A Gentleman from Boynton B-y-t-e-s Back! Adrian Price,2006-04 We're fortunate to be able to enjoy the gifts of knowledge and technology. Sometimes these do not come problem-free for each of you. We have inherited some of the silliness and sheer stupidity such progress has imposed. In this series of humorous and logical commentaries, Gentleman from Boynton B-Y-T-E-S back avoids anger or rage and wins your expression, 'I wish I had said that!' What he has said over his lifetime serving corporate leaders and the major brands you buy today, including cars to groceries. Made sense and dollars. He has worked with Presidents, Congressmen, celebrities of the entertainment world, (suspected of their political idiocy) and has even made a relationship with functionaries of La Cosa Nostra. As marketing/creative adman, his industry association called on him to replace the nice 'miracle' of binaural sound with a better buzz word. He gave them STEREO, the word that lives with us today! The author is also a musician. His music and lyrics brightened amateur entertainment in the shows produced for the army. Eleven years with the volunteer department of the Palm Beach Sheriff's Office brought his recent retirement as Captain. This writer still does what so many wish they might do. He continues to write.

Memory Bytes Lauren Rabinovitz,Abraham Geil,2004-01-12 Digital culture is often characterized as radically breaking with past technologies, practices, and ideologies rather than as reflecting or incorporating them. Memory Bytes seeks to counter such ahistoricism, arguing for the need to understand digital culture—and its social, political, and ethical ramifications—in historical and philosophical context. Looking at a broad range of technologies, including photography, print and digital media, heat engines, stereographs, and medical imaging, the contributors present a number of different perspectives from which to reflect on the nature of media change. While foregrounding the challenges of drawing comparisons across varied media and eras, Memory Bytes explores how technologies have been integrated into society at different moments in time. These essays from scholars in the social sciences and humanities cover topics related to science and medicine, politics and war, mass communication, philosophy, film, photography, and art. Whether describing how the cultural and legal conflicts over player piano rolls prefigured controversies over the intellectual property status of digital technologies such as mp3 files; comparing the experiences of watching QuickTime movies to Joseph Cornell’s “boxed relic” sculptures of the 1930s and 1940s; or calling for a critical history of electricity from the Enlightenment to the present, Memory Bytes investigates the interplay of technology and culture. It relates the Information Age to larger and older political and cultural phenomena, analyzes how sensory effects have been technologically produced over time, considers how human subjectivity has been shaped by machines, and emphasizes the dependence of particular technologies on the material circumstances within which they were developed and used. Contributors. Judith Babbitts, Scott Curtis, Ronald E. Day, David Depew, Abraham Geil, Sharon Ghamari-Tabrizi, Lisa Gitelman, N. Katherine Hayles, John Durham Peters, Lauren Rabinovitz, Laura Rigal, Vivian Sobchack, Thomas Swiss

BOOMER BYTES & BUMMER RITES Neerja Singh,2022-11-28 Generation gap! The stakes have never been higher. At least five generations co-exist in a state of uneasy truce today. No one seems to hear the other. For the first time in mankind's history, their differences in preferences, priorities and prejudices have become tangible. The resulting grief is hurting our collective emotional and mental health. Generations are meant to be keepers of each other, they are the continuum of human survival, repositories of life's DNA. But for that to happen, there has to be a fundamental generational benevolence and that is no longer a given. How do we begin to change this headache into a help? The first step is to appreciate what lies behind the assumptions about each other. Why is a Boomer not ok anymore? What limitations, latitudes and legacies defined this cohort? This book invites the Millennials, Gen Z and Gen Alpha to look at life through a Boomer's bitter-funny lens.

A Pioneer Woman Doctor's Life Dr. Bethenia Angelina Owens-Adair,2014-11-20 A friend once said to her, 'If I wished to increase your height two and a half inches, I would attempt to press you down, and you would grow upward from sheer resentment.' Divorced at eighteen from an abusive husband in 1859 (scandalous at the time), and with a little baby to care for, Bethenia Angelina Owens was determined to make her way in the world. Her family begged her to let them support her but she wanted to earn her own livelihood. Taking in laundry, teaching school, and making cheese were among the tasks she set herself to. She eventually built a thriving business as a milliner that allowed her to send her son to college and to fulfill her own dream of becoming a doctor. Against all odds and a tidal wave of objections by friends, family, and male doctors, she prevailed. Despite the sentiment of the times that it was disgraceful for a woman to practice medicine, she enrolled in 1878 at the University of Michigan. By 1884, she was making \$7,000 per year, an astronomical sum, as a physician. For all of her life she was a strong and vocal advocate of women's rights. As a doctor, she gave the shocking advice, Nothing will preserve woman's grace and her symmetrical form so much as vigorous and systematic exercise, and horseback riding stands at the head of the list, providing she has a foot in each stirrup, instead of having the right limb twisted around a horn. She also provides accounts of other pioneer women of her acquaintance. For the first time, this long out-of-print volume is available as an affordable, well-formatted book for e-readers and smartphones. Be sure to LOOK INSIDE by clicking the cover above. Buy it today!
