The Studio Jacob Abbott,1855

The Oak Park Studio of Frank Lloyd Wright Lisa D. Schrenk,2021-04-05 Between 1898 and 1909, Frank Lloyd Wright’s residential studio in the idyllic Chicago suburb of Oak Park served as a nontraditional work setting as he matured into a leader in his field and formulized his iconic design ideology. Here, architectural historian Lisa D. Schrenk breaks the myth of Wright as the lone genius and reveals new insights into his early career. With a rich narrative voice and meticulous detail, Schrenk tracks the practice’s evolution: addressing how the studio fit into the Chicago-area design scene; identifying other architects working there and their contributions; and exploring how the suburban setting and the nearby presence of Wright’s family influenced office life. Built as an addition to his 1889 shingle-style home, Wright’s studio was a core site for the ideological development of the prairie house, one of the first truly American forms of residential architecture. Schrenk documents the educational atmosphere of Wright’s office in the context of his developing design ideology, revealing three phases as he transitioned from colleague to leader. This heavily illustrated book includes a detailed discussion of the physical changes Wright made to the building and how they informed his architectural thinking and educational practices. Schrenk also addresses the later transformations of the building, including into an art center in the 1930s, its restoration in the 1970s and 80s, and its current use as a historic house museum. Based on significant original and archival research, including interviews with Wright’s family and others involved in the studio and 180 images, *The Oak Park Studio of Frank Lloyd Wright* offers the first comprehensive look at the early independent office of one of the world’s most influential architects.

International Studio ,1919

“Liaozhai” 聊齋; Strange Tales from a Chinese Lonely Studio (Complete Translation) Pu Songlin, Liaozhai Zhiyi (Liaozhai; Chinese: 聊齋, or 聊齋志異), called in English *Strange Tales from a Chinese Lonely Studio* is a collection of Classical Chinese stories by Pu Songling comprising close to five hundred marvel tales in the zhiguai and chuanqi styles which serve to implicitly criticise societal issues then. Dating back to the Qing dynasty, its earliest publication date is given as 1740. Since then, many of the critically lauded stories have been adapted for other media such as film and television. The main characters of this book apparently are ghosts, foxes, immortals and demons, but the author focused on the everyday life of commoners. He used the supernatural and the unexplainable to illustrate his ideas of society and government. He criticized the corruption and injustice in society and sympathized with the poor. The book is complete translation of all volumes (Vol. 1 to 12) of Liaozhai.

Residential Design Studio Robert Philip Gordon,2015-02-15 Residential Design Studio details the process of how a professional interior designer and an architect plan and design a residence. Taking the approach of an interview with a potential homeowner, students will create a profile of the end user so that decisions can be made on program and budget. The book simulates for the residential design studio the same conditions that a professional designer faces including client requirements, program, budget, existing plan boundaries, and site location, providing a framework for students to do their own thinking and their own design work. Chapters cover everything from single-family detached homes, attached townhouses, and apartment buildings to preliminary design, remodeling, adaptive reuse, and urban design.

Expanded Practice: Höweler + Yoon Architecture/My Studio J. Meejin Yoon,Eric Höweler,2009-07-14 Rising stars in Boston's design scene, architects Eric Howeler and J. Meejin Yoon have in a single decade developed a reputation for radical experiments in architectural form. Their design methodology--what they call an expanded practice--combines intense research with interdisciplinary experimentation. Howeler and Yoon's sensational, competition-winning lighting entry for the 2004 Athens Olympics exemplifies their fearless approach: without any prior experience in public space interactive design, the firm constructed a luminous, interactive soundscape installation at the base of the Acropolis. White Noise White Light featured a field of semiflexible fiber-optic strands that emitted white light and white noise in response to the movement of pedestrians. The project, an enormous success, enchanted a multitude of visitors who moved amidst the cilia of light. Expanded Practice presents twenty-nine recent projects by this young firm encompassing a broad range of scales and media. The projects, divided into distinct but often overlapping research themes, include a museum courtyard program inspired by the Voronoi cell-packing algorithm (PS1 Loop); an outdoor light installation featuring hovering cones that capture and interact with solar energy, rainwater, and sound (Hover); a garment designed to turn inside out as it unravels (Möbius Dress); and a landscape design that weaves technology and texture into an integrated and interactive landscape (Tripanel). Packed with drawings, diagrams, and photographs of each project's design process, Expanded Practice provides an inspirational look into one of the most exciting young firms working in architecture today.

Studio of the South Martin Bailey,2021-07-06 Martin Bailey has written some of the most interesting books on Vincent’s life in France, where he produced his greatest work” - Johan van Gogh, grandson of Theo, the artist’s brother Studio of the South tells the story of Van Gogh’s stay in Arles, when his powers were at their height. For Van Gogh, the south of France was an exciting new land, bursting with life. He walked into the hills inspired by the landscapes, and painted harvest scenes in the heat of summer. He visited a fishing village where he saw the Mediterranean for the first time, energetically capturing it in paint. He painted portraits of friends and locals, and flower still life paintings, culminating in the now iconic Sunflowers. He rented the Yellow House, and gradually did it up, calling it ‘an artist’s house’, inviting Paul Gauguin to join him there. This encounter was to have a profound impact on both of the artists. They painted side by side, their collaboration coming to a dramatic end a few months later. The difficulties Van Gogh faced led to his eventual decision to retreat to the asylum at Saint-Remy. Based on extensive original research, the book reveals discoveries that throw new light on the legendary artist and give a definitive account of his fifteen months in Provence, including his time at the Yellow House, his collaboration with Gauguin and its tragic and shocking ending.

The Art Journal ,1871

The Wall Beside the Work Derek Pigrum,2021-06-23 This book is about the way artists generate an endless chain of substitute objects for something they can never quite find. It explores the work involved in art with a focus upon finding, gathering, and assembling charged and auratic objects on the wall beside the work. The author employs the term Das Gegenwerk or the work towards the work. This concept avoids definitive closure and expands the notion of drafting and related practices to include qualitative research methods. The multi-mode transitional practices of Das Gegenwerk are devoid of any demand for a preconceived goal but instead hinge upon the provisional and indeterminate. As such, it is a far cry from the binary logic of the computer and the design cycle but is of interest to an audience engaged with both. Das Gegenwerk hinges on our capacity to respond to the outside rather than the inwardness often attributed to creative agency. A fundamental belief of the book is that by investigating and adapting the practices of expert practitioners, we can gain an understanding of high-level creativity. It is neither a recipe nor a linear or cyclic approach. Rather, artistic creation is an interweave of transitional multi-mode practices where the overriding emphasis is on the handling or

habituation of transitional materials in physical place. The author addresses the urgent need to provide a balance between the promise of new technology and our capacity to both respond to and work with what the world bestows.

Design Studio Four: Parametric Symphony Zachary Elliott,2019-07-18 Architecture is the frozen music. Music is the flowing architecture. After being accepted into professional school, we begin the second phase of our education in Studio Four. Professor Jerry Stivers, the bard of this new adventure, leads the sixteen students of 3116 on a journey to discover the timeless relationship between music and architecture, phenomenology and performance. Throughout the semester we discover new perspectives on design through the avenue of song. From a model project for a musical component to a humble performing arts center in OKC, traditional paradigms of architecture are challenged and reignited through this new parametric symphony.

Studio ,1896

Jeff Wall and the Concept of the Picture Naomi Merritt,2020-12-30 This book grapples with fundamental questions about the evolving nature of pictorial representation, and the role photography has played in this ongoing process. These issues are explored through a close analysis of key themes that underpin the photography practice of Canadian artist Jeff Wall and through examining important works that have defined his oeuvre. Wall’s strategic revival of ‘the picture’ has had a resounding influence on the development of contemporary art photography, by expanding the conceptual and technical frameworks of the medium and introducing a self-reflexive criticality. Naomi Merritt brings a new and original contribution to the scholarship on one of the most significant figures to have shaped the course of contemporary art photography since the 1970s and shines a light on the multilayered connections between photography and art. This book will be of interest to scholars in the history of photography, art and visual culture, and contemporary art history.
