Mr. Lucky James Swain, 2007-08-28 Tony Valentine made his living and his name as a cop in Atlantic City—and is now known worldwide for his ability to spot the kinds of scams, grifts, and rip-offs that cost casinos billions every year. A man with a biting wit who drives a '92 Honda, Tony is low-profile, old-school, and has seen it all—until he meets the luckiest man on earth. Ricky Smith was once a small-town loser. Then he went to Las Vegas, jumped out the window of a burning hotel, lived to tell the tale, and tore up the Strip on an incredible winning streak. Ricky didn't just win at one slot machine or table game. He won at blackjack, roulette, and craps, and then beat the pants off the world's greatest poker player. Tony knows that goofy, loudmouthed Ricky Smith—or anyone else, for that matter—couldn't possibly be that fortunate. But when "Mr. Lucky" returns home to the little town of Slippery Rock, North Carolina, he keeps on winning everything from a horse race to a \$50,000 lottery. Hired by a desperate casino, Tony starts to pry into Ricky's past, his friends, and the strange little town that is benefiting from Ricky's fame and fortune. Unfortunately for Tony, his cover is blown when he is forced to reveal a trick he has up his own sleeve: a pocket Glock he can shoot with laser-like precision. Suddenly, two men are dead, the cops are on Tony's tail, and the investigation explodes in violence—putting the lives of Tony's son and his young family in danger. For years, Tony's son Gerry has dueled with his own criminal impulses. Now, the Ricky Smith case has lured Gerry through the gates of temptation and into a murderous confrontation with the Dixie Mafia. With Tony stuck on the slippery slope of Slippery Rock and Gerry fighting for his life, the Valentines are finding out just how bad good luck can get. Against a neon-tinted backdrop of adrenaline rushes, hard crashes, big money, and high-wire tension, the inimitable James Swain has set his best Tony Valentine novel yet: a funny, furious ride with an astounding array of crooks, marks, and one killer scam.

Unconditional Love Don Landy, 2011-07 Dogs were never a part of Don Landy's life plan. He and his wife were devoted breeders of show cats, and a dog just didn't seem to fit in the picture. That was, until a brutal winter storm brought a very large, tired and hungry dog to the front door. After experiencing the heartbreak of finding their houseguest a forever home, they realized it was time to add a baby to the family, and before you could say 'impossible', they were the proud owners of a nine and a half week old German Shepherd named Sabrina. Over the next eleven years Sabrina went from one debilitating illness to another. They spent much of our time traveling from one specialist to another, watching and waiting as she underwent six major surgeries. But no matter how intense the pain, her disposition never changed. She loved everyone, and bounded through life with the spirit of a puppy and an ever present smile. Sabrina taught everyone she met the meaning of courage. Each and every day, she demonstrated that life was to be truly lived, for however long God chose to grant her. But the most important lesson Sabrina had to share was that of Unconditional Love. Join Don Landy for this dog's tale of happiness, togetherness, and the everlasting rewards of a pet's love.

Precious Coral and the Legacy of the Coral Road Iwasaki Nozomu, 2021-06-14 Drawing on diverse perspectives, this collection of 12 essays and around 150 colour illustrations explores the history and mysteries of the "Coral Road" from the Mediterranean to Japan. From Italy, with its ancient traditions of deep-sea coral fishery, production and trade, the reader is transported to Tibet and India, where coral has long been revered as a Buddhist treasure and amulet. The focus then moves to Japan, with the book highlighting the vivid red coral "tree" of folklore and festivals and the lavish use of the exotic gemstone in the magnificent accessories and craftwork of the Edo Period (1603-1868), before tracing the history of Japanese coral fishery, trade and production in modern times. Inspired by an urgently perceived need to preserve the legacy of precious coral for future generations, this retrospective, yet forward-looking, book will appeal to a wide readership, from marine ecologists to economic, social, cultural and religious historians, as well as scholars of fashion and design.

Understanding the Consecrated Life in Canada Jason Zuidema, 2015-12-21 The story of the consecrated life in Canada since the 1960s should be about much more than numerical decline. Although the falling numbers are significant among Catholic religious in communities that pre-date Vatican II, many communities continue to show stability and even growth. This book provides nuance to that story by adding detailed portraits of movements, communities and institutions. In four parts, this book presents essays from the leading scholars on religious life in Canada that seek to address the state of religious communities dedicated to religious virtuosity normally characterized by formal promises of chastity, poverty, and obedience. The essays examine a broad range of topics related to the general state of consecrated (or “religious” or “monastic”) life in contemporary Canadian Christian and Buddhist traditions. In the first section, the contributors trace the demographics and definitions of religious life in Canada. The second section examines Canadian developments in Catholic religious life during the Vatican II and the post-Vatican II eras. A third section explores trends in contemporary Canadian religious life, while the fourth section describes the consecrated life in other Canadian religious traditions.

Sustainable Luxury Paul McGillick, Ph.D, 2015-03-31 Featuring elegant photographs, this sustainable architecture and design book showcases the ultra-modern homes of Singapore. Singapore is celebrated as one of the most livable cities in Asia, and Sustainable Luxury shows how the prosperous, forward-looking nation is pioneering innovative solutions for environmental, economic, social, and cultural issues faced the world over. Dr. Paul McGillick, the author of *The Sustainable Asian House* (Tuttle, 2013), presents twenty-seven recent residential projects created by Singapore's most talented architects to address the many complex and interconnected aspects of sustainability. Some of the homes featured here emphasize environmental needs, while others are concerned with preserving cultural traditions or supporting societal and interpersonal needs—such as extended family dwellings. Each residence, however, exhibits solutions developed from a holistic point of view. These homes typically embrace the tropical climate rather than fight it, and illustrate how smart manipulation of air flows, light, shade, water, and landscaping sustain higher levels of comfort without resorting to air-conditioning. In addition to profiling individual residences, Sustainable Luxury looks at the big picture, canvassing the most pressing issues—including changing demographics and lifestyles—and examining the available solutions. Anyone concerned with the future of our world will be fascinated by the houses presented here and the ways in which Singapore is leading the way in the development of residential architecture that is as luxurious as it is sustainable.

Deeno's Dream Journeys in the Big Blue Bubble Julia Langensiepen, 2009-10-01 Deeno's Dream Journeys in the Big Blue Bubble is a fun and easy-to-use guide to a special relaxation

technique for children. Adapted from the system of Autogenics, the six-week programme uses positive affirmations and guided imagery to help children manage their emotions, let go of anxiety and feel calm and confident. Each week, the child is given a new set of 'magic words': a relaxation tool they can draw upon whenever they feel stressed or anxious. An illustrated story based around these words, where the child is asked to imagine they are going on an adventure in a big blue bubble with Deeno the Dinosaur, draws the child into a safe and magical world and guides their minds and bodies into a state of deep, calming relaxation. Suggestions for follow-up practice and creative activities based around that week's words accompany each session, and encourage children to tap into their own imaginations. Separate introductions for parents, teachers and other professionals provide advice on how best to use the technique, whether at home, at school, or elsewhere. There is also a children's introduction, which introduces Deeno and explains the technique in accessible terms. Accessible and engaging, Deeno's Dream Journeys in the Big Blue Bubble is an ideal tool for helping children develop effective relaxation skills in a fun and imaginative way.
