**The Still Life in the Fiction of A. S. Byatt** Elizabeth Hicks, 2010-08-11 This book explores the ways in which English writer A. S. Byatt's visual still lifes (descriptions of real or imagined artworks) and what are termed "verbal still lifes" (scenes such as laid tables, rooms and market stalls) are informed by her veneration of both realism and writing. It examines Byatt's adoption of the Barthesian concept of textual pleasure, showing how her ekphrastic descriptions involve consumption and take time to unfold for the reader, thereby highlighting the limitations of painting. It also investigates the ways in which Byatt's still lifes demonstrate her debts to English modernist author Virginia Woolf, French writer Marcel Proust, and the Pre-Raphaelite Brotherhood of nineteenth-century Britain. A number of Byatt's verbal still lifes are read as semiotic markers of her characters, particularly with regard to economic status and class. Further, her descriptions uniting food and sexuality are perceived as part of her overall representation of pleasure. Finally, Byatt's employment of vanitas iconography in many of her portrayals of death is discussed showing how her recurring motif of Keats's "Ode on a Grecian Urn" teases out the still life's inherent tension between living passion and "cold" artwork.

*Posthuman Gothic* Anya Heise-von der Lippe, 2017-11-01 *Posthuman Gothic* is an edited collection of thirteen chapters, and offers a structured, dialogical contribution to the discussion of the posthuman Gothic. Contributors explore the various ways in which posthuman thought intersects with Gothic textuality and mediality. The texts and media under discussion – from *I am Legend* to *In the Flesh*, and from *Star Trek* to *The Truman Show*, transgress the boundaries of genre, moving beyond the traditional scope of the Gothic. These texts, the contributors argue, destabilise ideas of the human in a number of ways. By confronting humanity and its Others, they introduce new perspectives on what we traditionally perceive as human. Drawing on key texts of both Gothic and posthumanist theory, the contributors explore such varied themes as posthuman vampire and zombie narratives, genetically modified posthumans, the posthuman in video games, film and TV, the posthuman as a return to nature, the posthuman's relation to classic monster narratives, and posthuman biohorror and theories of prometheanism and accelerationism. In its entirety, the volume offers a first attempt at addressing the various intersections of the posthuman and the Gothic in contemporary literature and media.

**Transatlantic Transcendentalism** Samantha C Harvey, 2016-06-30 This new study argues that Coleridge was so influential in America because he provided a framework for American intellectuals to address one of the great questions of European Romanticism: what is the relationship between the Romantic triad of nature, spirit

*Teaching Transatlanticism* Linda K Hughes, 2015-02-05 The 18 chapters in this book outline conceptual approaches to the field and provide practical resources for teaching, ranging from ideas for individual class sessions to full syllabi and curricular frameworks.

**The Bohemian Republic** James Gatheral, 2020-11-29 In the mid-nineteenth century successive cultural Bohemias were proclaimed in Paris, London, New York, and Melbourne. Focusing on networks and borders as the central modes of analysis, this book charts for the first time Bohemia's cross-Channel, transatlantic, and trans-Pacific migrations, locating its creative expressions and social practices within a global context of ideas and action. Though the story of Parisian Bohemia has been comprehensively told, much less is known of its Anglophone translations. The Bohemian Republic offers a radical reinterpretation of the phenomenon, as the neglected lives and works of British, Irish, American, and Australian Bohemians are reassessed, the transnational networks of Bohemia are rediscovered, the presence and influence of women in Bohemia is reclaimed, and Bohemia's relationship with the marketplace is reconsidered. Bohemia emerges as a marginal network which exerted a paradoxically powerful influence on the development of popular culture, in the vanguard of material, social and aesthetic innovations in literature, art, journalism, and theatre. Underpinned by extensive and original archival research, the book repopulates the concept of Bohemianism with layers of the networked voices, expressions, ideas, people, places, and practices that made up its constituent social, imagined, and interpretive communities. The reader is brought closer than ever to the heart of Bohemia, a shadowy world inhabited by the rebels of the mid-nineteenth century.

*Teaching Romanticism* D. Higgins, S. Ruston, 2010-01-13 Romanticism is taught at universities across the globe and is considered integral to the study of British and European literature. This book, written by leading academics, presents innovative, practical approaches to teaching traditional and newer aspects of the curriculum and is essential to anyone teaching Romanticism at university level.

**Transatlantic Literary Ecologies** Kevin Hutchings, John Miller, 2016-11-18 Opening a dialogue between ecocriticism and transatlantic studies, this collection shows how the two fields inform, complement, and complicate each other. The editors situate the volume in its critical contexts by providing a detailed literary and historical overview of nineteenth-century transatlantic socioenvironmental issues involving such topics as the contemporary fur and timber trades, colonialism and agricultural improvement, literary discourses on conservation, and the consequences of industrial capitalism, urbanization, and urban environmental activism. The chapters move from the broad to the particular, offering insights into Romanticism's transatlantic discourses on nature and culture, examining British Victorian representations of nature in light of their reception by American writers and readers, providing in-depth analyses of literary forms such as the adventure novel, travel narratives, and theological and scientific writings, and bringing transatlantic and ecocritical perspectives to bear on classic works of nineteenth-century American literature. By opening a critical dialogue between these two vital areas of scholarship, *Transatlantic Literary Ecologies* demonstrates some of the key ways in which Western environmental consciousness and associated literary practices arose in the context of transatlantic literary and cultural exchanges during the long nineteenth century.

**NET E-business Architecture** Robert Amar,G. A. Sullivan,2002 A guide to building a full-service Web-based commerce application using .NET technologies, presenting an architecture and development blueprint of the technologies available in .NET for companies delivering services via the Web. It includes coverage of C#, Visual Basic.NET, ASP.NET, and more.

**Evolving Approaches to Managing Marine Recreational Fisheries** Donald Leal,Vishwanie Maharaj,2009 Increasing coastal populations, rising recreational demand, and growing conflicts with other users are adding to the challenge of managing marine recreational fisheries today. Traditional regulations - such as daily bag limits and seasonal closures - are often not enough to control fishing impacts and they tend to generate greater discontent and lower economic benefits in the angling community as they become more restrictive. This volume is the first to examine management approaches that promise to better control fishing, generate more information on fishing impacts, and give anglers more freedom to enjoy their sport.--BOOK JACKET.

**New Perspectives on Stellar Pulsation and Pulsating Variable Stars** James M. Nemec,Jaymie M. Matthews,1993-10-21 How can the interior of the Sun, white dwarfs and other stars be studied by stellar seismology? What can Doppler imaging tell us about high-degree pulsations? What impact are CCD and infrared observations having on extending the Cepheid and RR Lyrae distance scale? And how are other classes of pulsators providing independent checks of the distance scale? These and many other critical questions are answered in this timely review of the dramatic advances made in pulsating star research in the last decade. This survey collects together more than thirty comprehensive reviews and over one hundred summaries of research papers from the 139th IAU Colloquium, held in Victoria, British Columbia. Together these cover all aspects of recent developments in the field of variable star research and preview some of the exciting advances anticipated for the next decade. This volume provides an essential review for graduate students and researchers.

**The Broadview Anthology of British Literature: One-Volume Compact Edition** Joseph Black,Leonard Conolly,Kate Flint,Isobel Grundy,Roy Liuzza,Jerome McGann,Anne Prescott,Barry Qualls,Claire Waters,2015-04-20 In all six of its volumes The Broadview Anthology of British Literature presents British literature in a truly distinctive light. Fully grounded in sound literary and historical scholarship, the anthology takes a fresh approach to many canonical authors, and includes a wide selection of work by lesser-known writers. The anthology also provides wide-ranging coverage of the worldwide connections of British literature, and it pays attention throughout to issues of race, gender, class, and sexual orientation. It includes comprehensive introductions to each period, providing in each case an overview of the historical and cultural as well as the literary background. It features accessible and engaging headnotes for all authors, extensive explanatory annotations, and an unparalleled number of illustrations and contextual materials. Innovative, authoritative and comprehensive, The Broadview Anthology of British Literature has established itself as a leader in the field. The full anthology comprises six bound volumes, together with an extensive website component; the latter has been edited, annotated, and designed according to the same high standards as the bound book component of the anthology, and is accessible by using the passcode obtained with the purchase of one or more of the bound volumes. For those seeking an even more streamlined anthology than the two-volume Concise Edition, The Broadview Anthology of British Literature is now available in a compact single-volume version. The edition features the same high quality of introductions, annotations, contextual materials, and illustrations found in the full anthology, and it complements an ample offering of canonical works with a vibrant selection of less-canonical pieces. The compact single-volume edition also includes a substantial website component, providing for much greater flexibility. An increasing number of works from the full six-volume anthology (or from its website component) are also being made available in stand-alone Broadview Anthology of British Literature editions that can be bundled with the anthology.

**Asian Martial Arts in Literature and Movies** Michael DeMarco, M.A.,2016-08-05 Most learn about martial arts through movies and print publications, primarily fictional. Fiction is drama, the blood of drama is conflict, and martial arts are rooted in conflict, writes James Grady in chapter one. Good fiction uses martial arts well, while poor writing skills can be plain boring! This anthology is a collection of fifteen articles that cover the richness and depth of Asian martial arts in both movies and literature. After look over the array of topics, I decided to utilize writings by James Grady for the two introductory chapters. Grady is an internationally renowned writer and investigative journalist known for his nail-biting thriller novels. His early novel was adapted to film as *Three days of the Condor* (1975) starring Robert Redford. Grady has since written over a dozen wonderful novels and in between wrote two excellent pieces for the *Journal of Asian Martial Arts*: one dealing with movies and another with literature. The following chapters are greatly enriched by the informative contents in Grady's chapters. Details about movie-making are provided in the interview with producer Andre Morgan (*Enter the Dragon*, *Walter Texas Ranger*, *Martial Law*, etc.), plus the inside scoop in the publishing and film industries in the interview with multifaceted Curtis Wong. Actor/producer/kickboxing champion Don Wilson provides insights from both sides of the camera in his interview. Among the chapters are Albert Dalia's exposition of China's "wandering martial hero" stories that have roots reaching back two thousand years; Christopher Bates' excerpt from Xiang Kairan's *Tales of Chivalrous and Altruistic Heroes*; and Olivia Mok's research and translations of sections of *Fox Volant of the Snowy Mountain*, a Louis Cha's novel of 1959. In the latter, Mok extricates references to dianxue—the methods of attacking vital points. We also have fiction focusing on Japanese and Chinese martial traditions by John Donohue, Peter Graebner, John DeRose, and John Gilbey's (aka, Robert W. Smith)—each highlighting combative experience, theory and technique with cultural trimmings. Interviews with Barry Eisler and Author Rosenfeld give insight into scholar/practitioners whose published novels contain text colored by their knowledge of the martial arts and culture. We hope you'll find this book captivating, exciting, heroic, spellbinding, content rich, fascinating, penetrating . . .
