Your Personal Guide to Online Dating Steven Nguyen,2021-10-23 Your Personal Guide to Online Dating The Pros and Cons of Dating Online Have you been thinking about trying online dating for a while but never took the plunge? Internet dating can be intimidating. There are lots of stories of people who had great success with online dating and ended up marrying someone they met through the Internet. There are also lots of horror stories of

dates gone terribly wrong. Sometimes these are funny, sometimes they're not. The horror stories can range from dates with bad breath or no fashion sense to dates that ended up being stalkers. Those kinds of stories can make it hard to know if you can trust Internet dating. But Internet dating has come a long way from when it first started. In the early days of the Internet, people used chat rooms and other online communication mostly as a way to network professionally. As the Internet grew, more and more people started using chat rooms and online personal ads as a way to find dates. In the beginning, those online personal ads had the same kind of reputation that personal ads in the newspaper had. The perception was that people who used Internet personal ads must be desperate, or deviants, or people that had something wrong with them and couldn't get a date any other way. It used to be that people would meet potential romantic partners at school, at work, or maybe at their church or religious group. These days, most people spend their free time online so it only makes sense to go online to find a potential romantic partner. There are dozens of different online dating services. Some are free and some are not. It can be confusing to choose an online dating service but choosing the right one will increase your chances of finding a suitable date. In this book, you'll learn: Making a Commitment to Finding a Partner Why Choose Online Dating? Common Myths About Online Dating Online dating isn't safe Tips for Picking an Online Dating Service How Personal is Too Personal? Protecting Your Personal Information Is Your Online Date a player? Is Your Online Date Hiding Something? How to Make a Good First Impression Is Online Dating Worth It? ... Buy this book now, Good luck to you in your online search for love!
