**Pirate Philosophy** Gary Hall,2016-04-15 How philosophers and theorists can find new models for the creation, publication, and dissemination of knowledge, challenging the received ideas of originality, authorship, and the book. In *Pirate Philosophy*, Gary Hall considers whether the fight against the neoliberal corporatization of higher education in fact requires scholars to transform their own lives and labor. Is there a way for philosophers and theorists to act not just for or with the antiausterity and student protestors—"graduates without a future"—but in terms of their political struggles? Drawing on such phenomena as peer-to-peer file sharing and anticopyright/pro-piracy movements, Hall explores how those in academia can move beyond finding new ways of thinking about the world to find instead new ways of being theorists and philosophers in the world. Hall describes the politics of online sharing, the battles against the current intellectual property regime, and the actions of Anonymous, LulzSec, Aaron Swartz, and others, and he explains Creative Commons and the open access, open source, and free software movements. But in the heart of the book he considers how, when it comes to scholarly ways of creating, performing, and sharing knowledge, philosophers and theorists can challenge not just the neoliberal model of the entrepreneurial academic but also the traditional humanist model with its received ideas of proprietorial authorship, the book, originality, fixity, and the finished object. In other words, can scholars and students today become something like pirate philosophers?

Don't Pay for Your MBA Laurie Pickard,2017-11-02 Discover the secrets and tips to get the business education you need, the faster and cheaper way. The average debt load for graduates of the top business schools has now exceeded \$100,000. For most young professionals, this means spending the first half of their career in the red and feeling pressure to take the first position offered to them so that they can start paying off their debt. However, it doesn't have to be that way. Author and businesswoman Laurie Pickard discovered a way to get the business education she needed to land her dream job while avoiding the massive school loans that plague so many. In *Don't Pay for Your MBA*, she shares all that she learned so that others can benefit as well. Pickard discovered that the same prestigious business schools that offer the MBAs so many covet also offer MOOCs

(massive online open courses) for low or even no cost. Within these pages, you will learn how to: Define your goals and tailor a curriculum that is geared toward your dream job Master the language of business Build a strong network Choose a concentration and deepen your expertise Showcase your nontraditional education in a way that attracts companies Don't fall for the lies that pressure countless graduates every year into MBA programs and insurmountable debt. Self-directed online learning can fill gaps in your training, position you for promotions, and open new opportunities--at a fraction of the cost!

*Writing and Editing for Digital Media* Brian Carroll,2014-07-07 Writing and Editing for Digital Media, 2nd edition, teaches students how to write effectively for digital spaces—whether crafting a story for a website, blogging or using Twitter to cover a breaking news story or event. The lessons and exercises in each chapter help students build a solid understanding of the ways that digital communications have introduced opportunities for dynamic storytelling and multi-directional communication. Writing and Editing for Digital Media also addresses the graphical, multimedia, hypertextual and interactive elements that come into play when writing for digital platforms and designing digital spaces. The book teaches students not only to create content, but also to become careful, creative managers of that content. Based on Brian Carroll's extensive experience teaching the course, this revised and updated edition pays particular attention to opportunities presented by the growth of social media and mobile media. Chapters aim to: Assist digital communicators in understanding the social networked, increasingly mobile, always-on, geomapped, personalized media ecosystem; Help writers across multiple communication fields (journalism, marketing, PR, technical writing) make the transition from print to digital; Teach communicators to approach storytelling from a multimedia, multi-modal, interactive perspective. A companion website with exercises and assignments gives students the tools they need to put theory into practice.
