**A Testimony of Jesus Christ - Volume 1** Anthony Charles Garland,2007 A Commentary on the Book of Revelation - Volume 2 The author presents a detailed study of the Book of Revelation emphasizing prophetic themes from the rest of the Bible which find their fulfillment in Revelation. To understand this controversial book, the author explores the many connections between the visions seen by the Apostle John and previous prophetic revelation given to Old Testament prophets such as Daniel, Ezekiel, and others. It is the author's conviction that an understanding of related passages elsewhere in the Bible is the most important key to unlocking the bewildering variety of interpretations which often accompany the study of the last book of the Bible. The commentary is linked to a free companion internet course providing an additional 70 hours of audio instruction linked to almost 1,000 slides.

*Finding Our Voice* Matthew D. Kim,Daniel L. Wong,2020 No one preaches in a cultural vacuum. The message of what God has done in Christ is good news to all, but to have the greatest impact on its hearers--or even to be understood at all--it must be culturally contextualized. *Finding Our Voice* speaks clearly to an issue that has largely been ignored: preaching to Asian North American (ANA) contexts. In addition to reworking hermeneutics, theology, and homiletics for these overlooked contexts, Kim and Wong include examples of culturally-specific sermons and instructive questions for contextualizing one's own sermons. *Finding Our Voice* is essential reading for all who preach and teach in ANA contexts. But by examining this kind of contextualization in action, all who preach in their own unique contexts will benefit from this approach.

Rethinking Platinum Anticancer Drug Design: Towards Targeted and Immuno-chemotherapeutic Approaches Daniel Yuan Qiang Wong,2018-06-18 This thesis describes the authors' pioneering efforts in the conceptualization and implementation of combined platinum-based immuno-chemotherapeutics, which represent a significant paradigm shift from the conventional approach of directly targeting cancer. The work described has opened up a rich and largely unexplored area for platinum-based drug design, and ultimately paves the way for superior immuno-chemotherapeutics with better clinical outcome for patients. Historically, the contribution of the immune system to chemotherapy outcomes has been neglected, as anticancer drugs were believed to be immunosuppressive. However, this has been challenged by contemporary evidence suggesting that many chemotherapeutics, including platinum-based agents, stimulate the innate and/or adaptive immune system and that these "secret allies" contribute tangibly to clinical outcomes. A multi-pronged immuno-chemotherapeutic approach not only shrinks tumors, but more importantly, reactivate dormant immune responses to malignancies, eliminating residual cancer cells.

Lupe Wong Won't Dance Donna Barba Higuera,2020-09-08 My gym shorts burrow into my butt crack like a frightened groundhog. Don't you want to read a book that starts like that?? Lupe Wong is going to be the first female pitcher in the Major Leagues. She's also championed causes her whole

young life. Some worthy...like expanding the options for race on school tests beyond just a few bubbles. And some not so much...like complaining to the BBC about the length between Doctor Who seasons. Lupe needs an A in all her classes in order to meet her favorite pitcher, Fu Li Hernandez, who's Chinacan/Mexinese just like her. So when the horror that is square dancing rears its head in gym? Obviously she's not gonna let that slide. Not since Millicent Min, Girl Genius has a debut novel introduced a character so memorably, with such humor and emotional insight. Even square dancing fans will agree...

*The Handbook of Communication in Cross-cultural Perspective* Donal Carbaugh,2016-08-19 This handbook brings together 26 ethnographic research reports from around the world about communication. The studies explore 13 languages from 17 countries across 6 continents. Together, the studies examine, through cultural analyses, communication practices in cross-cultural perspective. In doing so, and as a global community of scholars, the studies explore the diversity in ways communication is understood around the world, examine specific cultural traditions in the study of communication, and thus inform readers about the range of ways communication is understood around the world. Some of the communication practices explored include complaining, hate speech, irreverence, respect, and uses of the mobile phone. The focus of the handbook, however, is dual in that it brings into view both communication as an academic discipline and its use to unveil culturally situated practices. By attending to communication in these ways, as a discipline and a specific practice, the handbook is focused on, and will be an authoritative resource for understanding communication in cross-cultural perspective. Designed at the nexus of various intellectual traditions such as the ethnography of communication, linguistic ethnography, and cultural approaches to discourse, the handbook employs, then, a general approach which, when used, understands communication in its particular cultural scenes and communities.
