Madrid Tales Helen Constantine,Margaret Jull Costa,2012-04-26 The buzzing life of bars, warm evenings by the Manzanares river, the subterranean terrors of the Metro, icy winters and hot, empty summers, student days in the sixties, the ruthless underworld of the city's mafia, this captivating anthology reflects the character of Madrid and the lives of the madrilenos, as its inhabitants are called, in all their splendid variety. Some stories are bizarre, some funny, some serious, and as you read you'll travel through the city. The famous streets and monuments of Madrid - Cibeles, Calle de Alcalá, Plaza Mayor, and the Royal Palace - as well as the poor, working-class barrios unfrequented by sightseers will pass before your eyes like a moving picture. Few of these stories have previously been translated into English. Some names, such as Benito Pérez Galdós, Javier Marias, Juan José Millás, and Carmen Martín Gaité, will be more familiar than others but all deserve to be better known. There is a map at the back of the book to indicate the places mentioned

Traspassar los límites ,2020 Traspassar los límites. Otras miradas sobre el Palacio de Cibeles busca arrojar una visión renovada (y contemporánea) sobre la historia y la fortuna del Palacio de Cibeles. En este volumen se reúnen una serie de textos que parten tanto del proyecto expositivo El Palacio visto por... como de los actos con los que desde CentroCentro se conmemoraron cien años de vida del Palacio de Comunicaciones. Si el centenario y la verbena con la que se celebró dicha efemérides demostraron lo importante que el Palacio de Cibeles es para los madrileños y su posición central en el imaginario de la capital, el proyecto expositivo El Palacio visto por... supuso una propuesta con la voluntad de reconsiderar la monolítica condición arquitectónica del edificio. En fin, dos puntos de vista convergentes y transversales de un fetiche, como lo denomina elii [estudio de arquitectura], de la historia de Madrid. Los capítulos que conforman esta publicación no agotan las sendas en las que podría transitar el proyecto al que se vincula; dan buena cuenta de lo alcanzado y de alguno de los filtros por los que podría tamizarse el antiguo edificio de Correos. David Bestué, con Tramas, atiende a lo ornamental con una propuesta que se mueve entre diversos planos de lo evidente, esto es, no todo termina siendo como aparenta ser. elii [oficina de arquitectura] construye un ejercicio de actualización y redescubrimiento a través de nuevas lecturas de lo arquitectónico y lo urbano. Elvira Navarro, con una ficción de tintes distópicos, presenta una ingeniosa declinación de lo posible y de lo probable, de lo deseado y de lo imaginable. Ángel Gutiérrez nos sumerge en un repaso por algunos aspectos de CentroCentro con Me alegro de haber venido y Gloria G. Durán le pone banda sonora y poesía, convocando en sus páginas al ambiente de una ciudad en la que todos daban de sí cuanto podían para ser modernos.

Teletraffic Contributions for the Information Age V. Ramaswami,P. E. Wirth,1997 The June 1997 Congress emphasized the importance of teletraffic methods in the context of challenges ensuing from convergence of computing, communications and information technologies. Topics of the 138 papers include fluid analysis of CDMA cellular systems; performance analysis of data packet discarding in ATM networks; performance model and multi-hour-optimization of circuit switched networks driven by optimized dynamic routing; some performance benchmarks for the design of wireless systems and networks; some performance issues in ATM block transfer with delayed transmission; and overview of internet traffic issues on the PSTN; cost-based charging principles in ATM networks; real-time inter-network routing in the AT&T network; and origins of long-range dependence in variable bit rate video traffic. Proceedings of the Second International Clean Air Congress H.M. Englund,W.T. Beery,2013-10-02 Proceedings of the Second International Clean Air Congress documents the information and experiences exchanged at the Second International Clean Air Congress held in Washington, D.C. on December 6-11, 1970. This book compiles technical papers of five representatives from the national non-governmental air pollution prevention association of Argentina, France, West Germany, Japan, and the United Kingdom that aims to determine how they might work together cooperatively to contribute to the conservation of the world's air resources The topics discussed include the Swedish experiences on sensory evaluation of odorous air pollutant intensities; chronic fluoride intoxication due to air pollution; and organic ozone reactions as singlet oxygen sources. The emission and control of air pollutants from the incineration of municipal solid wastes and gaseous plume diffusion about isolated structures of simple geometry are also covered. Face to Face Kausik Bandyopadhyay,2021-03-31 While rivalry is embedded in any sporting event or performance, soccer, the world's most popular mass spectator sport, has been an emblem of such rivalries since its inception as an organized sport. Some of these rivalries grow to become long-term and perennial by their nature, extent, impact and legacy, from the local to the global level. They represent identities based on widely diverse affiliations of human life—locality, region, nation, continent, community, class, culture, religion, ethnicity, and so on. Yet, at times, such rivalries transcend barriers of space and time, where soccer-clubs, -nations, -personalities, -organizations, -styles and -fans float and compete with intriguing identities. The present volume brings into focus some of the most fascinating and enduring rivalries in the world of soccer. It attempts to encapsulate, analyse and reconstruct those rivalries—between nations, between clubs, between personalities, between styles of play, between fandoms, and between organizations—in a historical perspective in relation to diverse identities, competing ideologies, contestations of power, psychologies of attachment, bonds of loyalty, notions of enmity, articulations of violence, and affinities of fan culture—some of the core manifestations of sporting rivalry. The chapters in this book were originally published as a special issue of Soccer & Society.
