomasz Sekman,Vasfi Gucer,Yatresh K Agarwal,IBM Redbooks,2011-01-11 This IBM® Redbooks® publication provides a broad view of how Tivoli® system management products work together in several common scenarios. You must achieve seamless integration for operations personnel to work with the solution. This integration is necessary to ensure that the product can be used easily by the users. Product integration contains multiple dimensions, such as security, navigation, data and task integrations. Within the context of the scenarios in this book, you see examples of these integrations. The scenarios implemented in this book are largely based on the input from the integration team, and several clients using IBM products. We based these scenarios on common real-life examples that IT operations often have to deal with. Of course, these scenarios are only a small subset of the possible integration scenarios that can be accomplished by the Tivoli products, but they were chosen to be representative of the integration possibilities using the Tivoli products. We discuss these implementations and benefits that are realized by these integrations, and also provide sample scenarios of how these integrations work. This book is a reference guide for IT architects and IT specialists working on integrating Tivoli products in real-life environments.

Understanding Virtual Reality William R. Sherman,Alan B. Craig,2018-11-08 Understanding Virtual Reality: Interface, Application, and Design, Second Edition, arrives at a time when the technologies behind virtual reality have advanced dramatically in their development and deployment, providing meaningful and productive virtual reality applications. The aim of this book is to help users take advantage of ways they can identify and prepare for the applications of VR in their field, whatever it may be. The included information counters both exaggerated claims for VR, citing dozens of real-world examples. By approaching VR as a communications medium, the authors have created a resource that will remain relevant even as the underlying technologies evolve. You get a history of VR, along with a good look at systems currently in use. However, the focus remains squarely on the application of VR and the many issues that arise in application design and implementation, including hardware requirements, system integration, interaction techniques and usability. Features substantive, illuminating coverage designed for technical or business readers and the classroom Examines VR's constituent technologies, drawn from visualization, representation, graphics, human-computer interaction and other fields Provides (via a companion website) additional case studies, tutorials, instructional materials and a link to an open-source VR programming system Includes updated perception material and new sections on game engines, optical tracking, VR visual interface software and a new glossary with pictures

Collaboration Meets Interactive Spaces Craig Anslow,Pedro Campos,Joaquim Jorge,2017-01-09 This book explores the technological advances and social interactions between interactive spaces, surfaces and devices, aiming to provide new insights into emerging social protocols that arise from the experimentation and long-term usage of interactive surfaces. This edited volume brings together researchers from around the world who investigate interactive surfaces and interaction techniques within large displays, wearable devices, software development, security and

emergency management. Providing both theory and practical case studies, the authors look at current developments and challenges into 3D visualization, large surfaces, the interplay of mobile phone devices and large displays, wearable systems and head mounted displays (HMD'S), remote proxemics and interactive wall displays and how these can be employed throughout the home and work spaces. Collaboration Meets Interactive Spaces is both for researchers and industry practitioners, providing readers with a coherent narrative into the current state-of-the-art within interactive surfaces and pervasive display technology, providing necessary tools and techniques as interactive media increasingly permeates everyday contexts.

Interactive Systems. Design, Specification, and Verification Joaquim Jorge, Nuno Jardim Nunes, Joao Falcao e Cunha, 2003-12-15 This book constitutes the thoroughly refereed post-proceedings of the 10th International Workshop on Design, Specification, and Verification of Interactive Systems, DSV-IS 2003, held in Funchal, Madeira Island, Portugal, in June 2003. The 26 revised full papers and 5 revised short papers presented together with an invited paper have passed through two rounds of reviewing, selection, and improvement. The papers are organized in topical sections on test and evaluation, Web and groupware, tools and technologies, task modeling, model-based design, mobile and multiple devices, UML, and specification languages.

Biofuels in Brazil Silvio Silvério da Silva, Anuj Kumar Chandel, 2014-04-02 This book discusses the commercialization of biofuels and the Brazilian government policies for the promotion of renewable energy program in Brazil, which could be a learning module for several countries for implementing biofuels policy to improve their socioeconomic status and make them energy independent. Researchers in academia and industries, policy makers, and economic analysts will be assisted by important source of information in their ongoing research and future perspectives. This book will benefit graduate and postgraduate students of chemical and biochemical engineering, forestry, microbiology, biochemistry, biotechnology, applied chemistry, environmental science, sustainable energy, and biotech business disciplines by signifying the applied aspects of bioenergy production from various natural sources and their implications. Graduate and postgraduate students as well as postdoctoral researchers will find clear concepts of feedstock analysis, feedstock degradation, microbial fermentation, genetic engineering, renewable energy generation and storage, climate changes, and techno-economic analysis of biofuels production technologies.

VR Developer Gems William R. Sherman, 2019-06-07 This book takes the practicality of other Gems series such as Graphics Gems and Game Programming Gems and provide a quick reference for novice and expert programmers alike to swiftly track down a solution to a task needed for their VR project. Reading the book from cover to cover is not the expected use case, but being familiar with the territory from the Introduction and then jumping to the needed explanations is how the book will mostly be used. Each chapter (other than Introduction) will contain between 5 to 10 tips, each of which is a self-contained explanation with implementation detail generally demonstrated as pseudo code, or in cases where it makes sense, actual code. Key Features Sections written by veteran virtual reality

researchers and developers Usable code snippets that readers can put to immediate use in their own projects. Tips of value both to readers entering the field as well as those looking for solutions that expand their repertoire.
