The South Korean Film Renaissance Jinhee Choi,2011-07-21 For the past decade, the Korean film industry has enjoyed a renaissance. With innovative storytelling and visceral effects, Korean films not only have been commercially viable in the domestic and regional markets but also have appealed to cinephiles everywhere on the international festival circuit. This book provides both an industrial and an aesthetic account of how the Korean film industry managed to turn an economic crisis–triggered in part by globalizing processes in the world film industry–into a fiscal and cultural boom. Jinhee Choi examines the ways in which Korean film production companies, backed by affluent corporations and venture capitalists, concocted a variety of winning production trends. Through close analyses of key films, Choi demonstrates how contemporary Korean cinema portrays issues immediate to its own Korean audiences while incorporating the transnational aesthetics of Hollywood and other national cinemas such as Hong Kong and Japan. Appendices include data on box office rankings, numbers of films produced and released, market shares, and film festival showings.

modern Korean culture overseas. The term “Korean Wave” (“Hallyu” in Korean) was coined by the Chinese press a little more than a decade ago to refer to the popularity of Korean pop culture in China. The boom started with the export of Korean television dramas (miniseries) to China in the late 1990s. Since then, South Korea has emerged as a new center for the production of transnational pop culture, exporting a range of cultural products to neighboring Asian countries. More recently, Korean pop culture has begun spreading from its comfort zone in Asia to more global audiences in the Middle East, Africa, Europe, and the Americas.
