Making Cultural Cities in Asia June Wang,Tim Oakes,Yang Yang,2015-12-22 This book examines the vast and largely uncharted world of cultural/creative city-making in Asia. It explores the establishment of policy models and practices against the backdrop of a globalizing world, and considers the dynamic relationship between powerful actors and resources that impact Asian cities. Making Cultural Cities in Asia approaches this dynamic process through the lens of assemblage: how the policy models of cultural/creative cities have been extracted from the flow of ideas, and how re-invented versions have been assembled, territorialized, and exported. This approach reveals a spectrum between globally circulating ideals on the one hand, and the place-based contexts and contingencies on the other. At one end of the spectrum, this book features chapters on policy mobility, in particular the political construction of the web of communication and the restructuring or rescaling of the state. At the other end, chapters examine the increasingly fragmented social forces, their changing roles in the process, and their negotiations, alignments, and resistances. This book will be of interest to researchers and policy-makers concerned with cultural and urban studies, creative

industries and Asian studies.

The Governance of Land Use in Korea Urban Regeneration OECD,2019-11-04 This report examines land-use trends, policies and practices in Korea, in particular in the city of Busan, through the lens of urban regeneration and citizen participation. Land-use planning is critical for the efficient and inclusive management of cities, pursuing sustainable and balanced development and improving quality of life and regional competitiveness.

2020 LOCAL INFORMATIZATION WHITE PAPER 대한민국 정보통신위원회 Korea Local Information Research & Development Institute,2021-12-01 이 책은 2020년 12월 1일부터 2021년 11월 30일까지의 기간 동안 전국 17개 시도에서 실시된 '2020년 지방자치단체 정보화 실태조사'의 결과를 바탕으로 작성된 것으로, 지방자치단체의 정보화 현황과 발전 방향을 제시하고 있다. 이 책은 1부 지방자치단체 정보화 실태, 2부 지방자치단체 정보화 발전 방향, 3부 지방자치단체 정보화 추진 과제 등으로 구성되어 있다.

Minicars, Maglevs, and Mopeds Selima Sultana,Joe Weber,2016-04-18 This book provides a fascinating look at the amazing diversity of forms of travel and transport around the world today in the context of cultures, politics, economics, and environment of a place. Across the timeline of human history, transportation has played a role in the migration of people and information, nation-building, economic development, environmental alteration, access to and the use of resources, and even the fall of civilizations. This single-volume reference presents more than 150 entries that describe the most up-to-date surface transport technologies and routes in use on every continent, including a broad range of road vehicles, railroads, person-powered vehicles, and even animals used for transportation. The book melds transportation geography with culture, politics, economics, and environment of place in its coverage of vehicles, transportation technologies, and some of the most famous streets, rail systems, and highways from around the world. The entries are written by transport geography scholars to be accessible to general readers without technical backgrounds. Each entry incorporates cross references that allow readers to easily find related entries, making the book ideal for conducting specific research or completing school projects.

Global Cities and Climate Change Taedong Lee,2014-08-21 Cities have led the way to combat climate change by planning and implementing climate mitigation and adaptation policies. These local

efforts go beyond national boundaries. Cities are forming transnational networks to enhance their understandings and practices for climate policies. In contrast to national governments that have numerous obstacles to cope with global climate change in the international and national level, cities have become significant international actors in the field of international relations and environmental governance. *Global Cities and Climate Change* examines the translocal relations of cities that have made an international effort to collectively tackle climate change. Compared to state-centric terms, international or trans-national relations, trans-local relations look at policies, politics, and interactions of local governments in the globalized world. Using multi-methods such as multi-level analysis, comparative case studies, regression analysis and network analysis, Taedong Lee illustrates why some cities participated in transnational climate networks for cities; under what conditions cities internationally cooperate with other cities, with which cities; and which factors influence climate policy performance. An essential read to all those who wish to understand the driving factors for local governments' engagement in global climate governance from a theoretical as well as practical point of view. Lee makes a valuable contribution to the fields of international relations, environmental policies, and urban studies.

The World's Cities Andrew James Jacobs, 2012 The World's Cities offers instructors and students in higher education an accessible introduction to the three major perspectives influencing city-regions worldwide: City-Regions in a World System; Nested City-Regions; and The City-Region as the Engine of Economic Activity/Growth. The book provides students with helpful essays on each perspective, case studies to illustrate each major viewpoint, and discussion questions following each reading. The World's Cities concludes with an original essay by the editor that helps students understand how an analysis incorporating a combination of theoretical perspectives and factors can provide a richer appreciation of the world's city dynamics.

OECD Reviews on Local Job Creation Employment and Skills Strategies in Korea

OECD, 2014-10-15 This book examines the contribution of local labour market policy to boosting quality employment and enhancing productivity in Korea. It focuses on the Bucheon and Busan regions.

OECD Territorial Reviews Competitive Cities in the Global Economy OECD, 2006-11-17 A synthesis report drawing from OECD metropolitan reviews, this book shows large cities' performance within their countries and addresses key dilemmas including competitiveness and social cohesion, intergovernmental relationships and urban finance.

Urban Renewal, Community and Participation Julie Clark, Nicholas Wise, 2018-05-02 This edited collection investigates the human dimension of urban renewal, using a range of case studies

from Africa, Asia, Europe, India and North America, to explore how the conception and delivery of regeneration initiatives can strengthen or undermine local communities. Ultimately aiming to understand how urban residents can successfully influence or manage change in their own communities, contributing authors interrogate the complex relationships between policy, planning, economic development, governance systems, history and urban morphology. Alongside more conventional methods, analytical approaches include built form analysis, participant observation, photographic analysis and urban labs. Appealing to upper level undergraduate and masters' students, academics and others involved in urban renewal, the book offers a rich combination of theoretical insight and empirical analysis, contributing to literature on gentrification, the right to the city, and community participation in neighbourhood change.

The Rise of Progressive Cities East and West Mike Douglass, Romain Garbaye, K. C. Ho, 2019-02-25
This book explores the leading role that cities can play in shaping progressive policies in collaboration with various stakeholders. It examines the timing of such shifts to progressivity in cities, the interactions that enable progressive actions to be developed and sustained, and the challenges and constraints facing progressive cities. The book approaches the themes using an array of methods to investigate how progressive city governments emerge, what constitutes a “progressive city” in terms of governance institutions, processes and outcomes and whether progressive cities are destined to be ephemeral or if they can be sustained over time. With its focus on the emerging role of local governments in shaping city futures, this book is useful for students, academics, government official and policy makers interested in geography, sociology, urban planning, public policy, political economy, social movements, participatory democracy and Asian and European studies.
