Lymphokines Edgar Pick,2014-06-05 Lymphokines: A Forum for Immunoregulatory Cell Products deals with immunoregulatory cell products that produce lymphokines. Topics covered include the purification and characterization of transfer factor; activation of cytotoxicity and/or suppressor activity in murine macrophages by lymphokines, lipopolysaccharide, and polyinosinic-polycytidylic acid; and the role of clotting processes in the action of lymphokines on macrophages. A comparison of the immune-modulating effects of interferon and interferon inducers is also presented. Comprised of 13 chapters, this volume begins with a discussion on transfer factor and its ability to react specifically with antigens. The clinical uses of transfer factor are considered with special emphasis on its value as a prophylactic agent. The reader is then introduced to the subject of T cell regulation of the immunoglobulin E (IgE) response via potentiating and suppressor lymphokines, together with the possible clinical application of IgE suppressive factors in the treatment of atopic diseases. Subsequent chapters examine the evidence in favor of the existence of T cell-derived polyclonal B cell activator (PBA) playing a role in both normal antibody responses and autoimmune diseases; the role of suppressor T cells and the associated lymphokines in contact sensitivity in mice; and lymphokine action on macrophages. The book also analyzes the genetics of the response of human and mouse cells to interferons. This monograph will be helpful to practitioners and researchers in the fields of microbiology and immunology.

The Canoe Theory Dave Hibbard,Marhnelle Hibbard,Jack W. Stockman,2006-11 The Canoe Theory compares an organization and its members to a canoe and its crew. Like canoes, businesses need every member to paddle together for greater success. Today, more than ever, employers and employees feel disconnected from one another. The Canoe Theory provides solutions to difficult challenges business leaders and employees alike face and details how to bridge the gap and paddle together. This short yet powerful book lays out the seven simple principles of The Canoe Theory and how implementing them equals organizational success. Business leaders from across the country from organizations such as The Irvine Company, DuPont, and Steelcase (just to name a few) practice The Canoe Theory. Evaluate your organizational needs, read this book, and turn your business or organization into a dynamic force with The Canoe Theory! -Amazon.com editorial review The Canoe Theory captures the essence of the type of corporate culture which produces best in class results. It is a must read for anyone in management.-Patricia Cochran, CFO of VSP, the nation's largest specialized health plan for vision care, which has been listed on Fortune magazine's 100 best companies to work for list for the past six years. The Accidental Detectorist Nigel Richardson,2022-09-01 'Richardson writes beautifully about his return to the land, about

listening to the soil and about understanding the ancient world.' - The Spectator Each new field is hope, each old one reality. There are things below the surface that pull people together in a shared love of history, landscape and the hope that, this time, something incredible will be unearthed. When a travel writer is stuck on home soil in the middle of a pandemic he tries his hand at metal detecting - and is instantly addicted. This all-consuming hobby takes him around the country, back through history and deep into the psyches(his own included) of those hooked on 'happy bleeps'. The Accidental Detectorist is a big-hearted dig into a pastime sometimes mocked but always enticing. *** When locked-down travel writer Nigel Richardson is looking for a travel story close to his country cottage he turns to a leading metal detectorist with an infectious passion for the hobby. Before he knows it the mysteries of the fields are leading him on, into a world that casts the history of these isles and its people in an intriguing new light. Sifting Britain's soil from Portsmouth to Edinburgh, Nigel yearns to lose his detectorist's virginity by finding a 'hammered' coin - while learning that the search for treasure comes with a serious responsibility to our common heritage. As he immerses himself further in the world of metal detecting, exposing the shady activities of 'nighthawks', attending rallies and making lifelong friends, a change comes over him. This country beneath his feet, these people who scour it for clues and tokens - they are the home he's been looking for.
