Built from Scratch Bernie Marcus, Arthur Blank, Bob Andelman, 2019-08-20 One of the greatest entrepreneurial success stories of the past twenty years. When a friend told Bernie Marcus and Arthur Blank that “you’ve just been hit in the ass by a golden horseshoe,” they thought he was crazy. After all, both had just been fired. What the friend, Ken Langone, meant was that they now had the opportunity to create the kind of wide-open warehouse store that would help spark a consumer revolution through low prices, excellent customer service, and wide availability of products. *Built from Scratch* is the story of how two incredibly determined and creative people—and their associates—built a business from nothing to 761 stores and \$30 billion in sales in a mere twenty years. *Built from Scratch* tells many colorful stories associated with The Home Depot’s founding and meteoric rise; shows that a company can be a tough, growth-oriented competitor and still maintain a high sense of responsibility to the community; and provides great lessons useful to people in any business, from start-ups to the Fortune 500.

Poorly Made in China Paul Midler, 2011-01-11 An insider reveals what can—and does—go wrong when companies shift production to China. In this entertaining behind-the-scenes account, Paul Midler tells us all that is wrong with our effort to shift manufacturing to China. Now updated and expanded, *Poorly Made in China* reveals industry secrets, including the dangerous practice of quality fade—the deliberate and secret habit of Chinese manufacturers to widen profit margins through the reduction of quality inputs. U.S. importers don’t stand a chance, Midler explains, against savvy Chinese suppliers who feel they have little to lose by placing consumer safety at risk for the sake of greater profit. This is a lively and impassioned personal account, a collection of true stories, told by an American who has worked in the country for close to two decades. *Poorly Made in China* touches on a number of issues that affect us all.

Corporate Strategies in Recession and Recovery (Routledge Revivals) Richard Whittington, 2014-06-03 First published in 1989, this book is based on detailed comparative case studies of eight firms’ responses to the recession of the early 1980s, the worst crisis for British manufacturing in the post-war period. Following these companies’ progress from 1979 to 1985, Whittington examines the various recession strategies they adopted and the consequences of these for management change and financial performance in the recovery. Drawing on the Realist social theory of Roy Bhaskar, Whittington argues that the class, gender, generation and ethnicity of the decision-makers involved in the eight case studies collectively made an impact on their strategic choices. This is a timely and practical reissue, which will be of value to students, managers and academics concerned with strategic management, developments in organizational theory, and the current economic climate.

The Official Vintage Guitar Magazine Price Guide Alan Greenwood, Gil Hembree, 2009-10-01 Uses market research and analysis to provide values for vintage or collectible instruments, including information on more than eighteen hundred brands accompanied by eleven hundred photographs.

The Great River Disclosure Larry Holcombe, 2009 The elegant Great River Resort along the tranquil banks of the Great Wicomico River has a closely guarded secret. The beautiful resort sits atop a highly classified government facility known only to the President of the United States, a few high level government and military leaders, and resort owner Bill Russell. Ted Carter, former Navy SEAL and now resort CEO, his fiancée Ruth Bennett and owner Russell find themselves in the cross hairs of a deadly confrontation between the White House and leaders of the military industrial complex. These men of great wealth and power will use whatever means necessary to stop the president from disclosing this sixty-year-old black project, a top secret program that, if

revealed, will forever change the lives of every man, woman and child on the planet.

The Emperor of Shoes Spencer Wise,2018-06-05 “Evocative...The Emperor of Shoes underscores the extent to which the promise of economic opportunity still moves people across great distances on our planet...Wise [has] written a novel of our times...”—New York Times Book Review *A Library Journal Best Debut of Summer 2018* From an exciting new voice in literary fiction, a transfixing story about an expatriate in southern China and his burgeoning relationship with a seamstress intent on inspiring dramatic political change Alex Cohen, a twenty-six-year-old Jewish Bostonian, is living in southern China, where his father runs their family-owned shoe factory. Alex reluctantly assumes the helm of the company, but as he explores the plant’s vast floors and assembly lines, he comes to a grim realization: employees are exploited, regulatory systems are corrupt and Alex’s own father is engaging in bribes to protect the bottom line. When Alex meets a seamstress named Ivy, his sympathies begin to shift. She is an embedded organizer of a pro-democratic Chinese party, secretly sowing dissonance among her fellow laborers. Will Alex remain loyal to his father and his heritage? Or will the sparks of revolution ignite? Deftly plotted and vibrantly drawn, The Emperor of Shoes is a timely meditation on idealism, ambition, father-son rivalry and cultural revolution, set against a vivid backdrop of social and technological change.

Made in Chicago Austin Weber,2019-03-04 For much of the 20th century, the Chicagoland area was a manufacturing mecca due to its central geographic location and ready access to rail and water transportation. The city and suburbs mass-produced a wide range of products, including appliances, bicycles, electronics, furniture, globes, pianos, pinball machines, radios, railroad cars, sporting goods, telephones, televisions, typewriters, tools, toys, tractors, and watches. This book traces the origins of manufacturing in Chicago and explores the city's proud history of making steel and shaping metal. It also provides extensive coverage of the golden age of manufacturing in the region, including Chicago's unique contribution to the arsenal of democracy during World War II. The nostalgic journey includes stops at famous Chicago companies from the past, such as Bell & Howell, International Harvester, Pullman, Schwinn, Stewart Warner, Sunbeam, Western Electric, and Zenith.

Secrets, Lies & Chemical Compounds Sophia Denapoli,2018-07-19 Bernadetta DeVittoriaor Bernie, as her friends call heronce worked for the Renard Chemical Company. Thanks to a particularly nasty divorce, shes now looking to be hired back. She gets the job she wants but could not foresee the drama headed her way. It turns out Renard Chemical is currently undergoing a bitter legal battle with a number of litigants. These litigants want to see their pain and suffering recognized by Renard, legally and monetarily. Bernie, working for the legal department, is now in charge of making these claims disappear. While many have indeed suffered due to Renards dangerous KBCTG(r) product line, Bernie suffers, too. She has a horrible moral choice to make in this damage control campaign. As she investigates plaintiffs and other innocents sickened or killed due to Renard negligence, Bernie feels pulled in all directions. Does she do her job or follow her conscience? The outcome is completely in her hands. What happens when big business ignores responsible ethics for the sake of profit? People get hurt, but is it possible for Bernie to go after the big boys without destroying everything shes worked to get back?

Growing Up Yinzer Dick Roberts,2023-10-23 In the Steel City, Yinzer is a term of endearment, reserved for the city's most beloved and embraced by

locals as a symbol of the grit and determination that Pittsburgh endows anyone from there. The city's undeniable impact on the character and life of those who grew up there has shaped iconic figures of American sports, entertainment and culture. Legends of the gridiron such as Jim Kelly, Tony Dorsett, Dan Marino and Joe Namath forged their football prowess in Western Pennsylvania. Business pioneers including Mark Cuban, Ray Werner and Bill Strickland were ingrained with the value of hard work in the Steel City. Music and movie stars like Jeff Goldblum, George Benson and Billy Gardell found creative inspiration in Pittsburgh that led to new heights. Author Dick Roberts presents profiles, interviews and memories from some of the most famous and adored Pittsburghers.

Kick Up Some Dust Bernie Marcus,2022-10-18 A candid, rollicking business memoir from the Home Depot cofounder, filled with personal stories, savvy business advice, and timeless lessons for a life well lived With a foreword by Pitbull An extraordinary story. ... [Tells] Marcus's version of the American dream, from tenement to boardroom, homespun into lessons for readers wanting to make it in business or philanthropy. — Financial Times The start of Home Depot sounds like the beginning of a bad joke: Two Jews and an Italian decide to build a new kind of hardware store... In 1978, Bernie Marcus's livelihood depended on just such a scenario. Having been fired at the age of forty-nine, he teamed up with Arthur Blank and Ken Langone on a bold new endeavor. Their first day in business was so disastrous that the next morning, Marcus's wife wouldn't let him shave because she didn't want a razor in his hands. But the last laugh would be theirs, as the business partners grew Home Depot into the world's largest home improvement retailer, empowering millions of Americans to do it yourself. Doing it yourself has been the theme of Bernie Marcus's entire life. By the time he was fifteen, he had held more than a dozen jobs, joined a gang, and worked as a hypnotist in the Catskills. The son of a cabinetmaker and garment worker who survived the Triangle Shirtwaist Factory fire, Bernie overcame a hardscrabble upbringing to author one of the best entrepreneurial stories in American history. Today, Home Depot employs 500,000 associates at 2,300 stores and is one of the most recognized and admired companies in the world. The same energy that made Home Depot successful has helped Bernie give away more than \$2 billion and pioneer a new model for philanthropy, transforming millions of lives. There is no single, winning formula for trying to make the world a better place, but Bernie shares what he's learned—that the skills needed to build a Fortune 500 company are the same ones that can help cure cancer, treat veterans with PTSD, and transform autism treatment. And it doesn't take a fortune to make a big difference in your community. Kick Up Some Dust will inspire you to dream, build, and give—and, maybe, change the world.

What Made Me Who I Am Bernie Swain,2016-09-06 Starting a business is a wonderfully naïve venture. Only a fortunate few will survive--and very few

of those who thrive will have something special to say about failure, success, and leadership. Bernie Swain is one of those few very fortunate people. He quit his job in 1980 to start a lecture agency with his wife and a friend. By the end of their first rocky year--just as his savings were running out--Swain's first revenues trickled in. He began signing every speaker with a handshake; this proved to be the hallmark of trust that helped accelerate the company's growth. Years later, his roster of speakers would be the greatest in history since America's first agency represented a host of notables such as Mark Twain, Susan B. Anthony, and Frederick Douglass. The best of Swain's fortunes turned out to be the speakers themselves because these remarkable leaders had become his personal friends. *What Made Me Who I Am* captures the leadership transformations of 34 of those friends--from Doris Kearns Goodwin to Colin Powell, Terry Bradshaw to Tom Brokaw, and Tony Blair to Dave Barry. This assembly of people defines a generation. What were their most powerful influences? Defining moments? Decisions that contributed the most to their character and accomplishments? Swain captures answers to these questions and more in an inspiring, practical collection of true-life stories for leaders today. *What Made Me Who I Am* is also a terrific gift book for graduates and others who are just starting out in life.

The Speech Bernie Sanders, 2015-12-22 On Friday, December 10, 2010, Vermont Senator Bernie Sanders walked on to the floor of the United States Senate and began speaking. It turned out to be a very long speech, lasting over eight and a half hours. And it hit a nerve. Millions followed the speech online until the traffic crashed the Senate server. A huge, positive grassroots response tied up the phones in the senator's offices in Vermont and Washington. President Obama reportedly held an impromptu press conference with former President Clinton to deflect media attention away from Sanders' speech. Editorials and news coverage appeared throughout the world. In his speech, Sanders blasted the agreement that President Obama struck with Republicans, which extended the Bush tax cuts for millionaires and billionaires, lowered estate tax rates for the very, very rich, and set a terrible precedent by establishing a payroll tax holiday diverting revenue away from the Social Security Trust Fund, threatening the fund's very future. But the speech was more than a critique of a particular piece of legislation. It was a dissection of the collapse of the American middle class and a well-researched attack on corporate greed and on public policy which, over the last several decades, has led to a huge growth in millionaires even as the United States has the highest rate of childhood poverty in the industrialized world. It was a plea for a fundamental change in national priorities, for government policy that reflects the needs of working families, and not just the wealthy and their lobbyists. Finally, Sanders' speech--published here in its entirety with a new introduction by the senator--is a call for action. It is a passionate statement informing us that the only people who will save the middle class of this country is the middle class itself, but only if it is informed, organized, and prepared to take on the enormously powerful special interests dominating Washington.

An Uncommon Friendship Bernat Rosner, Frederic C. Tubach, Sally Patterson Tubach, 2010 I was very touched by the story beautifully told in *An Uncommon Friendship*. The pain and suffering brought on by the Holocaust is described in a riveting way. The book shows how a chance meeting followed by a deep friendship can lead to compassion, forgiveness, and understanding on a deeply personal level.--Barbara Boxer, United States Senator Fritz Tubach and Bernat Rosner perfectly link the abstract horror of the Nazi death machine with the harmless-seeming, rural somnolence of European village life in the '30s. *An Uncommon Friendship* is tangible, real, heart-breaking, awesome. This double memoir of a German youth and the Hungarian-Jewish youth he befriended

in later life is absolutely unique and stunningly beautiful.--Carolyn See, author of *The Handyman* I read, admired and was gripped by the counterpoint memoirs of Bernie Rosner, a Hungarian-born survivor of Auschwitz and Mauthausen, and Fritz Tubach, the son of a Nazi German army officer. Factual, measured, unemphatic, sharply evocative, their linked stories prove extraordinarily moving. An original document not to be missed and an absorbing read.--Eugen Weber, author of *The Hollow Years*

Chevy Drag Racing 1955-1980: A Celebration of Bowtie's Success at the Drag Strip Doug Boyce, 2020-03-15 Relive the glorious first 25 years of Chevy drag racing in this comprehensive and nostalgic history. With the introduction of Chevy's OHV V-8 in 1955, the brand's domination on the drag strip immediately snowballed. Drag racers loved the compact V-8. It was lightweight, revved high, and responded like no other engine previously produced to modification. Chevy saw a record year in sales in 1955, thanks to a combination of a restyled body and the new mill. It was the age of ingenuity, and those who could get their hands on the new engine were swapping it into engine bays that once housed other weaker mills. Ford's flathead, one that had dominated for so long, was rendered obsolete almost overnight. Chevy had a winner and dominated the sales charts for years to come. Aftermarket manufacturers got on board and offered up all the go-fast goodies needed to make Chevy a winner, no matter what category they ran. From Dragsters to Stock, Chevy's success was immediate. And it was a long-term success, thanks to a combination of years of great styling and a vast array of driveline combinations. Accomplished racing author Doug Boyce takes a celebratory look at those years of success, with a focus on the first 25 years (1955 through 1980). Chevrolets gave rise to such stars as Bill "Grumpy" Jenkins, "Jungle Jim" Liberman, "Sneaky Pete" Robinson, "Dyno" Don Nicholson, Sox & Martin, Dick Harrell, Dave Strickler, and many more. World champs and fan favorites all drove Chevys. The success showed in the record books. No brand has won more races and events or has set more national records than Chevrolet. And unlike the other manufacturers, Ford and Chrysler, it was done with little to no factory support. Whether you are a hardcore Chevy fan or just love catching up on the history of drag racing during the golden age, this nostalgic look at Chevy racing history is sure to entertain for hours on end.
