

DUAL MEDIA COMMUNICATION

Nick Stevenson

The Social Media Communication Matrix Kenneth D. Plowman,Beki Winchel,2015-09-10 Sophisticated problem solving in strategic communication or public relations (PR) is done through planning, strategic communication planning. The focus of this book is to meld current trends in social media to strategic communications planning in the field of PR. The definition of social media used here is channels delivering web-based information created by people to improve communication. This work used the strategic communication plan based on Wilson and Ogden's (2014) work for basic structure and an operational definition of strategic communication developed by one of the authors. The steps in a typical strategic communication campaign that will be affected include goals, measurable objectives, the big idea, key publics, message design, strategies and tactics and evaluation or return on investment. This book covers the major social media platforms and addresses branding, crisis communications, entertainment and sports, citizen journalism, and analytics. The contribution to the body of knowledge should be highly significant, affecting the way PR professionals go about devising and conducting strategic communication campaigns in light of the effect of social media as well as how academics teach the process in their classrooms.

Mass Communication Ralph E. Hanson,2015-01-22 Skills to Succeed in Today's Media World Designed to give students the media literacy principles and critical thinking skills they need to become smart consumers of the media, Mass Communication: Living in the Media World provides comprehensive yet concise coverage of all aspects of mass media, along with insightful analysis and fun, conversational writing. In every chapter, students will explore the latest developments and current events that are changing the face of media today. The newly revised four-color Fifth Edition introduces a new "Media Transformations" box feature that highlights dynamic changes to how we produce and consume media. Each "Media Transformations" box includes a new infographic that helps illustrate key issues and promotes data and media literacy. Mass Communication is an interactive learning experience where you'll explore the latest developments that are changing today's media world.

Mass Communication Jason R. Detrani,2016-04-19 Mass communication is the academic study of the various means by which individuals and entities communicate information to large audiences at the same time. Mass communication channels include newspaper and magazine publishing, radio, television, film, and the Internet. Mass Communication: Issues, Perspectives and Techniques addresses pressing concerns in the field today. The book discusses communicating information to the public about emergency procedures in the face of disasters and emergencies and the media's role in public health campaigns. It also also explores mass media theory and incorporating media strategies into peace-building campaigns. A thoughtful analysis of how mass media messages are constructed and construed rounds out the coverage.

Media Convergence Klaus Bruhn Jensen,2010-02-05 The development of digital media presents an opportunity to reconsider what communication is, and what individuals, groups, and societies might hope to accomplish through the media. This title makes a distinction between three general types of media. It features case studies, including mobile phones in everyday life.

Artificial Intelligence for Communications and Networks Shuai Han,Liang Ye,Weixiao Meng,2019-07-04 This two-volume set LNICST 286-287 constitutes the post-conference proceedings of the First EAI International Conference on Artificial Intelligence for Communications and Networks, AICON 2019, held in Harbin, China, in May 2019. The 93 full papers were carefully reviewed and selected from 152 submissions. The papers are organized in topical sections on artificial intelligence, mobile network, deep learning, machine learning, wireless communication, cognitive radio, internet of things, big data, communication system, pattern recognition, channel model, beamforming, signal processing, 5G, mobile management, resource management, wireless position.

Understanding Media Cultures Nick Stevenson,2002-04-02 The Second Edition of this book provides a comprehensive overview of the ways in which social theory has attempted to theorize the importance of the media in contemporary society. Understanding Media Cultures is now fully revised and takes account of the recent theoretical developments associated with New Media and Information Society, as well as the audience and the public sphere.

Cross-Media Communications Drew Davidson,2010 This text is an introduction to the future of mass media and mass communications - cross-media communications. Cross-media is explained through the presentation and analysis of contemporary examples and project-based tutorials in cross-media development. The text introduces fundamental terms and concepts, and provides a solid overview of cross-media communications, one that builds from a general introduction to a specific examination of media and genres to a discussion of the concepts involved in designing and developing cross-media communications. There is also an accompanying DVD-ROM full of hands-on exercises that shows how cross-media can be applied. For the DVD-ROM: <http://www.lulu.com/content/817927>

Media Today ,2008-09-25 Media Today puts students at the center of profound changes in the twenty-first century media world -from digital convergence to media ownership- and gives them the skills to think critically about what these changes mean for the role of media in their lives.

Media Today Joseph Turow,2013-10-15 Media Today uses convergence as a lens that puts students at the center of the profound changes in the 21st century media world. Through the convergence lens they learn to think critically about the role of media today and what these changes mean for their lives presently and in the future. The book's media systems approach helps students to look carefully at how media is created, distributed, and exhibited in the new world that the digital revolution has created. In this way, Media Today goes beyond the traditional mass communication textbook's focus on consuming media, to give students an in.

Proceedings of the 1st International Conference on Research in Communication and Media (ICORCOM 2021) Oktaviana Purnamasari,Muhammad Yusuf,Kirti Dang Longani,Syifa Astasia Utari,Tria Patrianti,Amin Shabana,2023-12-14 This is an open access book. The 1st International Conference On Research in Communication and Media (ICORCOM)is an international conference organized by Institute of Research and Community Services (LPPM), University of Muhammadiyah Jakarta, to discuss the most recent scientific studies in the field of communication and media in Indonesia and around the world. The theme raised in ICORCOM is Today's Global Transformation in Communication and Media Studies. It is known that the science of communication and media is very dynamic and always develops according to the times and existing technology. So it is hoped that through this ICORCOM it can contribute to updating information and studies related to communication and media studies. With the theme Today's Global Transformation in Communication and Media Studies, we encourage scholars to answer key questions related to developments taking place in communication fields such as public relations, advertising, broadcasting, and many others. ICORCOM will be a forum that actively engages students in conference as well as other scientific competitions. The findings and recommendations made at this international forum will have a significant impact on the advancement of science and practice in related industries. As a result, the beneficiaries of this forum are not only important for academics and students, but also for other stakeholders such as government, practitioners, policymakers, and others.

McQuail's Mass Communication Theory Denis McQuail,2010-02-28 Denis McQuail's Mass Communication Theory is not just a seminal text in the study of media and society - it is a benchmark for understanding and appreciating the long and winding road people and their media have taken to get us here. - Mark Deuze, Indiana University and Leiden University This is a unique work tested by time and generations of students around the world - North, South, East and West. - Kaarle Nordenstreng, University of Tampere McQuail's Mass Communication Theory continues to be the clearest and best introduction to this sprawling field. - Anders Hansen, University of Leicester With over 125,000 copies sold, McQuail's Mass Communication Theory has been the benchmark for studying media and communication for more than 25 years. It remains the most authoritative and comprehensive introduction to the field and offers unmatched coverage of the research literature. It covers everything a student needs to know of the diverse forms of mass communication today, including television, radio, newspapers, film, music, the internet and other forms of new media. Denis McQuail shows that more than ever, theories of mass communication matter for the broader understanding of society and culture. Unmatched in coverage and used across the globe, this book includes: Explorations of new media, globalization, work, economy, governance, policy, media audiences and effects New boxed case

studies on key research publications, to familiarize students with the critical research texts in the field Definitions, examples, and illustrations throughout to bring abstract concepts to life. McQuail's Mass Communication Theory is the indispensable resource no student of media and communication studies can afford to be without.

Development and Communication in Africa Charles Okigbo, Festus Eribo, 2004 Although Africa is the world's poorest continent, it is a major emerging market and partner in the global village of the new millennium. This book presents a wide array of perspectives on the problems and prospects of developing Africa. Leading scholars in African studies and international communication analyze the socio-political and cultural experiences in various communities, focusing on key questions: What is development? What are the main issues surrounding development in Africa? And how can communication per se be used to address the persistent problems of underdevelopment?

Media Today Joseph Turow, 2011-09-22 Media Today gives your students the media literacy skills they need to think critically about the role of media in their lives. This book uses a media systems approach to look closely at the production, distribution, and exhibition of media, from Hollywood films to Facebook, to discover cultural, political, and economic forces that shape media now. Completely revised and updated, this 4th edition connects the latest trends, debates, and technologies to the history of media, highlighting the impact and meaning of today's changes to the media landscape, especially how traditional industry boundaries have blurred with digital convergence. Students and instructors will find a full range of supporting materials including interactive quizzes and online video resources at www.routledge.com/textbooks/mediatoday4e.

The Media of Mass Communication John Vivian, 2003 This up-to-date, reader-friendly presentation of the mass media helps instructors use the media to teach the media and explore its excitement, complexity, and impact on our lives. The 2003 Update features up-to-date coverage and analysis of events that have taken place since the last edition was published, including the dramatic events of September 11, 2001. Widely praised for its ability to make learning interesting, Media of Mass Communication excites students as they explore the ever-changing subject of mass communication. The 2003 Update reflects the new reality of mass communication today while retaining the text's extensive coverage of media history, effects, and culture. Every chapter reflects the most current statistics, issues, and challenges facing the media.

Real Communication: An Introduction with Mass Communication Dan O'Hair, Mary Wiemann, 2011-11-09 Real Communication uses stories from real people and the world around us to present the best and most lively introduction to communication concepts. Professors and students alike have fallen in love with Real Communication's down-to-earth writing style, its coverage of research, and its wealth of learning and teaching tools. They also appreciate how Real Communication strives to weave the discipline's different strands together with the CONNECT feature that shows students how concepts work and apply across interpersonal, small group, public speaking, and mass media contexts. The Second Edition is even better with a broader array of engaging examples, new coverage of hot topics in the field like Intercultural and mediated communication, plus a public speaking unit honed to provide the essential information students need for this fast-paced course. A new chapter on mass communication connects topics like media convergence, mediated communication, media messages, and media effects to everyday communication. To order a desk copy of Real Communication: An Introduction with Mass Communication please contact your local sales representative and use ISBN-13: 978-0-312-60577-3.

Communication Research G. M. du Plooy, 2002 Approaches to conducting advertising, mass-media audiences, and mass-media efficiency research in organizational and development contexts are detailed in this reference. Among the topics covered are qualitative and quantitative approaches to research methodology, the steps involved in the research process, data collection, and the procedures used in applying a research design and interpreting research data. Designed to accommodate a variety of learning styles, this book imparts the framework in which to acquire and develop research, problem solving, and communication skills, and basic individual, moral, and ethical values.

Analyzing Media James W. Chesebro, Dale A. Bertelsen, 1998-10-01 For the past 25 years, critics of communication have focused on the content and form of verbal and nonverbal communication, while for the most part neglecting what traditionally has been considered a technical rather than a critical issue - the impact of how messages are produced or formatted in the various media. Topics such as the sexual and violent content of television and films, the meaning of pornography, and the persuasive efforts of advertisers largely have been examined with the use of social science methodologies that ignore the behavioral and message-generating implications of specific media systems themselves. Filling a significant void in the literature, this volume eschews the notion of communication technologies as neutral conduits, and instead depicts them as active and creative determinants of meaning. In doing so, it offers an illuminating examination of the dynamic relationships among communication, cognition, and social organization. Providing a framework for the chapters that follow, the first section of the book presents a history of human communication from a technological perspective, explores the integral role of communication technologies in everyday life, and isolates the ways in which criticism can function as an assessment system. Three specific technological cultures that define human communication are identified: the oral, the literate, and the electronic. The authors identify structural features and discuss the social implications of each. They also provide descriptions, interpretations, and evaluations of these technological cultures, and show how criticism changes when the media of transmission is taken into account. The book concludes with a cogent discussion of a range of topics surrounding media criticism, such as its pedagogical implications, how multiple selves can exist in a world of varied communication technologies, the integration of communication technologies, and how media studies should be incorporated into the disc

The Media of Mass Communication John Vivian, 2006 This up-to-date, reader-friendly presentation of the mass media helps instructors use the media to teach the media and explore its excitement, complexity, and impact on our lives. Widely praised for his ability to make learning interesting, Vivian excites students as they explore the ever-changing subject of mass communication. This updated edition retains the emphasis on the challenges of today's media while building on its extensive coverage of media history, effects, and culture. The coverage of media literacy, an underlying theme since the first edition, has been enhanced with a new feature. The three-part organization--the media, media messages, and media issues--has been strengthened by the addition of a totally new chapter on entertainment to balance the coverage of other types of media messages. New and Notable Features Updated content includes: coverage of the 2004 presidential election; recent changes in the national radio scene; new newspaper products; the emergence of blogging; and the gangsta lit genre. New chapter-opening vignettes now include Rupert Murdoch, Howard Stern, and Jerry Bruckheimer. A new chapter, Entertainment, in the Mass Messages section, explains how entertainment is an integral part of today's mass messages conveyed through all the mass media A new feature, Sharpening Your Media Skills, provides critical thinking questions to encourage students to analyze media issues to help broaden their understanding of media literacy The text and photo program has been thoroughly updated with the latest examples and information on media trends, challenges, concepts, personalities, and issues. Praise for The Media of Mass Communication This is one of the best mass communication text books ever published. I am impressed by the focus on history, comprehensive coverage of key terms, models, issues and trends. And I also enjoy the visual dimension of this textbook. It is readable for students who don't enjoy reading! Reed Markham, Salt Lake Community College This text's biggest strength continues to be its culture-orientated

approach to mass media. The writing is clear and lively. The many short features boxes work well with students. The visual images are current... even the pedagogy is excellent. Linda J. Lumsden, Western Kentucky University Vivian's Media of Mass Communication is a solid textbook. It is current, thorough, accurate and well-written. It covers the essential topics in a readable style... .I have used Vivian in the past and will continue to do so in the future. Timothy Boudreau, Central Michigan University

CSR Communication in the Media Franzisca Weder,Lars Rademacher,René Schmidpeter,2023-03-22 Corporate social responsibility (CSR) is an established management focus of today's companies and organizations of different types, scope and size. Communication practices on CSR and sustainability in the media industry, related theoretical concepts, and empirical foundations have not yet been sufficiently explored. This book focuses on a new normative framework of sustainability, bridging the established debate on public value with the current debate on social impact and the social license to operate in the media industry. With a variety of contributions from theory and practice, the book addresses the dual nature of media and media companies, which simultaneously produce economic and cultural goods and thus bear a double responsibility: on the one hand, for the way they present reality, monitor and criticize economic and political developments, and bring ethical concerns to the public debate. On the other hand, they bear responsibility for their own activities as companies (license to operate). The book is therefore aimed at readers interested in the journalistic perspective and at executives in the media industry.
