Enhanced Living Environments Ivan Ganchev,Nuno M. Garcia,Ciprian Dobre,Constandinos X. Mavromoustakis,Rossitza Goleva,2019-01-18 This open access book was prepared as a Final Publication of the COST Action IC1303 "Algorithms, Architectures and Platforms for Enhanced Living Environments (AAPELE)". The concept of Enhanced Living Environments (ELE) refers to the area of Ambient Assisted Living (AAL) that is more related with Information and Communication Technologies (ICT). Effective ELE solutions require appropriate ICT algorithms, architectures, platforms, and systems, having in view the advance of science and technology in this area and the development of new and innovative solutions that can provide improvements in the quality of life for people in their homes and can reduce the financial burden on the budgets of the healthcare providers. The aim of this book is to become a state-of-the-art reference, discussing progress made, as well as prompting future directions on theories, practices, standards, and strategies related to the ELE area. The book contains 12 chapters and can serve as a valuable reference for undergraduate students, post-graduate students, educators, faculty members, researchers, engineers, medical doctors, healthcare organizations, insurance companies, and research strategists working in this area.

Information Systems Interoperability Bernd Krämer,M. Papazoglou,Heinz-W. Schmidt,1998 Interoperation technology is used to solve problems relating to the co-existence of a vast number of legacy systems, application software and information systems and repositories. This book provides a broad survey of research into the architecture, modelling and management of interoperable computing systems. Technology discussed in the text can be applied to information systems, electronic commerce systems, digital libraries, and well-enabled technologies. process design; information modelling and management; and design methods and support services for application

engineering and management.

Multimedia Systems and Applications Rae A. Earnshaw, John A. Vince, 1995-01-01 This book brings together a collection of international contributions on multimedia systems and applications and looks in detail at current issues in R&D of multimedia and the applications which exploit it. Part I on systems looks at technology, interfaces and techniques; Part II on applications looks at simulation, education, publishing and the future of multimedia.
