**Sculpted Darkness** Chedly Guarwachi,2023-07-02 Sculpted darkness is a novel that tackles numerous philosophical and social issues, such as traditional marriages, secret immigration, the relationship between women and men, enlightenment and the guardianship of atonement, the metaphysical and material realms, and many other concerns. The novel serves as a research tool that seeks answers while leaving more than one question unanswered. Darkness is here and there, now and always, real or metamorphically. In the sight and the insight, between the body and the soul. Darkness within us, in the lack of knowledge, and the dogmatism that refuses any difference. in extremism and war. Darkness is not blindness, it is more than a black world that Ritaj, the heroin of this novel, is living in. About the Author Chedly guarwachi is a Tunisian writer who has published several books including: - Borda from abroad, 1998 -the shadows of the showy letters, 2004 -The Slippery Attitude, 2007 -The necklace, 2017 (first prize by Mostafa Azzouz) -The songs of the desert, 2020 And several stories for children.

**Critical Perspectives on International Education** Yvonne Hébert,Ali A. Abdi,2013-02-11 In rapidly globalizing spaces of life, any research project on international education would necessarily have multi-directional emphases, with the quality of observations and analyses reflecting the expanding political, economic and cultural intersections which characterize this potentially promising century. To respond to these emerging learning and living contexts of our world, this book brings together some of the most active and established scholars in the field. As such, the book represents important epistemic interventions that analyze and critique the institutional, socio-economic, linguistic and pedagogical platforms of international education. As the locus of international education cannot be detached from the pragmatics of social development, the specific recommendations embedded in this book expand the debates and broaden the boundaries of learning projects that should enhance the lives of people, especially those who are continually marginalized by the regimes of globalization. Thus, the book actively advocates for possibilities of human well-beings via different formats of education in diverse locations of life. "Critical Perspectives on International Education offers a historically comprehensive, intellectually honest, and perspective-rich scholarly exploration of a new education-globalization dynamic. This book courageously offers up diverse voices, gathered into a robust and useful conversation regarding global education. This book adds greatly to understanding why educational marketplaces must be driven by principles and practices that empower diverse peoples, to secure sustainable knowledge benefits that contribute to personal, local, national and international well-being. This critical perspective reader will engage scholars, researchers and citizens." Jim Paul, University of Calgary "In the current intensifications of globalization and its resulting inequalities, it is crucial to better understand the role of knowledge creation and knowledge dissemination. Should knowledge be only a commodity to be sold in the market and a tool to increase economic capital, or should it be a shared sociocultural capital aimed at improving democracy and the common good? In Critical Perspectives on International Education, Yvonne Hébert and Ali A. Abdi assemble an impressive array of contributions from all over the world that address this question from a variety of critical

perspectives and case studies. I recommend this book to everyone interested in the connections between education, citizenship development and human well-being.” Daniel Schugurensky, Arizona State University

**Treatment of Foreign Law - Dynamics towards Convergence?** Yuko Nishitani, 2017-07-04 This work presents a thorough investigation of existing rules and features of the treatment of foreign law in various jurisdictions. Private international law (conflict of laws) and civil procedure rules concerning the application and ascertainment of foreign law differ significantly from jurisdiction to jurisdiction. Combining general and individual national reports, this volume demonstrates when and how foreign law is applied, ascertained, interpreted and reviewed by appeal courts. Traditionally, conflicts lawyers have been faced with two contrasting approaches. Civil law jurisdictions characterize foreign law as “law” and provide for the ex officio application and ascertainment of foreign law by judges. Common law jurisdictions consider foreign law as “fact” and require that parties plead and prove foreign law. A closer look at various reports, however, reveals more differentiated features with their own nuances among civil law jurisdictions, and the difference of the treatment of foreign law from other facts in common law jurisdictions. This challenges the appropriacy of the conventional “law-fact” dichotomy. This book further examines the need for facilitating access to foreign law. After carefully analyzing the benefits and drawbacks of existing instruments, this book explores alternative methods for enhancing access to foreign law and considers practical ways of obtaining information on foreign law. It remains to be seen whether and the extent to which legal systems around the world will integrate and converge in their treatment of foreign law.

**A National Project** Leah K. Hamilton, Luisa Veronis, Margaret Walton-Roberts, 2020-08-20 Since the outbreak of the Syrian Civil War in 2011, over 5.6 million people have fled Syria and another 6.6 million remain internally displaced. By January 2017, a total of 40,081 Syrians had sought refuge across Canada in the largest resettlement event the country has experienced since the Indochina refugee crisis. Breaking new ground in an effort to understand and learn from the Syrian Refugee Resettlement Initiative that Canada launched in 2015, A National Project examines the experiences of refugees, receiving communities, and a range of stakeholders who were involved in their resettlement, including sponsors, service providers, and various local and municipal agencies. The contributors, who represent a wide spectrum of disciplines, include many of Canada's leading immigration scholars and others who worked directly with refugees. Considering the policy behind the program and the geographic and demographic factors affecting it, chapters document mobilization efforts, ethical concerns, integration challenges, and varying responses to resettling Syrian refugees from coast to coast. Articulating key lessons to be learned from Canada's program, this book provides promising strategies for future events

of this kind. Showcasing innovative practices and initiatives, A National Project captures a diverse range of experiences surrounding Syrian refugee resettlement in Canada.

**Pressing for Freedom: 20 Years of World Press Freedom Day** William Horsley,Unesco,2013-01-01 The origins of World Press Freedom Day arise from a declaration signed by a group of African journalists who gathered at a UNESCO seminar on Promoting an Independent and Pluralistic African Media that was held in Windhoek, Namibia from 29 April to 3 May 1991. Subsequently, painstaking lobbying led to the proclamation of 3 May as an international day on press freedom by the United Nations General Assembly in 1993. This publication aims to commemorate the 20th anniversary of World Press Freedom Day by illuminating the trajectory of this important international event from its origins, following the historic Windhoek Declaration, to the present day. Issues of media freedom, safety of journalists, impunity, gender in the media, pluralism, independence and access to information, as well as the role of the Internet and other 21st century media developments are also covered.
