David Llewelyn

Invisible Gold in Asia David Llewelyn, 2011-02-28 World competition in the 21st century will revolve around competition for intellectual property rights (IPRs). But what are these rights that you can't see - the Invisible Gold of today's Knowledge Economy. What can you do with them and how can Asian businesses foster the innovation and creativity they protect? From the patents protecting Creative Technology's MP3 player and Tata's 'Nano' car to 'Tsingtao' and 'Singha' branded beer, IPRs protect this Invisible Gold. David Llewelyn challenges Asian businesses to build up their reserves of Invisible Gold and governments to build a culture that encourages and rewards innovation and creativity. Using Asian examples throughout, David Llewelyn explains what the rights are, answers the questions and sheds much-needed light on this crucial but little-understood part of doing business in the 21st century.

Bridging the Knowledge Divide Stewart Marshall, Wanjira Kinuthia, Wallace Taylor, 2009-04-01 In many international settings, developing economies are in danger of declining as the digital divide becomes the knowledge divide. This decline attacks the very fabric of cohesion and purpose for these regional societies delivering increased social, health, economic and sustainability problems. The examples in this book will provide leaders, policy developers, researchers, students and community with successful strategies and principles of ICT use in education to address these needs. This book will discuss how educational technology can be used to transform education and assist developing communities to close the knowledge divide. It will provide comprehensive coverage of educational technology in development in different professions and parts of world. The book will provide examples of best practice, case studies and principles for educators, community leaders, researchers and policy advisers on the use of educational technology for development. In particular, it will provide examples of how education can be

provided more flexibly in order to provide access to hitherto disadvantaged communities and individuals.

The Philippines' Ecosystem for Technology Startups

Asian Development Bank,2023-05-01 Technology-based startup enterprises are an increasingly important part of the business landscape in Asia and the Pacific. By applying innovative technologies to create new products and services, they can make a significant contribution to economic development while generating social and environmental benefits. However, to survive and then thrive, tech startups require an enabling ecosystem that includes supportive government policy, adequate access to capital, skilled personnel, and quality digital infrastructure. This report assesses the current ecosystem for tech startups in the Philippines, focusing on four sectors: climate change, education, agriculture, and health. The report discusses challenges facing tech startups in these sectors and provides recommendations.

Intercultural Communication for Everyday Life John R.

Baldwin,Alberto González,Nettie Brock,Ming Xie,Chin-Chung Chao,2023-09-08 INTERCULTURAL COMMUNICATION FOR EVERYDAY LIFE Face the global challenges of the future with this accessible introduction to communication across boundaries Communication between cultures can be challenging in a number of ways, but it also carries immense potential rewards. In an increasingly connected world, it has never been more important to communicate across a range of differences created by history and circumstance. Contributing to global communities and rising to meet crucial shared challenges—human rights disputes, refugee crises, the international climate crisis—depends, in the first instance, on a sound communicative foundation. *Intercultural Communication for Everyday Life* provides a thorough introduction to this vital subject for students encountering it for the first time. Built around a robust and multifaceted definition of culture, which goes far beyond simple delineation of national boundaries, it offers an understanding of its subject that transcends US-centricity. The result, updated to reflect dramatic ongoing changes to the interconnected world, is essential for students of cross—cultural communication and exchange. Readers of the second edition of *Intercultural Communication for Everyday Life* readers will also find: Accessible definitions of core concepts Revised and updated chapters reflecting the COVID-19 crisis, climate change challenges, and more An all-new chapter on social media as a tool for intercultural communication *Intercultural Communication for Everyday Life* is essential for students and other readers seeking a foundational overview of this subject.

CRC World Dictionary of Medicinal and Poisonous Plants Umberto Quattrocchi,2016-04-19 Following on the successes of two previous dictionary projects, the CRC World Dictionary of Plant Names and the CRC World Dictionary of the

Grasses, Umberto Quattrocchi has undertaken this dictionary of economically important plants.... He has done for these plants what was so admirably done in his other works—brought the vast and scattered literature on plant names, and in this case, too, their uses, into coherent order so that the inquisitive scholar can get a foothold. —From the Foreword, Donald H. Pfister, Harvard University and Harvard University Herbaria, Cambridge, Massachusetts The CRC World Dictionary of Medicinal and Poisonous Plants: Common Names, Scientific Names, Eponyms, Synonyms, and Etymology provides the starting point for better access to data on plants used around the world in medicine, food, and cultural practices. The material found in the five volumes has been painstakingly gathered from papers of general interest, reports and records, taxonomic revisions, field studies, herbaria and herbarium collections, notes, monographs, pamphlets, botanical literature, and literature tout court. It includes sources available at various natural history libraries, floras and standard flora works, local floras and local histories, nomenclatural histories, and the International Code of Botanical Nomenclature. Much more than a dictionary, the book provides the names of thousands of genera and species of economically important plants, concise summaries of plant properties, and appropriate observations about medicinal uses. Drawing from a tremendous range of primary and secondary sources, it is an indispensable time-saving guide for all those involved with botany, herbal medicine, pharmacognosy, toxicology, medicinal and natural product chemistry, and agriculture.

Addressing the Challenges in Communicating Climate Change Across Various Audiences Walter Leal Filho, Bettina Lackner, Henry McGhie, 2018-10-02 This book offers a concrete contribution towards a better understanding of climate change communication. It ultimately helps to catalyse the sort of cross-sectoral action needed to address the phenomenon of climate change and its many consequences. There is a perceived need to foster a better understanding of what climate change is, and to identify approaches, processes, methods and tools which may help to better communicate it. There is also a need for successful examples showing how communication can take place across society and stakeholders. Addressing the challenges in communicating to various audiences and providing a platform for reflections, it showcases lessons learnt from research, field projects and best practices in various settings in various different

countries. The acquired knowledge can be adapted and applied to other situations.
