**The New How [Paperback]** Nilofer Merchant, 2014-04-15 What people are saying about The New How How are you going to get rid of your Air Sandwich if you don't even know what it is? Provocative and practical at the same time. -- Seth Godin, author of Linchpin The New How is informative and provides exciting insights because the suggestions are practical and doable. Merchant gets the new reality--leadership fails not so much from flawed strategy as it

does from failed processes of engagement from those responsible for implementing the strategy. In high-performing organizations, everyone acts like a leader, and they own the strategy and take actions to ensure its success. If you care about making a difference, read this book. --Barry Posner, author of *The Leadership Challenge* Collaboration is a powerful, competitive weapon: this book shows you how to use it to win markets. --Mark Interrante, VP Content Products, Yahoo, Inc. In a world in which the pace of change is ever quickening, collaboration, not control, is the route to a successful organization. This book tells you how to make your organization collaborative. And Nilofer Merchant's writing is a model of clarity. --Barry Schwartz, author of *The Paradox of Choice: Why More Is Less* Want to transform your organization into a collaborative enterprise? Nilofer Merchant provides insightful and practical strategies in *The New How*. --Padmasree Warrior, CTO, Cisco Systems, Inc. Merchant's book is a practical guide for the journey from strategy to implementation. The collaborative tools described here can help companies reach strategic success--and avoid pitfalls along the way. --Tom Kelley, General Manager, IDEO, and author of *Ten Faces of Innovation* Once in a generation, a book comes along that transforms the business landscape. For today's business leaders, *The New How* redefines the way companies create strategies and win new markets. Management gurus have always said people matter. But those same gurus still relegate strategy to an elite set of executives who focus on frameworks, long presentations, and hierarchical approaches. Business strategy typically has been planned by corporate chiefs in annual meetings, and then dictated to managers to carry out. *The New How* turns that notion on its head. After many years of working with Apple, Adobe, HP, and many other companies, Nilofer Merchant discovered the secret sauce:

the best way to create a winning strategy is to include employees at all levels, helping to create strategy they not only believe in, but are also equipped to implement. In *The New How*, Nilofer shows today's corporate directors, executives, and managers how they can transform their traditional, top-down approach to strategy planning and execution into collaborative strategization that has proven to be significantly more effective. Enhance performance and outcomes by deflating the air sandwich between executives in the boardroom and employees Recognize that strategy and execution are thoroughly intertwined Understand how successful strategy is founded in effective idea selection-a pile of good ideas doesn't necessarily build good strategy Create company strategy and link it to targeted execution, using the practical models and techniques provided

The tool is then explained in depth with an example of how it can be used. The strengths and weaknesses of individual tools are identified and there are suggestions for further help. *Solutions* is essential for anyone

profit, supported by civil society, sped by smart policy-can get the US completely off oil and coal by 2050, and later beyond natural gas as well. Authored by a world leader on energy and innovation, the book maps a robust path for integrating real, here-and-now, comprehensive energy solutions in four industries-transportation, buildings, electricity, and manufacturing-melding radically efficient energy use with reliable, secure, renewable energy supplies. Popular in tone and rooted in applied hope, Reinventing Fire shows how smart businesses are creating a potent, global, market-driven, and explosively growing movement to defossilize fuels. It points readers to trillions in savings over the next 40 years, and trillions more in new business opportunities. Whether you care most about national security, or jobs and competitive advantage, or climate and environment, this major contribution by world leaders in energy innovation offers startling innovations will support your values, inspire your support, and transform your sense of possibility. *The Business Solution to Poverty* Paul Polak, Mal Warwick, 2013-09-09 Right now the number of people living on \$2 a day or less is more than the entire population of the world in 1950. These 2.7 billion people are not just the world’s greatest challenge—they represent an extraordinary market opportunity. By learning how to serve them ethically and effectively,

businesses can earn handsome profits while helping to solve one of the world's most intractable problems. The key is what Paul Polak and Mal Warwick call Zero-Based Design: starting from scratch to create innovative products and services tailored for the very poor, armed with a thorough understanding of what they really want and need and driven by what they call "the ruthless pursuit of affordability." Polak has been doing this work for years, and Warwick has extensive experience in both business and philanthropy. Together, they show how their design principles and vision can enable unapologetic capitalists to supply the very poor with clean drinking water, electricity, irrigation, housing, education, healthcare, and other necessities at a fraction of the usual cost and at profit margins attractive to investors. Promising governmental and philanthropic efforts to end poverty have not reached scale because they lack the incentives of the market to attract massive resources. This book opens an extraordinary opportunity for nimble entrepreneurs, investors, and corporate executives that will result not only in vibrant, growing businesses but also a better life for the world's poorest people.
