**The Routledge Handbook of Social Change** Richard Ballard, Clive Barnett, 2022-09-30 The Routledge Handbook of Social Change provides an interdisciplinary primer to the intellectual approaches that hold the key to understanding the complexity of social change in the twenty-first century. We live in a world of intense social transformation, economic uncertainty, cultural innovations, and political turmoil. Established understandings of issues of well-being, development, democratisation, progress, and sustainability are being rethought both in academic scholarship and through everyday practice, organisation and mobilisation. The contributors to this handbook provide state-of-the-art introductions to current thinking on central conceptual and methodological approaches to the analysis of the transformations shaping economies, politics, and societies. Topics covered include social movements, NGOs, the changing nature of the state, environmental politics, human rights, anti-globalism, pandemic emergencies, post-Brexit politics, the politics of resilience, new technologies, and the proliferation of progressive and reactionary forms of identity politics. Drawing on disciplines including anthropology, human geography, political sociology, and development studies, this is a comprehensive and authoritative introduction to researching key issues raised by the challenge of making sense of the twenty-first century futures.

**O humano na pesquisa (auto)biográfica** Juliana Pereira de Araújo, Rita Tatiana Cardoso Erbs, 2022-09-14 Em O humano na pesquisa (auto)biográfica: diversidade de contextos e experiências encontramos troca e conexão entre pesquisadores, para além da divulgação de suas pesquisas, encontramos diálogos com a Educação a partir de olhares obtidos por contato com diferentes espaços de saber, espaços geográficos e espaços subjetivos, reunidos em um tempo instantâneo proporcionado pelo encontro com a Pesquisa (Auto)Biográfica, com os colegas e com os leitores. Esta publicação é destinada a estudantes, professores e interessados pela formação de pessoas.

**Se raconter entre violence et résistance** Christophe Niewiadomski, Christine Delory-Momberger, 2015-05-01 Ce volume réunit des textes qui rendent compte de la multiplicité de l'expérience narrative du sujet contemporain et en font ressortir la dimension sociale et politique. Les contributions rassemblées abordent les multiples écueils du récit de soi et de son adresse dans des contextes de violences réelles et symboliques souvent extrêmes et interrogent le pouvoir d'affirmation et de résistance du récit et les limites qu'il rencontre.

Vivre-survivre Christine Delory-Momberger, Christophe Niewiadomski, 2009 Quelles sont les conditions de possibilité et quels sont les enjeux du récit de la vie dans les situations de souffrance physique, psychique ou morale? Lorsqu'elles défient les ressources même du vouloir vivre, comment les situations de marginalité, de précarité et de souffrance peuvent-elles encore être racontées? Pour les hommes et les femmes blessés par la vie et par le monde, le récit peut-il être un lieu de résistance et de reconstruction de soi et du monde autour de soi? En interrogeant les contextes sociétaux et les dimensions tant personnelles que sociales de la parole biographique en situation parfois extrême (de la précarité au génocide, en passant par l'exil), cet ouvrage, issu d'une journée d'études, se donne pour objet d'examiner les effets de déliance et de reliance du récit entre vivre et survivre .

*La Mise en récit de soi* Christine Delory-Momberger, Christophe Niewiadomski, 2013-06-06 Cet ouvrage montre comment le point de convergence entre des champs d'activité divers tels que la sociologie, l'anthropologie, la psychologie sociale, la littérature, la formation des adultes, l'intervention sociale, ou l'accompagnement, peut être lié au domaine de la recherche biographique. Cette science étudie les processus de construction du sujet dans l'espace social.

**Territoires contemporains de la recherche biographique** Christophe Niewiadomski, Christine Delory-Momberger, 2013-06-01 La recherche biographique explore les processus de construction du sujet dans l'espace social, à travers les configurations narratives qu'il donne à son existence et à ses expériences. Réexaminant les enjeux épistémologiques et les enjeux sociaux de ce courant de recherche, l'ouvrage illustre et documente l'évolution de la recherche biographique, de sa fondation et ses décisifs développements dans le champ de la formation des adultes à son élargissement à d'autres territoires d'investigation.

**Liquid Legal** Kai Jacob, Dierk Schindler, Roger Strathausen, 2016-12-01 This book compels the legal profession to question its current identity and to aspire to become a strategic partner for corporate executives, clients and stakeholders, transforming legal into a function that creates incremental value. It provides a uniquely broad range of forward-looking perspectives from several different key-players in the legal industry: in-house legal, law firms, LPO's, legal tech, HR, associations and academia. This publication is a platform for leading legal professionals that offers a new perspective on the accelerating transformation in legal. Combining expert contributions with editorial insights, it argues that the new legal function will shift from a paradigm of security to one of opportunity; that future corporate lawyers will no longer primarily be negotiators, litigators and administrators, but that instead they will be coaches, arbiters and intrapreneurs; that legal knowledge and data-based services will become a commodity; and that analytics and measurement will be key drivers of the future of the profession. A must-read for all legal professionals, this book sets the course for revitalizing the profession.

**The Software Arts** Warren Sack, 2019-04-09 An alternative history of software that places the liberal arts at the very center of software's evolution. In *The Software Arts*, Warren Sack offers an alternative history of computing that places the arts at the very center of software's evolution. Tracing the origins of software to eighteenth-century French encyclopedists' step-by-step descriptions of how things were made in the workshops of artists and artisans, Sack shows that programming languages are the offspring of an effort to describe the mechanical arts in the language of the liberal arts. Sack offers a reading of the texts of computing—code, algorithms, and technical papers—that emphasizes continuity between prose and programs. He translates concepts and categories from the liberal and mechanical arts—including logic, rhetoric, grammar, learning, algorithm, language, and simulation—into terms of computer science and then considers their further translation into popular culture, where they circulate as forms of digital life. He considers, among other topics, the “arithmetization” of knowledge that presaged digitization; today's multitude of logics; the history of demonstration, from deduction to newer forms of persuasion; and the post-Chomsky absence of meaning in grammar. With *The Software Arts*, Sack invites artists and humanists to see how their ideas are at the root of software and invites computer scientists to envision themselves as artists and humanists.

**Critical Psychoanalytic Social Work** Sebastien Ponnou, Christophe Niewiadomski, 2022-11-17 This international and

interdisciplinary collection argues for the use of clinical-based practices and research in social work, bringing together critical psychoanalytic ideas into social work practice to help tackle contemporary issues. With a Foreword written by Stephen Webb, this book brings together specialists from the main areas of research and clinical practices in social work, ranging from psychoanalysis, sociology, clinical psychology, ethnopsychiatry and philosophy. Arguing for a movement away from evidence-based practice, chapters discuss the need for psychoanalytic thought in contemporary social work knowledge, how this can be integrated in social work practice and training, the challenges faced by training and practicing social workers and the ethical issues relating to clinical-based practice. Filled with case studies throughout, these diverse and rich contributions will make social workers think deeply about advocacy, ethics and the systemic changes needed in the field. This book will be invaluable reading to training and practicing clinical social workers and mental health professionals interested in social intervention. It will also be interesting to psychoanalysts as well as those studying sociology, clinical psychology and philosophy.

**Feeding the People** Rebecca Earle, 2020-06-25 Almost no one knew what a potato was in 1500. Today they are the world's fourth most important food. How did this happen?

**Revivalism and Social Christianity** Christophe Chalamet, 2017-09-29 How does one become 'righteous among the Nations'? In the case of Henri Nick (1868-1954) and Andre Trocme (1901-1971), two French Protestant pastors who received the title for their acts of solidarity toward persecuted Jews, it was because they had been immersed, from an early age, in the discourses and practices of social Christianity. Focussing on the lives of these two remarkable figures of twentieth-century Christianity, *Revivalism and Social Christianity* is the first study in English on the Social Gospel in French Protestantism. Chalamet presents a genealogy of the movement, from its emergence in the last decades of the nineteenth century to its high point during World War II, in Le Chambon-sur-Lignon, where Trocme and many local people rescued hundreds of Jewish refugees. As social Christians who prayed and worked for the coming of God's kingdom on earth in the midst of a society ravaged by two world wars, Henri Nick and Andre Trocme combined a deep revivalist faith with a concern for the concrete conditions in which people live.

*La mise en récit de soi* Christine Delory-Momberger, Philippe Artières, Sandrine Chenivresse, Christophe Niewiadomski, 2013-06-06

*Migration and Social Pathways* Anna Guhlich, 2017-10-02 The landscape of European migration has changed considerably over the past decades, in particular after the fall of the iron curtain and again after the EU enlargement to the east. The author researches the phenomenon of highly qualified migration using the example of migration between the Czech Republic and Germany. The book reveals diverse strategies migrants use to respond to the possible de-valuation of their qualification, e.g. by making use of their language skills, starting new studies or using transnational knowledge.

**The Rise of Market Culture** William M. Reddy, 1987-09-25 Professor Reddy traces the transition from pre-capitalist to capitalist culture in the French textile industry from 1750 to 1900. Using anthropology and social history, he shows how and why the conception of the social order based on the idea of the market began to emerge, and examines

the attendant political and social conflict.
