**Handbook of Research on Computational Intelligence Applications in Bioinformatics** Dash, Sujata,Subudhi, Bidyadhar,2016-06-20 Developments in the areas of biology and bioinformatics are continuously evolving and creating a plethora of data that needs to be analyzed and decrypted. Since it can be difficult to decipher the multitudes of data within these areas, new computational techniques and tools are being employed to assist researchers in their findings. The Handbook of Research on Computational Intelligence Applications in Bioinformatics examines emergent research in handling real-world problems through the application of various computation technologies and techniques. Featuring theoretical concepts and best practices in the areas of computational intelligence, artificial intelligence, big data, and bio-inspired computing, this publication is a critical reference source for graduate students, professionals, academics, and researchers.

Hybrid Intelligent Systems Ajith Abraham,Sang Yong Han,Salah A. Al-Sharhan,Hongbo Liu,2015-12-08 This book is devoted to the hybridization of intelligent systems which is a promising research field of modern computational intelligence concerned with the development of the next generation of intelligent systems. This Volume contains the papers presented in the Fifteenth International conference on Hybrid Intelligent Systems (HIS 2015) held in Seoul, South Korea during November 16-18, 2015. The 26 papers presented in this Volume were carefully reviewed and selected from 90 paper submissions. The Volume will be a valuable reference to researchers, students and practitioners in the computational intelligence field.

**Application of Decision Science in Business and Management** Fausto Pedro García Márquez,2020-03-04 Application of Decision Science in Business and Management is a book where each chapter has been contributed by a different author(s). The chapters introduce and demonstrate a decision-making theory to practice case studies. It demonstrates key results for each sector with diverse real-world case studies. Theory is accompanied by relevant analysis techniques, with a progressive approach building from simple theory to complex and dynamic decisions with multiple data points, including big data, lot of data, etc. Computational techniques, dynamic analysis, probabilistic methods, and mathematical optimization techniques are expertly blended to support analysis of multi-criteria decision-making problems with defined constraints and requirements. The book provides an interface between the main disciplines of engineering/technology and the organizational, administrative, and planning abilities of decision making. It is complementary to other sub-disciplines such as economics, finance, marketing, decision and risk analysis, etc.

**Business Research** Donald R. Cooper,2018-08-24 Business Research: A Guide to Planning, Conducting and Reporting Your Study bridges the academic foundation and the practical application of research methodology through an in-depth and insightful tour of the research process—exploring, planning, creating, conducting, collecting, analyzing, and reporting. The text weaves together timeless principles, emerging ideas, contemporary examples and modern tools in a narrative that is both authoritative and supportive. Integrating a unique Roadmap framework throughout, Business Research navigates students from the start of their initial inquiry to their final stop in reporting their findings, building their confidence as they move point-to-point in their journey. Written with exceptional clarity and focus, Donald Cooper has created a guide to research that will be valuable to students in their academic pursuits as well as their professional careers. Give your students the SAGE edge! SAGE edge offers a robust online environment featuring an impressive array of free tools and resources for review, study, and further exploration, keeping both instructors and students.

Educational Guide of Pakistan ,2003

Information Security Handbook Noor Zaman Jhanjhi,Khalid Hussain,Mamoona Humayun,Azween Bin Abdullah,João Manuel R.S. Tavares,2022-02-17 This handbook provides a comprehensive collection of knowledge for emerging multidisciplinary research areas such as cybersecurity, IoT, Blockchain, Machine Learning, Data Science, and AI. This book brings together, in one resource, information security across multiple domains. Information Security Handbook addresses the knowledge for emerging multidisciplinary research. It explores basic and high-level concepts and serves as a manual for industry while also helping beginners to understand both basic and advanced aspects in security-related issues. The handbook explores security and privacy issues through the IoT ecosystem and implications to the real world and, at the same time, explains the concepts of IoT-related technologies, trends, and future directions. University graduates and postgraduates, as well as research scholars, developers, and end-users, will find this handbook very useful.

**Design Methodologies and Tools for 5G Network Development and Application** Suresh, P.,Vairavel, G.,Saravanakumar, U.,2020-12-25 The demand for mobile broadband will continue to increase in upcoming years, largely driven by the need to deliver ultra-high definition video. 5G is not only evolutionary, it also provides higher bandwidth and lower latency than the current-generation technology. More importantly, 5G is revolutionary in that it is expected to enable fundamentally new applications with much more stringent requirements in latency and bandwidth. 5G should help solve the last-mile/last-kilometer problem and provide broadband access to the next billion users on earth at a much lower cost because of its use of new spectrum and its improvements in spectral efficiency. 5G wireless access networks will need to combine several innovative aspects of decentralized and centralized allocation looking to maximize performance and minimize signaling load. Research is currently conducted to understand the inspirations, requirements, and the promising technical options to boost and enrich activities in 5G. Design Methodologies and Tools for 5G Network Development and Application presents the enhancement methods of 5G communication, explores the methods for faster communication, and provides a promising alternative solution that equips designers with the capability to produce high performance, scalable, and adoptable communication protocol. This book provides complete design methodologies, supporting tools for 5G communication, and innovative works. The design and evaluation of different proposed 5G structures signal integrity, reliability, low-power techniques, application mapping, testing, and future trends. This book is ideal for researchers who are working in communication, networks, design and implementations, industry personnel, engineers, practitioners, academicians, and students who are interested in the evolution, importance, usage, and technology adoption for 5G applications.

New Trends in Information and Communications Technology Applications Safaa O. Al-mamory,Jwan K. Alwan,Ali D. Hussein,2018-09-27 This book constitutes the refereed proceedings of the Third International Conference on New Trends in Information and Communications Technology Applications, NTICT 2018, held in Baghdad, Iraq, in October 2018. The 18 papers presented were carefully reviewed and selected from 86 submissions. The papers are organized in topical sections, namely: Computer networks; system and network security; machine learning; intelligent control system; communication applications; computer vision; and e-learning.

**Architecture of Reliable Web Applications Software** Radaideh, Moh?d A.,Al-Ameed, Hayder,2006-12-31 This book presents new concepts regarding reliability, availability, manageability, performance, scalability, and secured-ability of applications, particularly those that run over the Web. It examines causes of failure in Web-based information system development projects, and indicates that to exploit the unprecedented opportunities offered by e-service applications, businesses and users alike need a highly available, reliable, and efficient telecommunication infrastructure--Provided by publisher.

Handbook of Research on Cybersecurity Issues and Challenges for Business and FinTech Applications Saeed, Saqib,Almuhaideb, Abdullah M.,Kumar, Neeraj,Zaman, Noor,Zikria, Yousaf Bin,2022-10-21 Digital transformation in organizations optimizes the business processes but also brings additional challenges in the form of security threats and vulnerabilities. Cyberattacks incur financial losses for organizations and can affect their reputations. Due to this, cybersecurity has become critical for business enterprises. Extensive technological adoption in businesses and the evolution of FinTech applications require reasonable cybersecurity measures to protect

organizations from internal and external security threats. Recent advances in the cybersecurity domain such as zero trust architecture, application of machine learning, and quantum and post-quantum cryptography have colossal potential to secure technological infrastructures. The Handbook of Research on Cybersecurity Issues and Challenges for Business and FinTech Applications discusses theoretical foundations and empirical studies of cybersecurity implications in global digital transformation and considers cybersecurity challenges in diverse business areas. Covering essential topics such as artificial intelligence, social commerce, and data leakage, this reference work is ideal for cybersecurity professionals, business owners, managers, policymakers, researchers, scholars, academicians, practitioners, instructors, and students.

Research Anthology on Machine Learning Techniques, Methods, and Applications Management Association, Information Resources,2022-05-13 Machine learning continues to have myriad applications across industries and fields. To ensure this technology is utilized appropriately and to its full potential, organizations must better understand exactly how and where it can be adapted. Further study on the applications of machine learning is required to discover its best practices, challenges, and strategies. The Research Anthology on Machine Learning Techniques, Methods, and Applications provides a thorough consideration of the innovative and emerging research within the area of machine learning. The book discusses how the technology has been used in the past as well as potential ways it can be used in the future to ensure industries continue to develop and grow. Covering a range of topics such as artificial intelligence, deep learning, cybersecurity, and robotics, this major reference work is ideal for computer scientists, managers, researchers, scholars, practitioners, academicians, instructors, and students.

**Cybersecurity Measures for E-Government Frameworks** Zaman, Noor,Shah, Imdad Ali,Rajper, Samina,2022-03-11 As an application of information technology (IT), e-government is used for delivery in government for services and information exchange between the government and the public. This electronic service delivery is an important innovation to society; however, it also attracts hackers and cyberattacks. It is essential to provide fast protection application software and structure. Cybersecurity Measures for E-Government Frameworks provides security techniques and measures to e-governance applications. It further discusses emerging technologies in the cybersecurity field as well as the specific uses they have to e-government technologies. Covering topics such as cyberattack detection, deep learning, and preventive approaches, this book is an essential resource for government officials, security professionals, students and educators of higher education, IT professionals, researchers, and academicians.

*Advances of Science and Technology* Fasikaw Atanaw Zimale,Temesgen Enku Nigussie,Solomon Workneh Fanta,2019-03-07 This book constitutes the refereed post-conference proceedings of the 6th International Conference on Advancement of Science and Technology, ICAST 2018, which took place in Bahir Dar, Ethiopia, in October 2018. The 47 revised full papers were carefully reviewed and selected from 71 submissions. The papers present economic and technologic developments in modern societies in five tracks: agro-processing industries for sustainable development, water resources development for the shared vision in blue Nile basin, IT and computer technology innovation, recent advances in electrical and computer engineering, progresses in product design and system optimization.

**Expert Clouds and Applications** I. Jeena Jacob,Francisco M. Gonzalez-Longatt,Selvanayaki Kolandapalayam Shanmugam,Ivan Izonin,2021-07-15 This book features original papers from International Conference on Expert Clouds and Applications (ICOECA 2021), organized by GITAM School of Technology, Bangalore, India during February 18–19, 2021. It covers new research insights on artificial intelligence, big data, cloud computing, sustainability, and knowledge-based expert systems. The book discusses innovative research from all aspects including theoretical, practical, and experimental domains that pertain to the expert systems, sustainable clouds, and artificial intelligence technologies.

**Intelligent Systems Technologies and Applications 2016** Juan Manuel Corchado Rodriguez,Sushmita Mitra,Sabu M. Thampi,El-Sayed El-Alfy,2016-09-19 This book constitutes the thoroughly refereed proceedings of the second International Symposium on Intelligent Systems Technologies and Applications (ISTA'16), held on September 21–24, 2016 in Jaipur, India. The 80 revised papers presented were carefully reviewed and selected from 210 initial submissions and are organized in topical sections on image processing and artificial vision, computer networks and distributed systems, intelligent tools and techniques and applications using intelligent techniques.

*Aptamers Engineered Nanocarriers for Cancer Therapy* Prashant Kesharwani,2022-09-25 Aptamers Engineered Nanocarriers for Cancer Therapy details the selection technologies, biological characteristics, and clinical uses of aptamer-based nano agents for cancer therapeutics. The book helps facilitate speedy solutions for some of the problems pertaining to the manufacture of nano-aptamers – such as toxicity, thermal stability, cost efficiency, tumor penetration and blood stability. Key chapters cover cell-SELEX technology for aptamer selection, mechanisms of multi-drug resistance of cancer, the relevance of aptamers as anticancer therapies, as well as the broad range of aptamer-functionalized nanostructures available. This book provides exciting insights into this relatively new approach to cancer therapeutics, and will be of interest to materials scientists, biomedical engineers, molecular biologists, biochemists and clinical scientists, with a focus on cancer therapy. Reviews the mechanisms behind multi-drug resistance (MDR) in cancer and how aptamer-mediated novel therapeutic agents and strategies can facilitate MDR reversal Covers a range of aptamers engineered nanostructures, including PLGA nanoparticles, silica nanoparticles, quantum dots, nucleic acid aptamers, and more Discusses the challenges associated with using aptamers as cancer therapeutics and how this translates into clinical use

From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Barani Institute Of Information Technology free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Barani Institute Of Information Technology free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files.
