High Rise and Fall Andrea Carpenter, 2018-09-24 High Rise and Fall tells the story of how the European commercial property industry transformed from a local, small-scale business to an international, financially sophisticated, multi-billion-euro industry that was ultimately devastated by the 2008 crash. Drawing on her experience as both former Editor of EuroProperty and Director at the European Association for Investors in Non-Listed Real Estate Vehicles (INREV), Andrea Carpenter explains how the mid-1990s saw the arrival of a new style of property investing in the European markets. Seeking high returns, impervious to risk and with a seeming indifference to the buildings at the heart of the deals, US players such as Morgan Stanley, Goldman Sachs and Lehman Brothers conquered the European property markets with an audacity that both repulsed and intoxicated the locals. Fuelled by improving economic conditions in the early 2000s, European investors were keen to emulate all or parts of the US investors' philosophy. Armed with a wall of capital, the industry expanded into the far reaches of Europe in search of returns, and piled on new risks that it did not completely understand. In her highly readable style, Carpenter analyses the mistakes made by the industry in the run-up to the crash when billions were wiped off the value of property across the region, and it became clear that in the pursuit of high returns and a place in the wider financial world, the industry had turned its back on the basics – bricks and mortar. This book is aimed at students and younger professionals studying or working in the real estate industry who need to understand the events that shaped the world they are entering into, and the lessons that can be learned from them.

Blackstone's Minority Investment in Deutsche Telekom Robert Motzek, 2011-11 Seminar paper from the year 2011 in the subject Business economics - Investment and Finance, Harvard University, course: Behavioral and Value Investing, language: English, abstract: 1. INTRODUCTION On 24 April 2006, the private equity company Blackstone acquired 4.6% of the shares of publicly listed German telecom incumbent Deutsche Telekom (DT) at a share price of 14 for a total of 2.7bn. According to Blackstone, DT was undervalued when compared to European peers. This paper has three objectives: 1) To apply various established value investing valuation techniques to assess whether DT was indeed undervalued at Blackstone's entry. 2) To explore which operational and share price performance Blackstone might have anticipated for DT in order to reach a typical private equity IRR of 25% over five years. 3) To review subsequent events and DT's performance since Blackstone's entry and to specify what would need to happen to at least recover Blackstone's investment. 1.1 Company and shareholder overview Deutsche Telekom is the German telecom incumbent and was Europe's largest telecom operator with sales of 59.6bn in 2005. The company generated 57% of its sales in Germany, another 22% in other European countries (mainly the United Kingdom) and the remaining 20% in North America. In terms of business areas, mobile communications accounted for 48% of its revenues, broadband/fixed network made up 36% and business customers 15%. DT's largest shareholder was the German government which held 15.2% of DT's shares directly and controlled another 17.3% via the German state-owned bank Kreditanstalt für Wiederaufbau (KfW). The remaining 63% were held by a fragmented institutional and private investor base. 1.2. Transaction details Blackstone bought its stake directly from KfW at a 2.6% premium to DT shares' trading price of 13.65, implying a total market capitalization of 58.8bn and an enterprise value of 97.4bn. In the fifth largest private equity investment ever observed

What It Takes Stephen A. Schwarzman, 2019-09-17 NEW YORK TIMES BESTSELLER From Blackstone chairman, CEO, and co-founder Stephen A. Schwarzman, a long-awaited book that uses impactful episodes from Schwarzman's life to show readers how to build, transform, and lead thriving organizations. Whether you are a student, entrepreneur, philanthropist, executive, or simply someone looking for ways to maximize your potential, the same lessons apply. People know who Stephen Schwarzman is—at least they think they do. He's the man who took \$400,000 and co-founded Blackstone, the investment firm that manages over \$500 billion (as of January 2019). He's the CEO whose views are sought by heads of state. He's the billionaire philanthropist who founded Schwarzman Scholars, this century's version of the Rhodes Scholarship, in China. But behind these achievements is a man who has spent his life learning and reflecting on what it takes to achieve excellence, make an impact, and live a life of consequence. Folding handkerchiefs in his father's linen shop, Schwarzman dreamed of a larger life, filled with purpose and adventure. His grades and athleticism got him into Yale. After starting his career in finance with a short stint at a financial firm called DLJ, Schwarzman began working at Lehman Brothers where he ascended to run the mergers and acquisitions practice. He eventually partnered with his mentor and friend Pete Peterson to found Blackstone, vowing to create a new and different kind of financial institution. Building Blackstone into the leading global financial institution it is today didn't come easy. Schwarzman focused intensely on culture, hiring great talent, and establishing processes that allow the firm to systematically analyze and evaluate risk. Schwarzman's simple mantra "don't lose money" has helped Blackstone become a leading private equity and real estate investor, and manager of alternative assets for institutional investors globally. Both he and the firm are known for the rigor of their investment process, their innovative approach to deal making, the diversification of their business lines, and a conviction to be the best at everything they do. Schwarzman is also an active philanthropist, having given away more than a billion dollars. In philanthropy, as in business, he is drawn to situations where his capital and energy can be applied to drive transformative solutions and change paradigms, notably in education. He uses the skills learned over a lifetime in finance to design, establish, and support impactful and innovative organizations and initiatives. His gifts have ranged from creating a new College of Computing at MIT for the study of artificial intelligence, to establishing a first-of-its-kind student and performing arts center at Yale, to enabling the renovation of the iconic New York Public Library, to founding the Schwarzman Scholars fellowship program at Tsinghua University in Beijing—the single largest philanthropic effort in China's history from international donors. Schwarzman's story is an empowering, entertaining, and informative guide for anyone striving for greater personal impact. From deal making to investing, leadership to entrepreneurship, philanthropy to diplomacy, Schwarzman has lessons for how to think about ambition and scale, risk and opportunities, and how to achieve success through the relentless pursuit of excellence. Schwarzman not only offers readers a thoughtful reflection on all his own experiences, but in doing so provides a practical blueprint for success.

Childfree by Choice Dr. Amy Blackstone, 2019-06-11 From Dr. Amy Blackstone, childfree woman, co-creator of the blog we're {not} having a baby, and nationally recognized expert on the childfree choice, comes a definitive investigation into the history and current growing movement of adults choosing to forgo parenthood: what it means for our society, economy, environment, perceived gender roles, and legacies, and how understanding and supporting all types of families can lead to positive outcomes for parents, non-parents, and children alike. As a childfree woman, Dr. Amy Blackstone is no stranger to a wide range of negative responses when she informs people she doesn't have--nor does she want--kids: confused looks, patronizing quips, thinly veiled pity, even outright scorn and

condemnation. But she is not alone in opting out when it comes to children. More people than ever are choosing to forgo parenthood, and openly discussing a choice that's still often perceived as taboo. Yet this choice, and its effects personally and culturally, are still often misunderstood. Amy Blackstone, a professor of sociology, has been studying the childfree choice since 2008, a choice she and her husband had already confidently and happily made. Using her own and others' research as well as her personal experience, Blackstone delves into the childfree movement from its conception to today, exploring gender, race, sexual orientation, politics, environmentalism, and feminism, as she strips away the misconceptions surrounding non-parents and reveals the still radical notion that support of the childfree can lead to better lives and societies for all.

Solutions For Anti-Black Misandry, Flat Blackness, and Black Male Death T. Hasan Johnson,2023-08-15 This book deconstructs stereotypes about Black men through the exploration of their vulnerability, drawing attention to their demographic-specific issues and needs that are so rarely articulated. Since the Black Power era, many Black men have responded with a Black identity affirming sensibility that sought to advance the cause of Black people. However, Black males have a need for race and gender-specific vocabulary that explains their experience with specificity, including concepts such as Black Masculinism, anti-Black misandry, and Black Andromortality, which seek to explain the experiences of Black males from the context of their lived experiences. Drawing upon empirical data, this volume offers policy solutions that challenge the institutional prejudices against Black males and the disproportionately high rates of death they face. Solutions are proposed to the outlined challenges and chapters span topics such as social and family-based solutions, health, small business support, law, and policy. This book will be essential reading for researchers, professionals, and anyone interested in masculinity, gender studies, and Black Male Studies.
