Smith,2015-05-18 This comprehensive clinical handbook provides virtually everything needed to plan, deliver, and evaluate effective treatment for persons with substance abuse problems and persistent mental illness. From authors at the forefront of the dual disorders field, the book is grounded in decades of influential research. Presented are clear guidelines for developing integrated treatment programs, performing state-of-the-art assessments, and implementing a wide range of individual, group, and family interventions. Also addressed are residential and other housing services, involuntary interventions, vocational rehabilitation, and psychopharmacology for dual disorders. Throughout, the emphasis is on workable ways to combine psychiatric and substance abuse services into a cohesive, unitary system of care. In a convenient large-size format, the volume includes reproducible assessment forms, treatment planning materials, and client handouts.

Long-Distance Hiking: Lessons from the Appalachian Trail Roland Mueser,1997-11-22 Blending sage advice with personal experiences and anecdotes, this unconventional book is an unusually thoughtful account of long-distance trekking on the Appalachian Trail. Mueser draws upon interviews and questionnaire data gathered from over 100 long distance hikers hoofing it through the Appalachian Mountains.

City in the Sky James Glanz,Eric Lipton,2014-01-21 The definitive biography of the iconic skyscrapers and the ambitions that shaped them--from their dizzying rise to their unforgettable fall More than a year after the nation began mourning the lives lost in the attacks on the World Trade Center, it became clear that something else was being mourned: the towers themselves. They were the biggest and brashest icons that New York, and possibly America, has ever produced--magnificent giants that became intimately familiar around the globe. Their builders were possessed of a singular determination to create wonders of capitalism as well as engineering, refusing to admit defeat before natural forces, economics, or politics. No one knows the history of the towers better than New York Times reporters James Glanz and Eric Lipton. In a vivid, brilliantly researched narrative, the authors re-create David Rockefeller's ambition to rebuild lower Manhattan, the spirited opposition of local storeowners and powerful politicians, the bold structural innovations that later determined who lived and died, master builder Guy Tozzoli's last desperate view of the towers on September 11, and the charged and chaotic recovery that could have unraveled the secrets of the buildings' collapse but instead has left some enduring mysteries. City in the Sky is a riveting story of New York City itself, of architectural daring, human frailty, and a lost American icon.

Treatment of Complex Trauma Christine A. Courtois,Julian D. Ford,2015-09-21 The research base on complex psychological trauma has grown significantly in recent years. Yet even with the development of more effective techniques for treating complex trauma survivors, therapists often struggle to build strong relationships with these severely distressed clients. In this guide, the authors present an approach for helping adult clients move through the three phases of posttraumatic recovery -- and for managing the inevitable roadblocks and relationship issues that occur. The introductory chapters explore how complex trauma emerges from chronic victimization and the disruption of attachment bonds in childhood or adulthood and review diagnostic considerations. Two extended case examples highlight clinical issues that arise with this population and, running throughout the chapters, show how to use a secure therapeutic alliance as a foundation for utilizing evidence-based treatment strategies. The authors demonstrate ways to weave together elements of cognitive-behavioral, psychodynamic, relational, and systemic therapies, along with other proven approaches, in the service of working toward clearly defined therapeutic goals. In Phase 1, the emphasis is basic safety and personal stabilization. Phases 2 and 3 address trauma processing and the challenges of creating a new, more satisfying life. Strategies for tailoring interventions to each individual's needs and strengths, aided by ongoing assessment, are detailed. Applications in group, couple, and family therapy are also discussed.

"I Make No Apology" Bob Mitchell,

Late Edition Bob Greene,2010-05-25 In a warm, affectionate true-life tale, New York Times bestselling author Bob Greene (When We Get to Surf City, Duty, Once Upon a Town) travels back to a place where--when little more than a boy--he had the grand good luck to find himself surrounded by a brotherhood and sisterhood of wayward misfits who, on the mezzanine of a Midwestern building, put out a daily newspaper that didn't even know it had already started to die. In some American cities, Greene writes, famous journalists at mighty and world-renowned papers changed the course of history with their reporting. But at the Columbus Citizen-Journal, there was a willful rejection of grandeur--these were overworked reporters and snazzy sportswriters, nerve-frazzled editors and insult-spewing photographers, who found pure joy in the fact that, each morning, they awakened to realize:I get to go down to the paper again today--Jacket.

Flashback Bob Schwartz,2016-05-14 These are the stories about my life, Bob Schwartz. They are all true. Some will make you laugh, and some will make you cry. It is my hope that all will be of interest to the reader. This is the kind of book that has short short stories. It is the kind of book that I hope will entertain the reader as he goes to lunch, takes a plane, or visits the bathroom. The stories cover the years from the 1950s to the present. They talk about my parents restaurant on the west side of Chicago, my many jobs, and my work as a teacher and a salesman. They cover a world that has gone and the people that were a part of it. The stories are all flashbacks.
