One Goal, Two Paths The World Bank,2011-09-14 Despite the East Asia and Pacific (EAP) region's impressive economic growth, over 1 billion of its people still lack access to electricity and modern cooking solutions. To achieve universal access to modern energy by 2030, this book exhorts EAP countries to advance simultaneously on two paths: (1) accelerate programs for grid and off-grid electricity through appropriate policies and innovative technologies; and (2) scale up access to clean cooking fuels and efficient cooking stoves, particularly for biomass in poor rural areas.

Out of My Mind W. J. de Kock, 2014-03-25 We need a whole new mind to thrive in the twenty-first century, says Daniel Pink. As theologians we cannot escape the transition from the information age to the conceptual age of the twenty-first century. In the information age the theologian could give answers based on the best information, but in the twenty-first century information is on hand. Empathy and understanding however are in scant supply today. In the information age there was no room for doubt; certainty was the hallmark of a successful information worker. But today uncertainty is a certainty, thanks to globalization, the information revolution and even quantum mechanics. Uncertainty has been grafted into our collective consciousness. It therefore cannot be theological business as usual. It cannot be about giving answers; it is more about finding the best questions to be answered. It cannot be about winning theological arguments; it is more about living in God's regenerative story while we find ourselves in the liminal space of uncertainty. It cannot be about holding strong opinions; it is more about creating space for life, to allow God's generosity to flow through us. *Out of My Mind* tells the story of such a transition.
