Subtilisin Enzymes Richard Bott,Christian Betzel,2013-11-11 Subtilisin is the most extensively studied model system for protein engineering. The primary motivating factor for the interest in subtilisin is the commercial utility of this class of proteases. The subtilisin symposium was the first international meeting to bring together a large number of groups that have focused on the subtilisins and the subtilases-the protein superfamily of subtilisin-like enzymes. The results presented at the symposium are in this way a unique compendium of a broad spectrum of work largely focused on harnessing the potential of site-directed mutagenesis to understand and deliberately alter the function of these enzymes toward a desired end. This sort of protein engineering has been extremely successful in subtilisin, with many such engineered enzymes now widely used in commercial enterprises. In this regard the experience derived from subtilisin does represent practical protein engineering. It is becoming clear that subtilisin represents a larger class of enzymes, the subtilases, that include many of the human pro hormone-converting enzymes. As international collaborative efforts to sequence entire genomes continue, we can reasonably expect that additional members of the subtilase class will be encountered. Whenever interest in a member of this class of enzyme arises, the work on subtilisin will serve as a guide to the analysis for what in bacillus, fungi, and industry is an everyday workhorse enzyme.

Wailing Blues - The Story of Bob Marley's Wailers John Masouri,2009-11-11 This full-blooded story of The Wailers puts the life, music and death of the legendary Bob Marley into a razor-sharp new perspective. The Wailers played with Marley on all of the hit singles and albums that made him a legend, yet their story since his death is a little-known saga of betrayal, greed and murder that is told here in its entirety for the first time. Written in collaboration with Aston 'Family Man' Barrett and other surviving band members, the book explores Marley's colourful journey from downtown Kingston onto the world stage. It covers the assassination attempt on Marley's life, his exile in London, the kidnapping and decapitation of the Barretts' father, and the death by gunfire of both Peter Tosh and drummer Carlton Barrett. Bitter acrimony followed Marley's own death from cancer as the iconic singer's legacy was parlayed into a multi-million dollar industry.
