The Blood Flag James W. Huston,2015-11-10 The Blood Flag was last seen on October 18, 1944, when Heinrich Himmler displayed it proudly as he commissioned the Volkssturm, the Nazi Party’s new militia created to avert the certain defeat that awaited Germany. Hitler believed the Blood Flag, Blutfahne, carried sacred powers. It held the blood of the first Nazi martyrs, those killed in the Beer Hall Putsch in Munich in 1923, when Hitler first tried to take over Germany. Several Nazis were shot and fell onto the flag, pouring their blood into the already red fabric. That flag—with a white circle and a black swastika in the middle—still lives. Kyle Morrissey, a special agent for the FBI, travels to Europe with his father to see him receive the Legion of Honor from France for his service at Normandy. But after the ceremony, while traveling through Germany, Kyle and his family encounter neo-Nazis perpetuating the evil philosophy he thought his father’s generation had ended once and for all. Kyle soon discovers that tens of thousands are ready to raise the swastika once more and renew the hatred of the thirties and forties. Baffled and furious, Kyle embarks on a personal mission to bring down the movement. But how? In trying to understand the history of Nazism, Kyle learns of the Blood Flag and knows it is the key to his success. From DC to Dresden to Recklinghausen and Argentina, the Blood Flag leads Kyle on a worldwide race in an attempt to end international Nazism for good.

Hell Divers Nicholas Sansbury Smith,2022-01-25 The New York Times and USA Today bestselling series They dive so humanity survives ... More than two centuries after World War III poisoned the planet, the final bastion of humanity lives on massive airships circling the globe in search of a habitable area to call home. Aging and outdated, most of the ships plummeted back to earth long ago. The only thing keeping the two surviving lifeboats in the sky are Hell Divers--men and women who risk their lives by skydiving to the surface to scavenge for parts the ships desperately need. When one of the remaining airships is damaged in an electrical storm, a Hell Diver team is deployed to a hostile zone called Hades. But there's something down there far worse than the mutated creatures discovered on dives in the past--something that threatens the fragile future of humanity.

Pignon Scorbion & the Barbershop Detectives Rick Bleiweiss,2022-02-08 For fans of Sherlock Holmes and Agatha Christie’s Hercule Poirot, author Rick Bleiweiss’s quirky new detective and ensemble cast of characters set against the backdrop of small-town England in the 1910s will feel both comfortingly familiar and thrillingly new. The year is 1910, and in the small and seemingly sleepy English market town of Haxford, there’s a new police Chief Inspector. At first, the dapper and unflappable Pignon Scorbion strikes something of an odd figure among the locals, who don’t see a need for such an exacting investigator. But it isn’t long before Haxford finds itself very much in need of a detective. Luckily, Scorbion and the local barber are old acquaintances, and the barbershop employs a cast of memorable characters who—together with an aspiring young ace reporter for the local Morning News—are nothing less than enthralled by the enigmatic new police Chief Inspector. Investigating a trio of crimes whose origins span three continents and half a century, Pignon Scorbion and his “tonorial sleuths” interview a parade of interested parties, but with every apparent clue, new surprises come to light. And just as it seems nothing can derail Scorbion’s cool head and almost unerring nose for deduction, in walks Thelma Smith—dazzling, whip-smart, and newly single. Has Pignon Scorbion finally met his match?

Toxic Effects Joel Shulkin,2022-09-20 Don’t forget to be afraid. Neuropsychiatrist Cristina Silva cannot escape her past. The voice in her head of her former identity won’t let her. Cristina also can’t quite manage to force herself to forget the ex-boyfriend she dumped: handsome police detective Gary Wilson. Soon after beginning her new job at the Longwood Memory Center, Cristina receives a startling phone call from her contact at the FBI: an assassin is crisscrossing the country, killing anyone connected to the now-defunct pharmaceutical company ReMind—people like Cristina. The shadowy criminal enterprise Zero Dark is back. Indeed, an assassin is tracking Cristina, a literal femme fatale known as Dama Branca. Like Cristina, DB’s memory was robbed by Zero Dark. Transfixed by the brilliant doctor, DB’s unsure what’s preventing her from killing Cristina. DB has memory glitches and longs to interpret them. Whether or not these have to do with Cristina, she doesn’t know, but she senses their fates are entwined—with any luck, not fatally. Danger lurks in the shadows. Cristina’s spurned lover, Wilson, is investigating the suspicious deaths of local teens, convinced they’re not accidents. Before their bewildering ends, all the victims exhibit bizarre behavior, and there are now terrified whispers among their friends of a hooded boogeyman called Sack Man. One exceptional young man, Reggie Horne, is clearly in the middle of this bedlam. Wilson vows to prevent Sack Man from claiming Reggie as his next casualty. And when Cristina’s in danger, Wilson is never far away. Just as it becomes apparent their two stories are entangled, the peril shoots sky-high. With at least one killer in their wake, they must quickly determine what’s real and what’s not. Unlocking Cristina’s memories could save many lives—her own included.

Downward to the Earth Robert Silverberg,2022-03-15 “Vividly realized and inventive . . . A brooding masterpiece of social science fiction” from the Hugo and Nebula Award-winning author (Science Fiction and Other Suspect Ruminations). After eight years away from the planet known as Holman’s World, Edmund Gunderson has returned. Before, as the assistant station manager, he helped the Company exploit the bustling colonial outpost for Earth’s gain—mining its riches and putting its native species to work. Now, the planet has been given back to its inhabitants: the intelligent, elephant-like beings known as the nildoror, who peacefully coexist with carnivorous bipeds known as the sulidoror. And Edmund Gunderson has come back to relive his past and meet up with old acquaintances. Or so he says . . . What Gunderson really wants is to witness the rebirth of the nildoror, a sacred ceremony performed in the northern mist country. Given permission from the elders, he travels deeper into the exotic world than he has ever gone before, through tropical jungles teeming with alien creatures. It is a journey that will take Gunderson deep within himself, where his own failings and fears reside, and bring him face to face with the planet’s greatest mysteries—and the evil within men’s souls . . . “Brilliantly imagined . . . One of the finest writers ever to work in science fiction.” —The Philadelphia Inquirer on Tom O’Bedlam “Like all truly superior sci-fi, Downward to the Earth is the sort of novel that just bursts with some imaginative idea or unexpected touch on every single page. It is a terrific feat of the imagination, wonderfully well written by Silverberg, and with fascinating characters, both alien and human.” —Fantasy Literature

Now, in crisis after her father’s death, Jess has reentered Nina’s life following a long separation. Once again they switch bodies, and their worlds begin to mesh. Breaking the News Alex Marlow, 2021-05-18 From the editor in chief of Breitbart News, the New York Times bestselling “must-read” (Sean Hannity) investigation into how the establishment media became weaponized against Donald Trump and his supporters on behalf of the political left. In this timely and “important book” (Glenn Beck), Marlow explains how the establishment press destroyed its own credibility with a relentless stream of “fake news” designed to smear Donald Trump and his supporters while advancing a leftist agenda. He also reveals key details on how our information gatekeepers truly operate and why America’s “fake news” moment might never end. Breitbart—and Trump—began banging the drum about “fake news” during the 2016 election, and it resonated with millions of voters because they intuitively knew the corporate media was willing to say or write anything to achieve their political ends. It’s a battle cry that continues to this day. Deeply researched and eye-opening, *Breaking the News* rips back the curtain on the inner workings of how the establishment media weaponizes information to achieve their political and cultural ends.

The Good Turn Dervla McTiernan, 2021-08-31 Some lines should never be crossed. Police corruption, an investigation that ends in tragedy, and the mystery of a little girl’s silence—three unconnected events that will prove to be linked by one small town. While Detective Cormac Reilly faces enemies at work and trouble in his personal life, Garda Peter Fisher is relocated out of Galway with the threat of prosecution hanging over his head. But even that is not as terrible as having to work for his overbearing father, the local copper for the pretty seaside town of Roundstone. For some, like Anna and her young daughter, Tilly, Roundstone is a refuge from trauma. But even this village on the edge of the sea isn’t far enough to escape from the shadows of evil men.

What It Takes Stephen A. Schwarzman, 2019-09-17 NEW YORK TIMES BESTSELLER From Blackstone chairman, CEO, and co-founder Stephen A. Schwarzman, a long-awaited book that uses impactful episodes from Schwarzman’s life to show readers how to build, transform, and lead thriving organizations. Whether you are a student, entrepreneur, philanthropist, executive, or simply someone looking for ways to maximize your potential, the same lessons apply. People know who Stephen Schwarzman is—at least they think they do. He’s the man who took \$400,000 and co-founded Blackstone, the investment firm that manages over \$500 billion (as of January 2019). He’s the CEO whose views are sought by heads of state. He’s the billionaire philanthropist who founded Schwarzman Scholars, this century’s version of the Rhodes Scholarship, in China. But behind these achievements is a man who has spent his life learning and reflecting on what it takes to achieve excellence, make an impact, and live a life of consequence. Folding handkerchiefs in his father’s linen shop, Schwarzman dreamed of a larger life, filled with purpose and adventure. His grades and athleticism got him into Yale. After starting his career in finance with a short stint at a financial firm called DLJ, Schwarzman began working at Lehman Brothers where he ascended to run the mergers and acquisitions practice. He eventually partnered with his mentor and friend Pete Peterson to found Blackstone, vowing to create a new and different kind of financial institution. Building Blackstone into the leading global financial institution it is today didn’t come easy. Schwarzman focused intensely on culture, hiring great talent, and establishing processes that allow the firm to systematically analyze and evaluate risk. Schwarzman’s simple mantra “don’t lose money” has helped Blackstone become a leading private equity and real estate investor, and manager of alternative assets for institutional investors globally. Both he and the firm are known for the rigor of their investment process, their innovative approach to deal making, the diversification of their business lines, and a conviction to be the best at everything they do. Schwarzman is also an active philanthropist, having given away more than a billion dollars. In philanthropy, as in business, he is drawn to situations where his capital and energy can be applied to drive transformative solutions and change paradigms, notably in education. He uses the skills learned over a lifetime in finance to design, establish, and support impactful and innovative organizations and initiatives. His gifts have ranged from creating a new College of Computing at MIT for the study of artificial intelligence, to establishing a first-of-its-kind student and performing arts center at Yale, to enabling the renovation of the iconic New York Public Library, to founding the Schwarzman Scholars fellowship program at Tsinghua University in Beijing—the single largest philanthropic effort in China’s history from international donors. Schwarzman’s story is an empowering, entertaining, and informative guide for anyone striving for greater personal impact. From deal making to investing, leadership to entrepreneurship, philanthropy to diplomacy, Schwarzman has lessons for how to think about ambition and scale, risk and opportunities, and how to achieve success through the relentless pursuit of excellence. Schwarzman not only offers readers a thoughtful reflection on all his own experiences, but in doing so provides a practical blueprint for success.
