Frontiers in Civil Justice Kramer, Xandra,Hoevenaars, Jos,Kas, Betül,Themeli, Erlis,2022-08-18 This book studies three interrelated frontiers in civil justice from European and national perspectives, combining theory with policy and insights from practice: the interplay between private and public justice, the digitisation of justice, and litigation funding. These current topics are viewed against the backdrop of the requirements of effective access to justice and the overall goal of establishing a sustainable civil justice system in Europe.

Cross-Linguistic Perspectives on Verb Constructions Signe Oksefjell Ebeling,Hilde Hasselgård,2015-09-10 This volume sheds new light on verb constructions by exposing them to cross-linguistic analysis based on multilingual corpora. It is composed of nine studies which provide insights into various aspects of cross-linguistic diversity, including showing that seemingly equivalent verb constructions may differ in their semantics, and that similar meanings may be expressed by different types of constructions. In other words, this book shows that different languages have different ways of lexicalising verb-based meanings, most notably by means of other, divergent verb constructions. A range of lexicogrammatical aspects of verb constructions are explored throughout the book, including time reference; modality; voice; light verb constructions; non-finite complementation of lexical verbs; posture-verb constructions; semiperiphrastic constructions; and the construction and semantic composition of verbs of putting. All of the contributions consider English in comparison with at least one of the following languages: Czech, German, Lithuanian, Norwegian, Spanish, and Swedish. As such, this volume offers a truly multilingual perspective on verb constructions. The diversity of comparisons also highlights the multi-faceted nature of the verb phrase, which seems to have virtually limitless potential for exploration in the fields of tense, aspect, modality, lexical semantics, syntax, and phraseology.

Artificial Intelligence for Accurate Analysis and Detection of Autism Spectrum Disorder Kautish, Sandeep,Dhiman, Gaurav,2021-06-25 Autism spectrum disorder (ASD) is known as a neuro-disorder in which a person may face problems in interaction and communication with people, amongst other challenges. As per medical experts, ASD can be diagnosed at any stage or age but is often noticeable within the first two years of life. If caught early enough, therapies and services can be provided at this early stage instead of waiting until it is too late. ASD occurrences appear to have increased over the last couple of years leading to the need for more research in the field. It is crucial to provide researchers and clinicians with the most up-to-date information on the clinical features, etiopathogenesis, and therapeutic strategies for patients as well as to shed light on the other psychiatric conditions often associated with ASD. In addition, it is equally important to understand how to detect ASD in individuals for accurate diagnosing and early detection. Artificial Intelligence for Accurate Analysis and Detection of Autism Spectrum Disorder discusses the early detection and diagnosis of autism spectrum disorder enabled by artificial intelligence technologies, applications, and therapies. This book will focus on the early diagnosis of ASD through artificial intelligence, such as deep learning and machine learning algorithms, for confirming diagnosis or suggesting the need for further evaluation of individuals. The chapters will also discuss the use of artificial intelligence technologies, such as medical robots, for enhancing the communication skills and the social and emotional skills of children who have been diagnosed with ASD. This book is ideally intended for IT specialists, data scientists, academicians, scholars, researchers, policymakers, medical practitioners, and students interested in how artificial intelligence is impacting the diagnosis and treatment of autism spectrum disorder.

Open Source Technology: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources,2014-11-30 The pervasiveness of and universal access to modern Information and Communication Technologies has enabled a popular new paradigm in the dissemination of information, art, and ideas. Now, instead of relying on a finite number of content providers to control the flow of information, users can generate and disseminate their own content for a wider audience. Open Source Technology: Concepts, Methodologies, Tools, and Applications investigates examples and methodologies in user-generated and freely-accessible content available through electronic and online media. With applications in education, government, entertainment, and more, the technologies explored in these volumes will provide a comprehensive reference for web designers, software developers, and practitioners in a wide variety of fields and disciplines.

Smart Education and e-Learning 2019 Vladimir L. Uskov,Robert J. Howlett,Lakhmi C. Jain,2019-05-31 This book contains the contributions presented at the 6th international KES conference on Smart Education and e-Learning (KES SEEL-2019), which took place at St. Julian's, Malta, June 17-19, 2019. It contains fifty-five high-quality peer-reviewed papers that are grouped into several interconnected parts: Part 1 - Smart Education, Part 2 - Smart e-Learning, Part 3 - Smart Pedagogy, Part 4 - Smart Education: Systems and Technology, Part 5 - Smart Education: Case Studies and Research, Part 6 - Students with Disabilities and Smart Education/University, and Part 7 - Mathematical Modelling of Smart Education and Economics of Smart University. Smart education and smart e-learning are emerging and rapidly growing areas with the potential to transform existing teaching strategies, learning environments, and educational activities and technology in the classroom. Smart education and smart e-learning focus on enabling instructors to develop new ways of achieving excellence in teaching in highly technological smart classrooms, and providing students with new opportunities to maximize their success and select the best options for their education, location and learning style, as well as the mode of content delivery. This book serves as a useful source of research data and valuable information on current research projects, best practices and case studies for faculty, scholars, Ph.D. students, administrators, and practitioners - all those who are interested in smart education and smart e-learning.

PLANIFICACIÓN ESTRATÉGICA EN PRIMERA PERSONA: Cristina Sánchez-Blanco,MIREN MARTÍNEZ YREGUI,HÉCTOR SARACHO,ADRIÁN MEDIAVILLA,NURIA SERRANO,GEMA REQUENA,JUAN ISAZA,PAULINA ARCEO ,ANTONIO NÚÑEZ,GONZALO MADRID,JESÚS FUERTES,MARIANA HERNÁNDEZ,PABLO VÁZQUEZ,RAQUEL ESPANTALEÓN,ANTONIO PAREJA,MÓNICA GASCA,2019-01-01 Este libro es el testimonio de la evolución de la figura del planner y su importancia vital para las marcas y por tanto para el anunciante. Hace tres años celebrábamos nuestra VI Jornada de la Eficacia, en la que junto a la Asociación de Planificadores Estratégicos (APG), rendíamos homenaje a los diez años de existencia de la APG y ya entonces quedaba patente el lema «no planner, no future». Es indudable que la planificación estratégica añade orden y seguridad en las campañas de comunicación comercial y, sobre todo, es el poder de la diferenciación y segmentación su principal característica, dirigir «el mensaje adecuado a la persona adecuada, en el tiempo y lugar preciso». Un básico de hoy día que hace años no estaba tan profesionalizado. Justamente en la actualidad vivimos en la era del contenido, en el que la tecnología lo ha cambiado todo, empezando por el móvil que afecta a la atención del consumidor y, por tanto, a la forma de planificar. Dar relevancia a ese contenido y que sea eficaz desde su concepción hasta su entrega es fundamental y ahí la adaptación camaleónica del planner tiene constantemente un reto que superar, entendiendo los problemas reales del consumidor y aportando soluciones. En la Asociación Española de Anunciantes tenemos grandes ejemplos muy ilustrativos de cómo la estrategia de marca está cerca de la estrategia de negocio. Por citar algunos ejemplos de probado reconocimiento podemos acordarnos del pasado oro Eficacia a la Estrategia más Innovadora 2017, «Islas Canarias», de Promotur Turismo de Canarias y DEC BBDO, que simboliza un proceso de éxito en donde prima la microsegmentación. A través de un desarrollo centrado en la extracción de datos pudieron pasar de comunicar siete islas de sol y playa a comunicarse como 47 islas distintas cada día. Un proceso muy complejo que dio lugar a 187 segmentos diferentes que fueron agrupados en función de motivaciones y mercados. Así, las Islas Canarias recibieron un 23,75% más de turistas en 2016. También otro claro caso que se explicó como modelo de aprendizaje en la citada Jornada de Eficacia de la aea y SCOPEN fue el de la Eficacia Creativa en Cannes Lions 2016 con The Economist, que generó 5,2 millones de clics en su audiencia potencial cuando el objetivo eran 650.000, y 64.405 nuevos suscriptores frente a los 9.000 de objetivo inicial. En este libro vamos a poder apreciar el valor de este colectivo y su impacto en el desarrollo de la industria publicitaria. Quiero agradecer expresamente a todos los profesionales -casi todos con fuertes lazos de implicación con la aea y con los Premios a la Eficacia- su aportación en los capítulos de esta obra. Por supuesto también gracias a Cristina Sánchez-Blanco, profesora de la Facultad de Comunicación de la Universidad de Navarra por hacer posible esta edición. Planificación estratégica en Primera Persona: 15 planners, 15 miradas únicas

Videoactivismo y movimientos sociales , Hoy día, las posibilidades asociadas con el vídeo digital y su confluencia con el espacio de las redes están permitiendo a distintos actores sociales definir nuevos horizontes de acción política a través del discurso audiovisual. Enlazando con una profunda tradición histórica, los movimientos sociales siguen en la actualidad explorando sus propias fórmulas expresivas, configurando creativamente su imagen y dando forma visual a sus mensajes; sin embargo, el alcance potencial de estas prácticas es ahora mucho mayor gracias a la rápida distribución a través de plataformas de vídeo on-line gratuitas. Desde un posicionamiento crítico, este volumen se centra en el estudio de estas prácticas videoactivistas y de las formas en las que entroncan con dinámicas sociales transformadoras mucho más amplias en contextos que van desde el 15M en España al movimiento #Yosoy132 en México o a la Primavera Árabe. Su punto de partida se sitúa en la necesidad de empezar a construir el andamiaje teórico y el repertorio de casos de estudio que permita situar el videoactivismo como uno de los ejes que vertebran la acción social en la sociedad de las multitudes conectadas, en las que el relato audiovisual está comenzando a modificar de forma sensible los modos de interacción en la esfera pública.
