Here, we report a four-year experience of the Molecular Tumor Board (MTB) of the Comprehensive Cancer Center Freiburg (Germany) including workflows and process optimizations. This retrospective single-center study includes data on 488 patients enrolled in the MTB from February 2015 through December 2018. Recommendations include individual molecular diagnostics, molecular stratified therapies, assessment of treatment adherence and patient outcomes including overall survival. The majority of MTB patients presented with stage IV oncologic malignancies (90.6%) and underwent an average of 2.1 previous lines of therapy. Individual diagnostic recommendations were given to 487 patients (99.8%). A treatment recommendation was given in 264 of all cases (54.1%) which included a molecularly matched treatment in 212 patients (43.4%). The 264 treatment recommendations were implemented in 76 patients (28.8%). Stable disease was observed in 19 patients (25.0%), 17 had partial response (22.4%) and five showed a complete remission (6.6%). An objective response was achieved in 28.9% of cases with implemented recommendations and for 4.5% of the total population (22 of 488 patients). By optimizing the MTB workflow, case-discussions per session increased significantly while treatment adherence and outcome remained stable over time. Our data demonstrate the feasibility and effectiveness of molecular-guided personalized therapy for cancer patients in a clinical routine setting showing a low but robust and durable disease control rate over time

**Personalized Clinical Decision Making Through Implementation of a Molecular Tumor Board: a German Single-center Experience** Rouven Höfflin,Anna-Lena Geißler,Ralph Fritsch,Rainer Helmut Claus,Julius Wehrle,Patrick Metzger,Meike Reiser,Leman Mehmed,Lisa Schäfer-Fauth,Dieter Henrik Heiland,Thalia Erbes,Friedrich Stock,Ágnes Csanádi,Cornelius Miething,Britta Weddeling,Frank Meiß,Dagmar von Bubnoff,Christine Dierks,Isabell Xiang Ge,Volker Brass,Steffen Heeg,Henning Sebastian Schäfer,Tilman Brummer,Justyna Rawluk,Elke Maria Botzenhart,Gian Kayser,Simone Hettmer,Hauke Busch,Christoph Peters,Martin Werner,Justus Duyster,Melanie Börries,Silke Laßmann,Nikolas von Bubnoff,2018 Abstract: Purpose Dramatic advances in our understanding of the molecular pathophysiology of cancer, along with a rapidly expanding portfolio of molecular targeted drugs, have led to a paradigm shift toward personalized, biomarker-driven cancer treatment. Here, we report the 2-year experience of the Comprehensive Cancer Center Freiburg Molecular Tumor Board (MTB), one of the first interdisciplinary molecular tumor conferences established in Europe. The role of the MTB is to recommend personalized therapy for patients with cancer beyond standard-of-care treatment. Methods This retrospective case series includes 198 patients discussed from March 2015 through February 2017. The MTB guided individual molecular diagnostics, assessed evidence of actionability of molecular alterations, and provided therapy recommendations, including approved and off-label treatments as well as available matched clinical trials. Results The majority of patients had metastatic solid tumors (73.7%), mostly progressive (77.3%) after a mean of 2.0 lines of standard treatment. Diagnostic recommendations resulted in 867 molecular diagnostic tests for 172 patients (five per case), including exome analysis in 36 cases (18.2%). With a median turnaround time of 28 days, treatment recommendations were given to 104 patients (52.5%). These included single-agent targeted therapies (42.3%), checkpoint inhibitors (37.5%), and combination therapies (18.3%). Treatment recommendations were implemented in 33 of 104 patients (31.7%), of whom 19 (57.6%) showed stable disease or partial response, including 14 patients (7.1% of the entire population) receiving off-label treatments. Conclusion Personalized extended molecular-guided patient care is effective for a small but clinically meaningful proportion of patients in challenging clinical situations. Limited access to targeted drugs, lack of trials, and submission at late disease stage prevents broader applicability, whereas genome-wide analyses are not a strict requirement for predictive molecular testing

Sylvia Plath: A Biography Chris Dicker, Do you want to learn more about Sylvia Plath's life and legacy? This biography covers the life of Sylvia Plath, from her birth in Boston to her death in London at the age of thirty. Plath left a large legacy, both personal and public. She is one of the most celebrated female poets in history and is widely taught in school. This is remarked upon, but the effects of her life and passing on those who knew her is also included. The cultural, social and personal ramifications of both her life as a person, the value we assign her, and her writing are examined. Ultimately, this biography is a tribute to Plath. As a person she has been an inspiration to many, but I feel her true calling in the capacity of a writer will always inspire many more. Her life, work, and the further writing and poetry movements she incited will be with us forever, and that is her legacy. Her poetry and death are also discussed, and the effects this had on critics and the public in their opinions of her work is speculated on. *Crane* Robert Crane,Christopher Fryer,2015-03-10 On June 29, 1978, Bob Crane, known to Hogan's Heroes fans as Colonel Hogan, was discovered brutally murdered in his Scottsdale, Arizona, apartment. His eldest son, Robert Crane, was called to the crime scene. In this poignant memoir, Robert Crane discusses that terrible day and how he has lived with the unsolved murder of his father. But this storyline is just one thread in his tale of growing up in Los Angeles, his struggles to reconcile the good and sordid sides of his celebrity father, and his own fascinating life. Crane began his career writing for Oui magazine and spent many years interviewing celebrities for Playboy -- stars such as Chevy Chase, Bruce Dern, Joan Rivers, and even Koko the signing gorilla. As a result of a raucous encounter with the cast of Canada's SCTV, he found himself shelving his notepad and tape recorder to enter the employ of John Candy -- first as an on-again, off-again publicist; then as a full-time assistant, confidant, screenwriter, and producer; and finally as one of Candy's pallbearers. Through disappointment, loss, and heartbreak, Crane's humor and perseverance shine. Beyond the big stars and behind-the-scenes revelations, this riveting account of death, survival, and renewal in the shadow of the Hollywood sign makes a profound statement about the desire for love and permanence in a life where those things continually slip away. By turns shocking and uplifting, Crane is an unforgettable and deeply human story.

*Christopher Hitchens: The Last Interview* Christopher Hitchens,2017-12-05 “If someone says I’m doing this out of faith, I say, Why don’t you do it out of conviction?” —CHRISTOPHER HITCHENS One of his generation’s greatest public intellectuals, and perhaps its fiercest, Christopher Hitchens was a brilliant interview subject. This collection—which spans from his early prominence as a hero of the Left to his controversial support for the wars in Iraq and Afghanistan toward the end of his life— showcases Hitch’s trademark wit on subjects as diverse as his mistrust of the media, his love of literature, his dislike of the Clintons, and his condemnation of all things religious. Beginning with an introduction and tribute from his longtime friend Stephen Fry, this collection culminates in Hitchens’s fearless final interview with Richard Dawkins, which shows a man as unafraid of death as he was of everything in life.
