The Crimean Khanate and Poland-Lithuania Dariusz Kolodziejczyk,2011-06-22 Drawing on rich source material in several languages and three scripts (Arabic, Cyrillic, and Latin), this book presents a broad picture of international relations in early modern Eastern Europe, at the crossing point of Genghisid, Islamic, Orthodox, and Latin traditions.

Romanische Sprachgeschichte / Histoire linguistique de la Romania. 2. Teilband Gerhard Ernst,2006-01-01 The series Handbooks of Linguistics and Communication Science is designed to illuminate a field which not only includes general linguistics and the study of linguistics as applied to specific languages, but also covers those more recent areas which have developed from the increasing body of research into the manifold forms of communicative action and interaction.

Politics and Peasants in Interwar Romania Sorin Radu,Oliver Jens Schmitt,2017-11-06 The volume discusses the integration of peasants into the nation building project of Greater Romania with a focus on social and cultural practices. Thus, it addresses one of the key questions of the new political system in post-imperial East Central and Southeast Europe. It advocates a shift from a multiple top-down perspective (capital – province, urban political elites – rural voters) to an analysis concentrating on regionally diverse rural societies with a special interest in the predominantly ethnic Romanian population.

Karst Aquifers - Characterization and Engineering Zoran Stevanović,2015-02-25 This practical training guidebook makes an important contribution to karst hydrogeology. It presents supporting material for academic courses worldwide that include this and similar topics. It is an excellent sourcebook for students and other attendees of the International Karst School: Characterization and Engineering of Karst Aquifers, which opened in Trebinje, Bosnia & Herzegovina in 2014 and which will be organized every year in early summer. As opposed to more

theoretical works, this is a catalog of possible engineering interventions in karst and their implications. Although the majority of readers will be professionals with geology/hydrogeology backgrounds, the language is not purely technical making it accessible to a wider audience. This means that the methodology, case studies and experiences presented will also benefit water managers working in karst environments.

The Eastern Question or Balkan Nationalism(s) Dimitris Stamatopoulos,2018-09-10 This volume is critical to the two dominant historiographical paradigms on the topic of Balkan revolutions. This new treatment does not adopt a description of the national movements resulting from the dissolution of the territories of the “Sick man of Europe” from the Great European Powers (Eastern Question Paradigm). Nor is it based on the autonomous process of repetitive awakenings of sleeping Nations, drugged from the Oriental influence of their ruler (Balkan Nationalism Paradigm). Instead, the author attempts a classification as well as a new description of the Balkan national movements as a continuous feedback with the internal sociopolitical schisms in Western Europe, as expressed in the great revolutionary crises from the end of the eighteenth to the beginning of the twentieth century.

Byzantium after Byzantium Nicolae Iorga,2023-01-24 Although Constantinople fell to the Turks in 1453, bringing an end to the Eastern Roman Empire which had survived its predecessor in the West by nearly one thousand years, this important book argues that Byzantium did not die, but continued to influence European history all the way up to the beginning of the nineteenth century. The author's formula “ Byzantium after Byzantium” defines several centuries of world history. Iorga points out the great contributions of Byzantine civilization to the Western world, especially during the Renaissance. He demonstrates that Byzantium survived through its people and local autonomies, as well as through its exiles. They continued the Byzantine ideas, aspirations, education, and way of life. All of this allows us to speak of a Byzantium after Byzantium.
