*Night+Day Los Angeles* Paul Zemanek, Patrick Green, 2006 This sleek guide emphasizes the details that busy and discerning travelers need to know: the very best venues and activities, the prime time to be in every spot, and packed with insider tips. Structured around styles (such as hot & cool, hip, classic) that make up Los Angeles' unique character, the guide's easy to use format gives travelers a selection based on the city's array of personalities, not geography or price.

*The Birth of the Cool of Miles Davis and His Associates* Frank Tirro, 2009 Jazz, from its origins until World War II, was America's hot new music of the 20th century, and this music spread like wildfire to Europe and beyond. Shortly after the war ended a calming influence manifested itself in jazz and a new genre emerged with its own soundscape and quickly rose to worldwide popularity and influence--Cool Jazz. This book traces the history of this music to its roots in French Impressionism and European Neo-Classicism, describes the key roles played by Bix Beiderbecke, Lester Young, Lennie Tristano, Claude Thornhill, and Dave Brubeck in the development of this genre, and focuses on the major figures associated with a group of landmark recordings and on an ensemble that felicitously came to be known as The Birth of the Cool. The contributions of Miles Davis, Gil Evans, Gerry Mulligan, John Lewis, and John Carisi are considered in detail, and the scores of this music, arranged for Davis's nine-piece band, are analyzed and compared. The influence of this music persists to the present day, and the final chapter of *The Birth of the Cool of Miles Davis and His Associates* suggests continuities and developments that might still be explored by interested readers. The book is illustrated with photos of musicians and manuscripts, contains many musical examples and a detailed index, has both a bibliography and a short discography, and it includes a compact disc that contains many of the key recordings discussed in the text [Publisher

**What We Know About CSCL** Jan-Willem Strijbos,Paul A. Kirschner,Rob L. Martens,2006-04-11

A Dutch policy scientist once said the information and knowledge in the twenty-first century has the shelf life of fresh fish, and learning in this age often means learning where and how to find something and how to relate it to a specific situation instead of knowing everything one needs to know. On top of this, the world has become so highly interconnected that we have come to realise that every decision that we make can have repercussions somewhere else. To touch as many bases as possible, we need to work with knowledgeable others from different fields (multiple agents) and take heed of their points of view (multiple representations). To do this, we make increasing use of computers and computer-mediated communication. If computer-supported collaborative learning (CSCL) is not simply a newly discovered hype in education, what is it and why are we writing a book about it? Dissecting the phrase into its constituent parts, we see that first of all CSCL is about learning, and in the twenty-first century this usually means constructivist learning.

Island Music: The History Of AIR Studios Montserrat Brian Sallerson,2022-09-28 For 10 years,

AIR Studios Montserrat produced many of the biggest hits that defined the 1980s. On September 17, 1989, it all ended in a flash of wind, rain, and fury. The AIR Studios Montserrat recording studio, owned by Sir George Martin (often referred to as the Fifth Beatle), operated from 1979 to 1989 on the small picturesque Caribbean island of Montserrat. Playing host to some of the biggest recording artists of the 1980s, this studio produced many of the hit songs integral to the musical fabric of that decade. The isolated tropical environment of the studio's location on Montserrat created a unique creative environment not found anywhere else in the world. To many of those who worked and recorded there, it is regarded as a very special place, an experience that left an indelible imprint on their lives. Sadly, the storied history of AIR Studios Montserrat was suddenly cut short when the destructive forces of Hurricane Hugo battered the island in September of 1989. Over 30 years later, the remains of the studio lay in ruin as the island reclaims the land that was once creative fertile ground for artists such as The Police, Dire Straits, Paul McCartney, Duran Duran, and Elton John. The prolific musical output from AIR Studios Montserrat cemented its place in music history and world culture. The studio's sudden demise at the hands of Hurricane Hugo creates an emotional ending to an important artistic enclave that touched so many people around the world. The story of its creation, operation, and demise needs to be told so it can be appreciated by the millions of music fans whose lives were defined by the music recorded there.
