A Shot of Poison Christopher Long, 2010 Underscore life on the road, backstage, and in the studio throughout the last 20 years, this biography paints a vivid portrait of the multiplatinum rock band Poison. Based on amazing personal experiences and encounters, this striking recollection spins tales of rivalry within the group, drug use, and private recording sessions, revealing a side of the legendary act that will shock and intrigue even their most faithful followers. Proving they were just as vulnerable to the common pitfalls of most successful musicians, this investigation discloses a variety of private issues, from Bret Michaels' reclusive behavior and the group's possessive--and often psychotic--fans to their constant competition for the spotlight, notoriety, and women. A review of drummer Rikki Rockett's highly publicized 2008 arrest--taken from an exclusive interview with Rockett himself--is also included.

The Boy from Gorge River Chris Long, 2022-04-01 ****The number-one bestseller**** The story of how an extraordinary childhood shaped an extraordinary life On the West Coast of the South Island, past deep fiords and snow-capped mountains, Chris Long grew up two days' hike from the nearest road. He was born into the country's most isolated family, his parents committed to freedom from capitalist society and connection to the natural world. In this inspiring memoir, Chris describes a childhood with nature on his doorstep - helping his father catch crayfish and his mother grow vegetables, playing with toys crafted from driftwood and jade, and learning to live in the wild - until, in his teenage years, he began to wonder: could he survive in the wider world? By the son of the authors of *A Life on Gorge River* and *A Wife on Gorge River*, *The Boy from Gorge River* is an enthralling account of chasing adventure while forever staying true to where you come from.

I Ran the World Chris Long, 2020-05-14 *I Ran the World* is an inspirational and thought-provoking story of how an ordinary person challenged the whole world to run for the famine victims of Africa and what really happened to the last and the biggest global fund-raising event of the 1980's. A captivating account of how and why the author convinced Bob Geldof, Band Aid, UNICEF, world leaders, royalty, celebrities, rock stars, athletes, sport stars and 20 million people to run 10k through their cities to help change the world - and why we should and must, do it again.

The Long Tail Chris Anderson, 2006-07-11 What happens when the bottlenecks that stand between supply and demand in our culture go away and everything becomes available to everyone? *The Long Tail* is a powerful new force in our economy: the rise of the niche. As the cost of reaching consumers drops dramatically, our markets are shifting from a one-size-fits-all model of mass appeal to one of unlimited variety for unique tastes. From supermarket shelves to advertising agencies, the ability to offer vast choice is changing everything, and causing us to rethink where our markets lie and how to get to them. Unlimited selection is revealing truths about what consumers want and how they want to get it, from DVDs at Netflix to songs on iTunes to advertising on Google. However, this is not just a virtue of online marketplaces; it is an example of an entirely new economic model for business, one that is just beginning to show its power. After a century of obsessing over the few products at the head of the demand curve, the new economics of distribution allow us to turn our focus to the many more products in the tail, which collectively can create a new market as big as the one we already know. *The Long Tail* is really about the economics of abundance. New efficiencies in distribution, manufacturing, and marketing are essentially resetting the definition of what's commercially viable across the board. If the 20th century was about hits, the 21st will be equally about niches.

The Looshaus Christopher Alan Long, 2011 A celebration of the centennial of Vienna's Looshaus--one of modernism's earliest and most controversial buildings When it was completed in 1911, the Goldman & Salatsch Building in Vienna, commonly known as the Looshaus, incited

controversy for its austerity and plainness. It represented a stark rejection of the contemporary preference for ornamentation, though its architect, Adolf Loos (1870-1933), had intended it to preserve Viennese tradition within a new modernist language. The heated debate that ensued among critics and the public set the project apart, distinguishing it as one of the most important and contentious buildings of the early 20th century. In celebration of the Looshaus's centennial year, Christopher Long, a leading authority on Viennese architectural history, brings to light extensive new research and careful analysis that dispel long-held myths about Loos, his building, and its critical reception. The book, which features new color photography and a vast array of archival materials in print for the first time, tells the remarkable story of the Looshaus's design and construction, the political and social restlessness it reflected, and the building's fundamental role in defining the look of modernism.

Hero Worship Christopher E. Long, 2014-01-08 Ever since becoming an IWP—Individual with Powers—Marvin Maywood has dreamed of joining the Core, a group of gifted heroes who save lives and stop crimes. But because he's a homeless teenager who is forbidden to use his amazing powers, wanting and achieving that dream are two very separate things.

Aristotle on the Nature of Truth Christopher P. Long, 2010-11-22 This book reconsiders the traditional correspondence theory of truth, which takes truth to be a matter of correctly representing objects. Drawing Heideggerian phenomenology into dialogue with American pragmatic naturalism, Christopher P. Long undertakes a rigorous reading of Aristotle that articulates the meaning of truth as a co-operative activity between human beings and the natural world that is rooted in our endeavours to do justice to the nature of things. By following a path of Aristotle's thinking that leads from our rudimentary encounters with things in perceiving through human communication to thinking, this book traces an itinerary that uncovers the nature of truth as ecological justice, and it finds the nature of justice in our attempts to articulate the truth of things.

The Long Way Back Chris Alexander,2012-08-20 Christopher Alexander was sent to Afghanistan in 2003, charged with supporting the NATO-led International Security Assistance Force, part of the global response to 9/11. Primarily covering the years 2001 to 2011, *The Long Way Back* tells the story of the historic achievements and bitter disappointments encountered on the road to political stability in Afghanistan. But this is much more than a first-hand account of recent events: it is a clear-eyed take on what has been achieved, the triumphs and failings of Afghans and foreigners alike, and why the country is still mired in conflict. Alexander guides us through the intricacies of the cross-border insurgency--showing that Pakistan continues the campaign begun under the British frontier policy and scaled up by the U.S. for jihad against the Soviets. With Alexander's direct access to and experience with the country's leaders, the international players and ordinary Afghan citizens, a unique portrait of Afghanistan is revealed and an argument is made for what it will take for the country to achieve a lasting peace.
