

**CHUN KIT CHAN**

**Minjie Lin**

**Mall City** Stefan Al, 2016-07-01 Hong Kong is the twenty-first-century paradigmatic capital of consumerism. Of all places, it has the densest and tallest concentration of malls, reaching tens of stories. Hong Kong's malls are also the most visited, sandwiched between subways and skyscrapers. These mall complexes have become cities in and of themselves, accommodating tens of thousands of people who live, work, and play within a single structure. *Mall City* features Hong Kong as a unique rendering of an advanced consumer society. Retail space has come a long way since the nineteenth-century covered passages of Paris, which once awed the bourgeoisie with glass roofs and gaslights. It has morphed from the arcade to the department store, and from the mall into the "mall city"—where "expresscalators" crisscross mesmerizing atriums. Highlighting the effects of this development in Hong Kong, this book raises questions about architecture, city planning, culture, and urban life. "At the nexus of density, humidity, topography, and prosperity, Hong Kong has spawned more malls per square mile than any place on earth. This fantastic book decodes and graphically depicts an

environment both apart and ubiquitous, a convulsive form of public space in a liquid territory where intensely contested politics, commerce, and sociability weirdly merge in a city like no other.” —Michael Sorkin, distinguished professor of architecture of the City University of New York “Hong Kong may be packed with the most shopping malls per square kilometer in the world, but Mall City is packed with the most drawings, information, and fascinating mall facts. The book dissects, categorizes, and displays all kinds of intriguing data on the city-state’s shopping complexes and culture. Its richly layered analysis perfectly matches Hong Kong’s multi-story machines for consumption.” —Clifford Pearson, director of USC American Academy in China “Stefan Al has again produced a book that provides a sharp lens on radically new urban forms that are emerging in China. While his previous books, *Villages in the City* and *Factory Towns of South China* introduced the site of production and housing for the migrant labor of the Pearl River Delta, here we enter the phantasmagoria of the enormous interconnected free-trade shopping zone of the Hong Kong Special Administrative Region. *Mall City* dissects the basic unit of this climate-controlled consumer landscape—the mall. This

beautifully illustrated book is a must-read for those who wish to understand the future of public space in high-density cities.” —Brian McGrath, professor of urban design and dean of constructed environments, Parsons School of Design

*Fiber-to-the-Home Technologies* Josep Prat,Pere E. Balaguer,Joan M. Gené,Oscar Díaz,Sergi Figuerola,2013-06-29 This broad-ranging volume fundamentally covers all the variable factors of development and advancement of the promising technology of FTTH, which will be the key broadband telecom access technique to the end users of the future.

**Telemedicine and Electronic Medicine** Halit Eren,John G. Webster,2018-10-08 The E-Medicine, E-Health, M-Health, Telemedicine, and Telehealth Handbook provides extensive coverage of modern telecommunication in the medical industry, from sensors on and within the body to electronic medical records and beyond. Telemedicine and Electronic Medicine is the first volume of this handbook. Featuring chapters written by leading experts and researchers in their respective fields, this volume: Describes the integration of—and interactions between—modern eMedicine, telemedicine, eHealth, and

telehealth practices Explains how medical information flows through wireless technologies and networks, emphasizing fast-deploying wireless body area networks Presents the latest developments in sensors, devices, and implantables, from medical sensors for mobile communication devices to drug-delivery systems Illustrates practical telemedicine applications in telecardiology, teleradiology, teledermatology, teleaudiology, teleoncology, acute care telemedicine, and more The E-Medicine, E-Health, M-Health, Telemedicine, and Telehealth Handbook bridges the gap between scientists, engineers, and medical professionals by creating synergy in the related fields of biomedical engineering, information and communication technology, business, and healthcare.

*New Essential Guide to Hong Kong Movies* Rick Baker, Kenneth Miller, 2024-02-13 Extensively revised and expanded, The New Essential Guide to Hong Kong Movies includes over 670 film reviews, a poster gallery, and a look at the key studios that made Hong Kong cinema so amazing, along with insights into the Hong Kong movie industry written by global superstar Jackie Chan and Hong Kong film stars Cynthia Rothrock, and Vincent Lyn. Rick Baker and Ken Miller have curated a huge selection

of reviews of kung fu and swordplay films, gangster flicks, crime dramas, action, horror, fantasy, erotic, and assorted Category III films, sharing their love for these distinctive, kinetic, and sometimes utterly bizarre Hong Kong genre productions with an infectious enthusiasm.

**Optical Fiber and Wireless Communications** Rastislav Róka,2017-06-21 The book Optical Fiber and Wireless Communications provides a platform for practicing researchers, academics, PhD students, and other scientists to review, plan, design, analyze, evaluate, intend, process, and implement diversiform issues of optical fiber and wireless systems and networks, optical technology components, optical signal processing, and security. The 17 chapters of the book demonstrate capabilities and potentialities of optical communication to solve scientific and engineering problems with varied degrees of complexity.

Advances in Visual Informatics Halimah Badioze Zaman,Alan F. Smeaton,Timothy K. Shih,Sergio Velastin,Tada Terutoshi,Bo Nørregaard Jørgensen,Hazleen Aris,Nazrita Ibrahim,2021-11-16 This book constitutes the refereed proceedings of the 7th International Conference on Advances in Visual

Informatics, IVIC 2021, held in Selangor, Malaysia in November 2021. The 59 papers presented were carefully reviewed and selected from 114 submissions. The papers are organized into the following topics: Visualization and Digital Innovation; Engineering and Digital Innovation; Cyber Security and Digital Innovation; and Energy Informatics and Digital Innovation.

Vertical Urbanism Zhongjie Lin, José L. S. Gámez, 2018-04-27 Studies of compact cities have evolved along with the rising awareness of climate change and sustainable development. Relevant debates, however, reveal that the prevailing definitions and practices of compact cities are tied primarily to traditional Western urban forms. This book reinterprets compact city, and develops a ground-breaking discourse of Vertical Urbanism, a concept that has never been critically articulated. It emphasizes Vertical Urbanism as a dynamic design strategy instead of a static form, distinguishing it from the stereotyped concept of vertical city or towers in the park dominant in China and elsewhere, and suggests its adaptability to different geographic and cultural contexts. Using Chinese cities as laboratories of investigation, this book explores the design, ecological, and sociocultural dimensions of

building compact cities, and addresses important global urban issues through localized design solutions, such as the relationship between density and vitality, the integration of horizontal and vertical dimensions of design, and the ecological and social adaptability of combinatory mega-forms. In addition, through discussions with scholars from the United States, China, and Japan, this book provides an insight into the theoretical debates surrounding compact city and Vertical Urbanism in the global context. Scholars and students in architecture and urban planning will be attracted by this book. Also, it will appeal to readers with an interest in urban development and Asian studies.

Communication and Computing Systems B.M.K. Prasad, Krishna Kant Singh, Neelam Ruhil, Karan Singh, Richard O'Kennedy, 2017-02-15 This book is a collection of accepted papers that were presented at the International Conference on Communication and Computing Systems (ICCCS-2016), Dronacharya College of Engineering, Gurgaon, September 9–11, 2016. The purpose of the conference was to provide a platform for interaction between scientists from industry, academia and other areas of society to discuss the current advancements in the field of communication and computing systems.

The papers submitted to the proceedings were peer-reviewed by 2-3 expert referees. This volume contains 5 main subject areas: 1. Signal and Image Processing, 2. Communication & Computer Networks, 3. Soft Computing, Intelligent System, Machine Vision and Artificial Neural Network, 4. VLSI & Embedded System, 5. Software Engineering and Emerging Technologies.

*The Structural Engineer* ,2006

**The Hong Kong Filmography, 1977-1997** John Charles,2009-04-16 Thanks to the successes of directors and actors like John Woo, Jackie Chan, and Chow Yun-Fat, the cinema of Hong Kong is wildly popular worldwide, and there is much more to this diverse film culture than most Western audiences realize. Beyond martial arts and comedy, Hong Kong films are a celebration of the grand diversity and pageantry of moviemaking—covering action, comedy, horror, eroticism, mythology, historical drama, modern romances, and experimental films. Information on 1,100 films produced in British Hong Kong from 1977 to 1997 is included here.

Directory of World Cinema: China 2 Gary Bettinson,2015-05-29 Since the publication of the first

volume of *Directory of World Cinema: China*, the Chinese film industry has intensified its efforts to make inroads into the American market. The 2012 acquisition of US theatre chain AMC and visual effects house Digital Domain by Chinese firms testifies to the global ambitions of China's powerhouse film industry. Yet Chinese cinema has had few crossover hits in recent years to match the success of such earlier films as *Crouching Tiger, Hidden Dragon*; *House of Flying Daggers* and *Kung Fu Hustle*. Yet even overseas revenue for Chinese movies has dwindled, domestic market growth has surged year after year. Indeed, annual production output remains healthy, and the daily expansion of screens in second-or third-tier cities attracts audiences whose tastes favour domestic films over foreign imports.

*The Constitutional System of the Hong Kong SAR* Albert H Y Chen, Po Jen Yap, 2023-08-17 This book provides an account of the evolving constitutional arrangement known as "One Country, Two Systems", as practised in the Hong Kong Special Administrative Region of the People's Republic of China (PRC). The British colony of Hong Kong, one of the "Four Little Dragons" of East Asia, reverted to Chinese rule in 1997. Since then, Hong Kong has continued to be an international financial

centre, a free market, and a cosmopolitan city. At the same time, the tensions and contradictions inherent in "One Country, Two Systems" have given rise to constitutional controversies and social movements, culminating in the Umbrella movement of 2014, the anti-extradition law movement of 2019, the enactment of a National Security Law in 2020, and the electoral overhaul of 2021. This book discusses the structure and operations of Hong Kong's legal, judicial and political systems and their interactions with the national authorities of the PRC. The book provides a useful case study in comparative constitutional law, especially on autonomy and devolution issues within sovereign States. This comparative study is particularly interesting because Hong Kong is a common law jurisdiction within the PRC's socialist legal system. It will therefore be of interest to students and scholars of Chinese law, Hong Kong law and comparative politics, as well as lawyers whose practice involves Hong Kong.

*The Ordinances of Hongkong, Including Proclamations, and Orders in Council for the Year Hong Kong, 1976*

*The AFC Asian Cup 2015* Simon Barclay, 2015-01-31 Australia's extra-time victory over South Korea in the final of the 2015 Asian Cup was the thrilling climax to a competition lasting over two years and 92 matches. This book covers the whole of the qualification process and then the glorious Finals tournament in detail. 170 pages of statistics include full match records and post-match reactions from key individuals and the coaches.

**Technology in Education. Technology-Mediated Proactive Learning** Jeanne Lam, Kwan Keung Ng, Simon K.S. Cheung, Tak Lam Wong, Kam Cheong Li, Fu Lee Wang, 2015-12-07 This book constitutes extended papers from the Second International Conference on Technology in Education, ICTE 2015, held in Hong Kong, China, in July 2015. The 26 full papers presented in this volume were carefully reviewed and selected from 41 submissions. They were organized in topical sections named: technology-enabled learning; mobile learning and ubiquitous learning; open learning and online

learning; institutional strategies, policies and practices; and learning platforms and advising systems.

*The Hong Kong Law Reports* ,1970

**Land and Housing Controversies in Hong Kong** Betty Yung,Kam-Por Yu,2020-07-16 This book discusses land and housing controversies in Hong Kong, which offer a point of reference for the comparison and analysis of similar or contrasting cases overseas from the perspective of social values. It enhances readers' understanding of the social values, philosophical and theoretical issues that underpin land and housing controversies, as well as their policy implications. The discussion in each chapter goes beyond mere substantive and contextual analysis, and is explicitly positioned and theorized within the broader context of social values, with a theoretical and philosophical framework for assessing the issue concerned. The book is interdisciplinary in nature, with each chapter integrating two or more disciplines to examine various controversial land and housing issues.

**Enabling Industry 4.0 through Advances in Mechatronics** Ismail Mohd. Khairuddin,Muhammad Amirul Abdullah,Ahmad Fakhri Ab. Nasir,Jessnor Arif Mat Jizat,Mohd. Azraai Mohd. Razman,Ahmad

Shahrizan Abdul Ghani,Muhammad Aizzat Zakaria,Wan Hasbullah Mohd. Isa,Anwar P. P. Abdul Majeed,2022-05-14 This book presents part of the iM3F 2021 proceedings from the mechatronics track. It highlights key challenges and recent trends in mechatronics engineering and technology that are non-trivial in the age of Industry 4.0. It discusses traditional as well as modern solutions that are employed in the multitude spectra of mechatronics-based applications. The readers are expected to gain an insightful view on the current trends, issues, mitigating factors as well as solutions from this book.
