Television Goes Digital Darcy Gerbarg, 2008-12-10 Television has become a ubiquitous part of our lives, and yet its impact continues to evolve at an extraordinary pace. The evolution of television from analog to digital technology has been underway for more than half a century. Today's digital technology is enabling a myriad of new entertainment possibilities. From jumbotrons in cyberspace to multi-dimensional viewing experiences, digital technology is changing television. Consequently, new advertising metrics that reflect the new viewer habits are emerging. The ability to capture a viewer's interactions changes the advertising proposition. Telephone and wireless companies are challenging the traditional mass media providers - broadcasters, cable and satellite companies - and they're all finding ways to deliver TV programming, video content and Internet offerings to large and small screens in the home and on the go. This volume showcases insights from industry insiders and researchers from a variety of disciplines. It explores the economic, cultural, technical, and policy implications of digital television, addressing such questions as: How will content be monetized in the future? What programming opportunities become possible with the advent of going digital? Will content still be king or will the conduits gain the upper hand? This book analyzes the digital television evolution: its impacts on the economics of the TV industry, its significance for content creation from Hollywood blockbusters to You Tube, the changing role of the consumer, and what's coming next to a theatre near you.

Digital Storytelling and Ethics Amanda Hill, 2023-06-08 Digital Storytelling and Ethics: Collaborative Creation and Facilitation provides a method for analyzing digital storytelling practices that focuses on the rhetorical, dialogic, co-productive, creative storymaking space rather than the finished stories or the technologies. Looking through a new media lens, Amanda Hill situates the digital storytelling genre and writing practice as a co-creative media process created between writers, storytellers, educators/facilitators, institutions, and the audience, and discusses the inter-relationships within the collaborative writing workshop as well as in those found in the dissemination of the final digital stories. Digital Storytelling and Ethics provides a reflexive look at the responsibility of the facilitator in co-creative digital storytelling writing spaces and makes use of diverse international case studies as examples. Hill shows that writing educators/facilitators should interpret their roles within the collaborative creation process. This will ensure that responsible facilitation practices based in witnessing guide the storytelling process and create an environment that treats participants as subjects with the ability to respond to the world. This innovative book is an essential read for collaborative digital writers and facilitators.

Expanding Austenland Áine Madden, 2024-01-13 Expanding Austenland: The Pride and Prejudice Fanfiction Archive explores Jane Austen's reception in popular culture through an exploration of the ever-expanding terrain of online fanfiction, professionally published (profic) texts, and other intertextual reworkings inspired by the author's most popular novel, Pride and Prejudice. The book argues that given its pervasiveness, Pride and Prejudice could be usefully considered not as a single novel, but as an entire 'archive' of interrelated texts, or as a portal that opens a 'virtual world' for readers to expand and explore. By examining the Pride and Prejudice archive of interrelated texts, this book analyses the process through which an individual novel can develop a virtual life, or afterlife. The evolving world that is opened by Pride and Prejudice, and extended and enriched through fanfiction, is conceptualised in the monograph as 'Austenland'.

The Four-Dimensional Human: Ways of Being in the Digital World Laurence Scott, 2016-08-09 You are a four-dimensional human. Each of us exists in three-dimensional, physical space. But, as a constellation of everyday digital phenomena rewires our lives, we are increasingly coaxed from the containment of our predigital selves into a wonderful and eerie fourth dimension, a world of ceaseless communication, instant information, and global connection. Our portals to this new world have been wedged open, and the silhouette of a figure is slowly taking shape. But what does it feel like to be four-dimensional? How do digital technologies influence the rhythms of our thoughts, the style and tilt of our consciousness? What new sensitivities and sensibilities are emerging with our exposure to the delights, sorrows, and anxieties of a networked world? And how do we live in public with these recoded private lives? Laurence Scott—hailed as a “New Generation Thinker” by the Arts and Humanities Research Council and the BBC—shows how this four-dimensional life is dramatically changing us by redefining our social lives and extending the limits of our presence in the world. Blending tech-philosophy with insights on everything from Seinfeld to the fall of Gaddafi, Scott stands with a rising generation of social critics hoping to understand our new reality. His virtuosic debut is a revelatory and original exploration of life in the digital age.

Participatory Visual and Digital Methods Aline Gubrium, Krista Harper, 2016-06-16 Gubrium and Harper describe how visual and digital methodologies can contribute to a participatory, public-engaged ethnography. These methods can change the traditional relationship between academic researchers and the community, building one that is more accessible, inclusive, and visually appealing, and one that encourages community members to reflect and engage in issues in their own communities. The authors describe how to use photovoice, film and video, digital storytelling, GIS, digital archives and exhibits in participatory contexts, and include numerous case studies demonstrating their utility around the world.

This information is designed for marketing managers, executives, event planners, tour developers, hotel managers, airline managers, program directors, advertisers, restaurateurs, students, business professionals, and researchers.

The Economics, Technology and Content of Digital TV Darcy Gerbarg, 1999-01-31 As the world of television moves from analog to digital, political and economic forces are being brought to bear on companies as they attempt to deal with changes occurring in their industries. The impetus for the conversion from analog to digital TV comes from many quarters, including the broadcasting industry, the computer industry, governments, consumer electronics manufacturers, content developers, and the Internet. The widespread acceptance of digital technology in both the home and the workplace account for the ready acceptance of the belief that the move to digital television is an appropriate advancement. Not all authors in this volume however are believers. This book is divided into four sections each dealing with one aspect of the transition from analog to digital TV broadcasting. The first section presents the various technologies. It establishes a structure for understanding the technologies currently in use as well as those being developed by the industries involved in the delivery of digital television. Section two presents information about consumer TV viewing and includes examples of innovative, experimental interactive programs. Economics and financial issues are addressed from a variety of perspectives in section three. Section four concludes the book with a look at the international environment and the history of digital TV globally.

Aquifer Systems Management: Darcy's Legacy in a World of Impending Water Shortage Laurence Chery, Ghislain de Marsily, 2014-04-21 By 2050, the demand for water to sustain world agriculture will increase by seventy-five per cent in order to feed an estimated nine billion inhabitants. Increased amounts of water will be required for irrigation and for industrial and domestic use. Natural ecosystems will be threatened by the expansion of agricultural land and by a reduc

Tourism and Disability Tindara Abbate, Fabrizio Cesaroni, Augusto D'Amico, 2022-03-29 This book addresses existing challenges and opportunities related to tourism for people with disabilities. A niche market that is largely underdeveloped, its potentials are also often underestimated. It examines the strategies, policies, and initiatives – at regional, national, and international levels – to foster the development of accessible tourism for people with disabilities. It does so by examining the different social, cultural, legal, and information/interactive barriers that represent important constraints to welfare, inclusion, integration, and promotion of civil rights, which bring difficulties and detriment to tourists with disabilities. Additionally, the book analyzes the characteristics and dynamics of that portion of the tourism industry that is more oriented to meet the distinctive travel demand of people with disabilities. In doing so, the book explores how preferences for travel services and facilities of people with disabilities differ from preferences of tourists without disabilities. All these issues are addressed from both a theoretical and a practical perspective by adopting a multidisciplinary approach, which leverages from the fields of management, economics, and statistical analysis. The book can be useful for a broad audience made of both

researchers and practitioners (among which tourism companies and corporate trainers) who are expected to deal with the topic of tourism management.

Adaptations Anugamini Rai, Shri Krishan Rai, 2015-10-05 This book invites readers to immerse themselves in the fantastic journey of written text to the screen. It is divided into two parts, the first of which broadly focuses on cinematic adaptations based on Indian literary texts. The second section explores the adaptations of literary works from other countries. In the world of Indian cinema, the first full-length Indian feature film, Raja Harishchandra, was based on a legend mentioned in Indian holy scriptures. Since then, several literary texts have been filmed, and this process has become a popular phenomenon. The recent film by Vishal Bhardwaj, Haider, an adaptation of William Shakespeare's Hamlet, has raised the expectations of lovers of this symbiotic relationship between literature and film. This book engages with issues like 'fidelity' and 'intertextuality' in the works of Tagore, Satyajit Ray, Khushwant Singh, Vishal Bhardwaj, RK Narayan, as well as other authors and directors from India and other parts of the world.

Shot Jenny Siler, 2013-09-24 Trying to find out the truth about her husband's death, headstrong Lucy Greene stumbles on dangerous secrets about a government-sponsored biological warfare program that has maimed her past and threatens her future. The story is that Lucy Greene's husband, Carl, died in a car accident. But why did Carl contact Lucy's high-school sweetheart Kevin, a recently discredited TV journalist, just a few days before he died with promises of a big story? Why does an intruder break into Carl's home office after the funeral? And what does any of this have to do with a rash of prison TB, their baby's encephalocele, or Lucy's brother's post-Gulf War illness? Lucy wants some answers, and before she knows it she's careening across the western landscape with a hired killer on her trail, warned that she's messing with some very big players. She's not alone in helping her, Kevin wants to resuscitate his career and ex-con Darcy wants to protect her junkie sister who's still on the inside. But with her loved ones dead and a Glock for a new best friend, Lucy is the one who will do whatever it takes to uncover the real story behind her husband's death.

Accessible Tourism in the Digital Ecosystem Fabio Cassia, Paola Castellani, Chiara Rossato, 2023-09-30 This book explores the growing demand for accessible tourism experiences and demonstrates how the perspective of digital ecosystems can play a vital role in creating more inclusive destinations. Through a combination of conceptual arguments and real-world case studies, the book sheds light on the practical aspects of accessible tourism. Statistics reveal that over one billion people have severe or moderate disabilities, emphasizing the urgent need for enhanced accessibility in tourism. However, both industry practices and academic research in this field are still lagging behind. The book highlights the challenge of establishing coordination among various stakeholders, including transport operators, hospitality firms, and public authorities, which has hindered the design and implementation of inclusive tourism experiences. By harnessing the power of new technologies, the book illustrates how digital ecosystems can effectively facilitate accessible tourism. It examines the demand for such experiences and demonstrates how embracing a digital ecosystem perspective can contribute to the development of more accessible tourism destinations. In addition to its theoretical insights, the book delves into several practical case studies that showcase successful examples of accessible tourism.

Transmedia Storytelling Jennifer Camden, Kate Faber Oestreich, 2018-12-14 This volume charts the evolution of Pemberley Digital's transmedia adaptations of nineteenth-century novels in order to interrogate the uneasy relationship between transmedia storytelling and consumer culture. It first examines two Austen-centered films, *Lost in Austen* and *Austenland*, that present "immersive" Austen experiences that anticipate Pemberley Digital's transmedia adaptations, bridging traditional film adaptations and transmedia's participatory culture. Subsequent chapters turn to Pemberley Digital's transmedia adaptations of Austen's and Shelley's novels to argue that, although such adaptations may appear feminist in their emphasis on female protagonists, their larger narratives expose a subtext of anxiety about unstable gender roles, financial vulnerability, and the undervaluation of career-specific skill sets, both for the characters and the production company itself. The study provides a robust theoretical framework within which to read transmedia adaptations of "classic literature," illuminating both the potential of, and the challenges facing, digital and transmedia storytellers and participants.

Compromised by Mr. Darcy Valerie Lennox, 2020-06-30 Mr. Fitzwilliam Darcy only knows that his sister grows pale when he asks her what happened. He knows that she seems incapable of putting her ordeal into words. He's in Hertfordshire for one reason: to find out what befell her. He doesn't have time to dance at this horrid ball in Meryton, so he claims that none of the women are handsome enough to tempt him. As if fate means to scold him, he immediately sets eyes on Miss Elizabeth Bennet. From then on, he is a man destroyed. Miss Elizabeth Bennet hates Mr. Darcy, and not only because she overheard him saying that she wasn't handsome, but because he is arrogant and disparaging and altogether wretched. But when Mr. Darcy comes upon her at the Netherfield Ball as she is having an unfortunate mishap with her clothing, they are discovered together, her dress in disarray. The scandal demands a solution, and Mr. Darcy provides it. He asks her to marry him. But when he claims to be swept away by her beauty, she knows he is lying. Indeed, it seems he is lying about a great many things and hiding even more. Trapped in this marriage for the sake of her family's reputation, she abhors Mr. Darcy's secrets, even as his kisses awake tumultuous reactions deep within her. She is falling for this man, but how can she ever love him when he will not trust her? By the by, this book isn't the least bit clean. Be advised.

The Digital Afterlives of Jane Austen K. Mirmohamadi, 2014-03-18 This is the first scholarly study to explore the ever-expanding world of online Austen fandom and fan fiction writing. Using case studies from the Internet writing community and publisher, Wattpad, as well as dedicated fan websites, it illuminates the literary processes and products that have given Austen multiple afterlives in the digital arena.

The Politics and Everyday Practice of International Humanitarianism Miriam Bradley, 2023-06-14 Through a combination of detailed case studies of humanitarian emergencies and thematic chapters which cover key concepts, actors and activities, this book explores the work of the largest international humanitarian agencies. Its central argument is that politics play a fundamental role in determining humanitarian needs, practices, and outcomes. In making this argument, the book highlights the many challenges and dilemmas facing humanitarian agencies in the contemporary world. It covers significant ground-temporally, geographically and thematically. The book is divided into four sections, providing a wide-ranging survey of contemporary international humanitarianism. The first section begins by presenting chapter-length case studies of the international responses to eleven humanitarian emergencies from the 1960s to the present day across Africa, Asia, the Caribbean and Europe; the second explains key concepts and trends in international humanitarianism; the third discusses how the work of international humanitarian agencies interacts with a range of other actors-including media, celebrities, donors, states, civil society, military forces and armed groups-who have significant impacts on humanitarian response and outcomes; and the fourth turns to the operations and activities undertaken by aid agencies on a daily basis. Ideally suited as a high-level introduction for students of international humanitarianism, the empirical detail and lucid analysis additionally make *The Politics and Everyday Practice of International Humanitarianism* an invaluable point of reference for more established scholars.

Darcy & Elizabeth A Lady, Cassandra Knightley, 2021-12-14 A Darcy and Elizabeth *Pride and Prejudice* variation bubbling with spirit, humor, and romance. Miss Darcy's New Companion Cheryl Bolen, 2016-06-28 As the Darcys are about to embark on their wedding trip to Italy, they lose the capable service of Miss Darcy's long-time companion. What will they do? They cannot leave dear Georgiana without a proper lady for a companion. Elizabeth Darcy's aunt comes to their rescue, recommending the lovely spinster Lucy Wetherspoon, whose family she has long known. Darcy also asks his neighbor, Lord Fane, to watch out for Georgiana in their absence. At two and thirty, Lord Fane has decided he needs to wed an heiress to restore his ancestral pile. Miss Darcy's fortune is just what he needs. Then he meets the shabbily dressed Miss Wetherspoon, and his world is utterly shaken by the profound feelings the beautiful woman elicits in him. After meddling from misguided-but-well-meaning Mr. Collins, Lord Fane's honor demands he offer for Georgiana Darcy though his heart will ever belong to her shabbily dressed companion.

ICT Tools and Applications for Accessible Tourism Eusébio, Celeste,Teixeira, Leonor,Carneiro, Maria João,2021-02-26 The contribution of tourism to create an inclusive society requires the adoption of new approaches and strategies that promote the accessibility of tourism destinations, allowing all people, regardless of their health condition, to enjoy tourism experiences. To accomplish this objective, it is of utmost relevance to promote the active involvement of all stakeholders of the tourism system (demand, supply, government entities, and educational institutions) in the creation of accessible and adapted tourism products. However, the scarce literature in this area suggests that the people working in the tourism industry are not usually aware of several needs and travel constraints of persons with disabilities and that the information delivered by traditional information sources to this market is frequently inadequate, inaccurate, or incomplete. Therefore, the information and communication technologies (ICTs) may have a crucial role to overcome the several travel constraints that these people face to plan and carry out a tourism trip as well as to enable supply agents to develop accessible tourism products. Despite this, although in recent years research regarding accessible tourism has increased, the number of studies on the contributions of ICTs for the development of accessible research is scarce. ICT Tools and Applications for Accessible Tourism provides theoretical and practical contributions for accessible tourism in the growing tourism market for social responsibility issues and as an excellent business opportunity. Chapters within this critical reference source cover the academic discussion of global accessible tourism, increased knowledge of disabilities, ICTs that can be used, and emerging technologies. This book is intended for all practitioners in the tourism industry along with IT specialists, government officials, policymakers, marketers, researchers, academicians, and students who are interested in the latest tools, technologies, and research on accessible tourism.
