**The Little Clockwork Mermaid** Pip Ballantine,2014-05-25 From the imagination behind the award-winning Ministry of Peculiar Occurrences series comes a steampunk novella inspired by Hans Christian Andersen. The mermaid Lorelei is the youngest daughter of King Triton, but she has always been drawn to the Above world. Though she revels in the joys of her tail and the underwater world, she has never felt she belongs there. The Sea Witch and her marvelous contraptions offer a way to pursue her dreams. What she will find there will change her fate forever.

**Violet Shrink** Christine Baldacchino,2020-03-01 In this powerful story from Christine Baldacchino, author of *Morris Micklewhite and the Tangerine Dress*, a young girl navigates social anxiety at family gatherings and works with her father to find a solution. Violet Shrink doesn't like parties. Or bashes, or gatherings. Lots of people and lots of noise make Violet's tummy ache and her hands sweat. She would much rather spend time on her own, watching the birds in her backyard, reading comics or listening to music through her purple headphones. The problem is that the whole Shrink family loves parties with loud music and games and dancing. At cousin Char's birthday party, Violet hides under a table and imagines she is a shark gliding effortlessly through the water, looking for food. And at Auntie Marlene and Uncle Leli's anniversary bash, Violet sits alone at the top of the stairs, imagining she is a slithering snake way up in the branches. When Violet learns that the Shrink family reunion is fast approaching, she finally musters up the courage to have a talk with her dad. In this thoughtful story about understanding and acceptance, Christine Baldacchino's warm text demonstrates the role imagination often plays for children dealing with anxiety, and the power of a child expressing their feelings to a parent who is there to listen. Carmen Mok's charming illustrations perfectly capture Violet's emotions and the vibrancy of her imagination. A valuable contribution to books addressing mental health. Kubrick Robert P. Kolker,Nathan Abrams,2024-02-06 The definitive biography of the creator of 2001: A Space Odyssey, The Shining, and A Clockwork Orange, presenting the most in-depth portrait yet of the groundbreaking film-maker. It offers comprehensive and in-depth coverage of Kubrick's personal, private, public, and working life. **Violence in Popular Culture** Laura L. Finley, 2018-11-09 A comprehensive resource, this book reviews current and historical examples of violence in film, television, radio, music, music videos, video games, and novels. Despite decades of attention and various attempts to enact legislation that limits violence in American popular culture, it remains ubiquitous across films, television, radio, music, music videos, video games, and popular fiction. Studies have shown that programs marketed to children are often remarkably violent and that viewing or otherwise consuming such violence has numerous negative effects on children's psychological health. This book sheds light on the scholarship related to violence in popular culture and compares historical and current examples, analyzing popular shows such as Game of Thrones, video games such as Mortal Kombat, young adult fiction including the trilogy The Hunger Games, and more. Not only does Violence in American Popular Culture provide a comprehensive review of the research about the effects of violence in media, but it also offers detailed assessments of violent content in various expressions of popular culture. In addition, it invites readers to compare violence in American popular culture with that globally via entries on violence in popular culture outside the United States. An appendix of additional resources and primary sources gives readers further tools for deepening their understanding of this complex and controversial issue.

Love, Lucas Chantele Sedgwick, 2015-05-05 A 2015 Whitney Award Nominee! A powerful story of loss, second chances, and first love, reminiscent of Sarah Dessen and John Green. When Oakley Nelson loses her older brother, Lucas, to cancer, she thinks she'll never recover. Between her parents' arguing and the battle she's fighting with depression, she feels nothing inside but a hollow emptiness. When Mom suggests they spend a few months in California with Aunt Jo, Oakley isn't sure a change of scenery will alter anything, but she's willing to give it a try. In California, Oakley discovers a sort of safety and freedom in Aunt Jo's beach house. Once they're settled, Mom hands her a notebook full of letters addressed to her—from Lucas. As Oakley reads one each day, she realizes how much he loved her, and each letter challenges her to be better and to continue to enjoy her life. He wants her to move on. If only it were that easy. But then a surfer named Carson comes into her life, and Oakley is blindsided. He makes her feel again. As she lets him in, she is surprised by how much she cares for him, and that's when things get complicated. How can she fall in love and be happy when Lucas never got the chance to do those very same things? With her brother's dying words as guidance, Oakley knows she must learn to listen and trust again. But will she have to leave the past behind to find happiness in the future? Brightly Burning Alexa Donne, 2018-05-01 "One of the most anticipated YA debuts of 2018, Brightly Burning is a gothic, romantic mystery with hints of Jane Eyre, Marissa Meyer, and Kiera Cass." —Entertainment Weekly "Brightly Burning delivers a brooding gothic mystery and a swoony romance, all set in space. Donne's atmospheric, twisty update of a cherished classic will keep you up late into the night!" —Elly Blake, NYT bestselling author of the Frostblood Saga Stella Ainsley leaves poverty behind when she quits her engineering job aboard the Stalwart to become a governess on a private ship. On the Rochester, there's no water ration, more books than one person could devour in a lifetime, and an AI who seems more friend than robot. But no one warned Stella that the ship seems to be haunted, nor that it may be involved in a conspiracy that could topple the

entire interstellar fleet. Surrounded by mysteries, Stella finds her equal in the brooding but kind nineteen-year-old Captain Hugo. When several attempts on his life spark more questions than answers, and the beautiful Bianca Ingram appears at Hugo's request, his unpredictable behavior causes Stella's suspicions to mount. Without knowing who to trust, Stella must decide whether to follow her head or her heart. Alexa Donne's lush and enthralling reimagining of the classic Jane Eyre, set among the stars, will seduce and beguile you.

**Escape Velocity** Bradley Schauer, 2017-01-03 Today, movie theaters are packed with audiences of all ages marveling to exciting science fiction blockbusters, many of which are also critically acclaimed. However, when the science fiction film genre first emerged in the 1950s, it was represented largely by exploitation horror films—lurid, culturally disreputable, and appealing to a niche audience of children and sci-fi buffs. How did the genre evolve from B-movie to blockbuster? *Escape Velocity* charts the historical trajectory of American science fiction cinema, explaining how the genre transitioned from eerie low-budget horror like *It Came from Outer Space* to art films like *Slaughterhouse-Five*, and finally to the extraordinary popularity of hits like *E.T.* Bradley Schauer draws on primary sources such as internal studio documents, promotional materials, and film reviews to explain the process of cultural, aesthetic, and economic legitimation that occurred between the 1950s and 1980s, as pulp science fiction tropes were adapted to suit the tastes of mainstream audiences. Considering the inescapable dominance of today's effects-driven blockbusters, *Escape Velocity* not only charts the history of science fiction film, but also gives an account of the origins of contemporary Hollywood.
