The Business of Building a Better World David Cooperrider, Audrey Selian, 2021-11-09 Twenty-nine leading scholars and executives provide a visionary look at the future of business, propelling past damaging industrial-age values to uncover the key ingredients of humanistic, ecologically sustainable, and intergenerational prosperity. Through the exploration of robust cases and stories packed with deep insight and vital science, this extraordinary collection explores how we can adapt our notions of value, markets, and models of cooperation and collective action to create a world where economies and businesses excel, all people thrive, and nature flourishes. In part I, "The Business of Business Is Betterment," the contributors show how enterprises today are further developing-and even taking a quantum leap beyond-the multistakeholder logic of "shared value creation." Part II, "Net Positive = Innovation's New Frontier," is focused on what companies can and are doing to move away from "doing no harm" to playing

an active role in solving environmental, social, and economic problems. The final section, "Ultimate Advantage: A Leadership Revolution That Is Changing Everything," looks at new leadership paradigms-characterized by unexpected qualities like virtue, love, compassion, and connection-that are crucial to creating engaged, empowered, innovative, and out-performing enterprises. This book is designed to galvanize change and unite a global community of inquiry and action. It establishes the conceptual cornerstones for a new kind of business practice that will lead the way to an equitable, sustainable, and flourishing future.

A BETTER INDIA A BETTER WORLD N R Narayana Murthy, 2010-03-08 Visit the website for A Better India; A Better World; here. With one of the highest GDP growth rates in the world and an array of recent achievements in technology; industry and entrepreneurship; India strides confidently towards the future. But; in the world's largest democracy; not everyone is equally fortunate. More than 300 million Indians are still prey to hunger; illiteracy and disease; and 51 per cent of India's children are still undernourished. What will it take for India to bridge this great divide? When will the fruits of development reach the poorest of the poor; and wipe the tears from the eyes of every man; woman and child; as Mahatma Gandhi had dreamt? And how should this; our greatest challenge ever; be negotiated? In this extraordinarily inspiring and visionary book; N.R. Narayana Murthy; who pioneered; designed and executed the Global Delivery Model that has become the cornerstone of India's success in information technology services outsourcing; shows us that a society working for the greatest welfare of the greatest number-samasta jananam sukhino bhavantu-must focus on two simple things: values and good leadership. Drawing on the remarkable Infosys story and the lessons learnt from the two decades of post-reform India; Narayana Murthy lays down the ground rules that must be followed if future generations are to inherit a truly progressive nation. Built on Narayana Murthy's lectures delivered around the world; A Better India: A Better World is a manifesto for the youth; the architects of the future; and a compelling argument for why a better India holds the key to a better world.

In Search of A Better World Payam Akhavan, 2017-09-09 A work of memoir,

history, and a call to action, the CBC Massey Lectures by internationally renowned UN prosecutor and scholar Payam Akhavan is a powerful and essential work on the major human rights struggles of our times. Renowned UN prosecutor and human rights scholar Payam Akhavan has encountered the grim realities of contemporary genocide throughout his life and career. He argues that deceptive utopias, political cynicism, and public apathy have given rise to major human rights abuses: from the religious persecution of Iranian Bahá'ís that shaped his personal life, to the horrors of ethnic cleansing in Yugoslavia, the genocide in Rwanda, and the rise of contemporary phenomena such as the Islamic State. But he also reflects on the inspiring resilience of the human spirit and the reality of our inextricable interdependence to liberate us, whether from hateful ideologies that deny the humanity of others or an empty consumerist culture that worships greed and self-indulgence. A timely, essential, and passionate work of memoir and history, *In Search of a Better World* is a tour de force by an internationally renowned human rights lawyer.

Elect Mr. Robinson for a Better World Donald Antrim, 2012-06-05 A dark, suburban fantasy . . . richly funny, even whimsical, and bizarrely familiar. --The New Yorker In the seaside community of Donald Antrim's *Elect Mr. Robinson for a Better World*, the citizens are restless. The mayor has fired stinger missiles into the Botanical Garden reflecting pool, and his public execution was a messy affair. As these hawkish suburbanites fortify their houses with deadly moats and land mines, a former third-grade teacher named Pete Robinson steps forward with a tenuous bid to replace the mayor. But can anyone satisfy the terrible will of the people? By turns funny and phantasmagorical, fiercely intelligent and imaginative, Donald Antrim's story of suburban civics turned macabre is a new American classic.

To Build a Better World Philip Zelikow, Condoleezza Rice, 2019-09-10 A deeply researched international history and exemplary study (New York Times Book Review) of how a divided world ended and our present world was fashioned, as

the world drifts toward another great time of choosing. Two of America's leading scholar-diplomats, Philip Zelikow and Condoleezza Rice, have combed sources in several languages, interviewed leading figures, and drawn on their own firsthand experience to bring to life the choices that molded the contemporary world. Zeroing in on the key moments of decision, the might-have-beens, and the human beings working through them, they explore both what happened and what could have happened, to show how one world ended and another took form. Beginning in the late 1970s and carrying into the present, they focus on the momentous period between 1988 and 1992, when an entire world system changed, states broke apart, and societies were transformed. Such periods have always been accompanied by terrible wars -- but not this time. This is also a story of individuals coping with uncertainty. They voice their hopes and fears. They try out desperate improvisations and careful designs. These were leaders who grew up in a postwar world, who tried to fashion something better, more peaceful, more prosperous, than the damaged, divided world in which they had come of age. New problems are putting their choices, and the world they made, back on the operating table. It is time to recall not only why they made their choices, but also just how great nations can step up to great challenges. Timed for the thirtieth anniversary of the fall of the Berlin Wall, *To Build a Better World* is an authoritative depiction of contemporary statecraft. It lets readers in on the strategies and negotiations, nerve-racking risks, last-minute decisions, and deep deliberations behind the dramas that changed the face of Europe -- and the world -- forever.

Social Studies for a Better World: An Anti-Oppressive Approach for Elementary Educators (Equity and Social Justice in Education) Noreen Naseem Rodriguez, Katy Swalwell, 2021-11-16 Plan and deliver a curriculum to help your students connect with the humanity of others! In the wake of 2020, we need today's young learners to be prepared to develop solutions to a host of entrenched and complex issues, including systemic racism, massive environmental problems, deep political divisions, and future pandemics that will severely test the effectiveness and equity of our health policies. What better place to start that preparation than with a social studies curriculum that enables elementary students to envision and build a better world? In this engaging guide two experienced social studies educators unpack the oppressions that so often characterize the elementary curriculum--normalization, idealization, heroification, and dramatization--and show how common pitfalls can be replaced with creative solutions. Whether you're a classroom teacher, methods student, or curriculum coordinator, this is a book that can transform your understanding of the social studies disciplines and their power to disrupt the narratives that maintain current inequities.

A Better World Marcus Sakey, 2014 The brilliants changed everything. Since 1980, 1% of the world has been born with gifts we'd only dreamed of. The ability to sense a person's most intimate secrets, or predict the stock market, or move virtually unseen. For thirty years the world has struggled with a growing divide between the exceptional... and the rest of us. Now a terrorist network led by brilliants has crippled three cities. Supermarket shelves stand empty. 911 calls go unanswered. Fanatics are burning people alive. Nick Cooper has always fought to make the world better for his children. As both a brilliant and an advisor to the president of the United

States, he's against everything the terrorists represent. But as America slides toward a devastating civil war, Cooper is forced to play a game he dares not lose--because his opponents have their own vision of a better world. And to reach it, they're willing to burn this one down--Amazon.com.

Value(s) Mark Carney, 2021-05-25 A bold, urgent argument on the misplacement of value in financial markets and how we can and need to maximize value for the many, not few. As an economist and former banker, Mark Carney has spent his life in various financial roles, in both the public and private sector. VALUE(S) is a meditation on his experiences that examines the short-comings and challenges of the market in the past decade which he argues has led to rampant, public distrust and the need for radical change. Focusing on four major crises--the Global Financial Crisis, the Global Health Crisis, Climate Change and the 4th Industrial Revolution-- Carney proposes responses to each. His solutions are tangible action plans for leaders, companies and countries to transform the value of the market back into the value of humanity.

Making the World Work Better Kevin Maney, Steve Hamm, Jeffrey O'Brien, 2011-06-10 Thomas J Watson Sr's motto for IBM was THINK, and for more than a century, that one little word worked overtime. In Making the World Work Better: The Ideas That Shaped a Century and a Company, journalists Kevin Maney, Steve Hamm, and Jeffrey M. O'Brien mark the Centennial of IBM's founding by examining how IBM has distinctly contributed to the evolution of technology and the modern corporation over the past 100 years. The authors offer a fresh analysis through interviews of many key figures, chronicling the Nobel Prize-winning work of the company's research laboratories and uncovering rich archival material, including hundreds of vintage photographs and drawings. The book recounts the company's missteps, as well as its successes. It captures moments of high drama -- from the bet-the-business gamble on the legendary System/360 in the 1960s to the turnaround from the company's near-death experience in the early 1990s. The authors have shaped a narrative of discoveries, struggles, individual insights and lasting impact on technology, business and society. Taken together, their essays reveal a distinctive mindset and organizational culture, animated by a deeply held commitment to the hard work of progress. IBM engineers and scientists invented many of the building blocks of modern information technology, including the memory chip, the disk drive, the scanning tunneling microscope (essential to nanotechnology) and even new fields of mathematics. IBM brought the punch-card tabulator, the mainframe and the personal computer into the mainstream of business and modern life. IBM was the first large American company to pay all employees salaries rather than hourly wages, an early champion of hiring women and minorities and a pioneer of new approaches to doing business--with its model of the globally integrated enterprise. And it has had a lasting impact on the course of society from enabling the US Social Security System, to the space program, to airline reservations, modern banking and retail, to many of the ways our world today works. The lessons for all businesses -- indeed, all institutions -- are powerful: To survive and succeed over a long period, you have to anticipate change and to be willing and able to continually transform. But while change happens, progress is deliberate. IBM -- deliberately led by a pioneering culture and grounded in a set of core ideas -- came into being, grew, thrived, nearly died, transformed itself... and is now charting a new path forward for its second century toward a perhaps surprising future on a planetary scale.

Philosophy for a Better World Floris Van Den Berg, 2013-06-04 You won't see the world in the same light after reading this urgent and inspiring call to action. In this thought-provoking book, Dutch philosopher Floris van den Berg proposes a new perspective, called universal subjectivism, which can be adopted by anyone regardless of religious or philosophical orientation. It takes into consideration the universal capacity for suffering and, through raising awareness, seeks to diminish that suffering and increase happiness. With consistent and compelling moral reasoning, van den Berg shows that the world can be organized to ensure more pleasure, beauty, justice, happiness, health, freedom, animal welfare, and sustainability. The author emphasizes that today the near-term future is our greatest challenge: our affluent western lifestyle will soon exceed the limits of the earth's sustainable capacity and must soon change drastically to ward off a worldwide environmental collapse. Knowing this, we should all reevaluate the daily routines we take for granted: taking the car to work, boarding a plane to a business or vacation destination, eating meat, or using plastic bags in stores. There are ethical and ecological objections to each of these examples. In fact, if we applied a strict ethical analysis to our lifestyle, almost nothing we do would pass muster. A lot of avoidable suffering attaches to our way of life. After reading this book, the world won't look the same. Concluding with an eco-humanist manifesto, this book not only offers much food for thought but, more importantly, an urgent and inspiring call to action.

In Search of a Better World Karl Popper, 2012-12-06 'I want to begin by declaring that I regard scientific knowledge as the most important kind of knowledge we have', writes Sir Karl Popper in the opening essay of this book, which collects his meditations on the real improvements science has wrought in society, in politics and in the arts in the course of the twentieth century. His subjects range from the beginnings of scientific speculation in classical Greece to the destructive effects of twentieth century totalitarianism, from major figures of the Enlightenment such as Kant and Voltaire to the role of science and self-criticism in the arts. The essays offer striking new insights into the mind of one of the greatest twentieth century philosophers.

For a Just and Better World Sonia Hernandez, 2021-11-30 Caritina Piña Montalvo personified the vital role played by Mexican women in the anarcho-syndicalist movement. Sonia Hernández tells the story of how Piña and other Mexicanas in the Gulf of Mexico region fought for labor rights both locally and abroad in service to the anarchist ideal of a worldwide community of workers. An international labor broker, Piña never left her native Tamaulipas. Yet she excelled in connecting groups in the United States and Mexico. Her story explains the conditions that led to anarcho-syndicalism's rise as a tool to achieve labor and gender equity. It also reveals how women's ideas and expressions of feminist beliefs informed their experiences as leaders in and members of the labor movement. A vivid look at a radical

activist and her times, *For a Just and Better World* illuminates the lives and work of Mexican women battling for labor rights and gender equality in the early twentieth century.
