**Broken Ice** Matt Goldman, 2018-06-12 In the words of Lee Child on *Gone with the Wind*, "I want more of Nils Shapiro." Emmy-award winning and New York Times bestselling author Matt Goldman happily obliges by bringing the Minneapolis private detective back for another thrilling, standalone adventure in *Broken Ice*. Nils Shapiro has been hired to find missing Linnea Engstrom, a teenager from the small northern hockey town of Warroad, MN. Most of Warroad is in Minneapolis for the state high school hockey tournament, and Linnea never returned from last night's game. Linnea's friend Haley Housch is also missing—and soon found dead. Shot through the arm with an arrow at the Haley Housch crime scene, only the quick work of medical examiner Char Northagen saves Nil's life. Nils should be in the hospital recovering from his near fatal injury, but he knows that the clock is ticking. Linnea could be anywhere, and someone doesn't want her found. Is Linnea a victim, or is she playing a dangerous game? As bodies start piling up, the clues lead Nils and Ellegaard north to Warroad, a small, quiet town with many secrets to hide. **Building Common Interests in the Arctic Ocean with Global Inclusion** Paul Arthur Berkman, Alexander N. Vylegzhanin, Oran R. Young, David A. Balton, Ole Rasmus Øvretveit, 2022-05-07 This book contains an inclusive compilation of perspectives about the Arctic Ocean with contributions that extend from Indigenous residents and early career scientists to Foreign Ministers, involving perspectives across the spectrum of subnational-national-international jurisdictions. The Arctic Ocean is being transformed with global climate warming into a seasonally ice-free sea, creating challenges as well as opportunities that operate short-to-long term, underscoring the necessity to make informed decisions across a continuum of urgencies from security to sustainability time scales. The Arctic Ocean offers a case study with lessons that are especially profound at this moment when humankind is exposed to a pandemic, awakening a common interest in survival across our globally-interconnected civilization unlike any period since the Second World War. This second volume in the *Informed Decisionmaking for Sustainability* series reveals that building global inclusion involves common interests to address changes effectively "for the benefit of all on Earth across generations."

*Computational Granular Mechanics and Its Engineering Applications* Shunying Ji, Lu Liu, 2020-03-18 This book systematically introduces readers to computational granular mechanics and its relative engineering applications. Part I describes the fundamentals, such as the generation of irregular particle shapes, contact models, macro-micro theory, DEM-FEM coupling, and solid-fluid coupling of granular materials. It also discusses the theory behind various numerical methods developed in recent years. Further, it provides the GPU-based parallel algorithm to guide the programming of DEM and examines commercial and open-source codes and software for the analysis of granular materials. Part II focuses on engineering applications, including the latest advances in sea-ice engineering, railway ballast dynamics, and lunar landers. It also presents a rational method of parameter calibration and thorough analyses of DEM simulations, which illustrate the capabilities of DEM. The computational mechanics method for granular materials can be applied widely in various engineering fields, such as rock and soil mechanics, ocean engineering and chemical process engineering.

**Ice-Structure Interaction** Stephen J. Jones, Richard F. McKenna, Joy Tillotson, Ian J. Jordaan, 2012-12-06 IUTAM-IAHR Symposium on Ice-Structure Interaction Professor Bez Tabarrok, Chairman of the Canadian National Committee (CNC) of the International Union of Theoretical and Applied Mechanics (IUTAM) invited Professor Derek Muggeridge to organize a symposium on ice structure interaction. Dr. Muggeridge readily agreed and prepared a proposal that was endorsed by the CNC and presented to the General Assembly Meeting of IUTAM for their consideration. This Assembly gave its approval and provided the local organizing committee with the names of individuals who were willing to serve on the Scientific Committee. Dr. Muggeridge became chairman of this committee and Dr. Ian Jordaan became co-chairman of this committee as well as chairman of the local organizing committee. The symposium followed the very successful previous meeting, chaired by Professor P. Tryde in Copenhagen, by ten years. Both symposia utilized Springer-Verlag to publish their proceedings. The Faculty of Engineering and Applied Science at Memorial University of Newfoundland were particularly pleased to host this prestigious symposium as it marked the twentieth anniversary of its Ocean Engineering Research Centre.
