Home Beyond the House Wei Zhao,2022-11-17 Based on extended fieldwork conducted between 2007 and 2019, this book aims to answer a simple question: What is the meaning of home for people living in vernacular settlements in rural China? This question is particularly potent since rural China has experienced rapid and fundamental changes in the twenty-first century under the influences of national policies such as Building a New Socialist Countryside enacted in 2006 and Rural Revitalization announced in 2018. Drawing upon ethnographic fieldwork, building surveys, archival research, and over 600 photographs taken by residents along with their life stories, this book uncovers the meanings of home from rural residents' perspectives, who belong to a social group that is underrepresented in scholarship and underserved in modern China. In other words, this study empowers rural residents by giving them voice. This book links the concepts of place, home, and tradition into an overarching argument: The meaning of home rests on the ideas of tradition, including identity, consanguinity, collectivity, social relations, land ownership, and rural lifestyle.

Chinese Communist Materials at the Bureau of Investigation Archives, Taiwan Peter Donovan, Carl Dorris, Carl E. Dorris, Lawrence R. Sullivan, Lawrence Sullivan, 2020-08-06 During the long years of civil strife in China the Nationalist authorities amassed extensive materials on their Communist adversaries. Now stored in government institutions on Taiwan, these materials are an excellent source for the study of the Chinese Communist movement. Among them is the Bureau of Investigation Collection (BIC), which holds over 300,000 volumes of primary documents on the Chinese Communist movement. The purpose of Chinese Communist Materials is, without any attempt at comprehensive listing of the Bureau's holdings, to give scholars a representative description of the collection, to point out its implications for research, and suggest new areas for research at the Bureau in the fields of political science and history [1, 4].
