Startup Success Gordon Daugherty, 2019-10-22 You've got yourself a startup! But now where's the funding going to come from? In this day and age, creating a startup seems to be an easy process. After some meetings with an equally passionate cofounder, you discover you have a creative idea, the outline of a business plan, and a willingness to spend nights and weekends doing really hard work. But most startup founders have never run a company—much less had to secure funding to reach crucial milestones. If you don't get the funding you need, you may either make progress at a snail's pace, or you may have to give up altogether. With stakes this high, improving a startup founder's odds of fundraising successfully—even just a little—can make a huge difference in the outcome of a venture. In this informative and enlightening book, Gordon Daugherty demystifies the fundraising process that takes place during the early phases of a startup's evolution. Every founder cares about the valuation they will be able to negotiate with investors, and anyone who has attempted fundraising has encountered numerous debates about the valuation they're asking for. *Startup Success* dedicates a whole chapter to negotiating valuation, which, in the end, involves a serious combination of art and science to execute effectively. Daugherty's book serves as a valuable educational and planning tool for use before the fundraising campaign begins and a reference guide for interacting and negotiating with investors after things get underway. *Startup Success* is written in a logical sequence that follows the general life cycle of planning and executing a successful fundraising campaign. Actionable tips, tricks, and aha realizations will have readers dog-earing pages and highlighting passages for future reference. The author's own words tell it all: "I decided to write something different that best exploits the gray in my hair and the hard lessons I've learned." Any startup founder, advisor, or angel investor—regardless of their experience level—will come away with improved skills and an increased

knowledge base. Gordon Daugherty is a seasoned business executive, entrepreneur, startup advisor, and investor. He has made more than 200 investments in early-stage companies as a venture fund manager and angel investor, and he has been involved in raising more than \$80 million in growth and venture capital.

The Solution Revolution William D. Eggers,Paul Macmillan,2013-08-27 Government Alone Can't Solve Society's Biggest Problems World hunger. Climate change. Crumbling infrastructure. It's clear that in today's era of fiscal constraints and political gridlock, we can no longer turn to government alone to tackle these and other towering social problems. What's required is a new, more collaborative and productive economic system. The Solution Revolution brings hope—revealing just such a burgeoning new economy where players from across the spectrum of business, government, philanthropy, and social enterprise converge to solve big problems and create public value. By erasing public-private sector boundaries, the solution economy is unlocking trillions of dollars in social benefit and commercial value. Where tough societal problems persist, new problem solvers are crowdfunding, ridesharing, app-developing, or impact-investing to

design innovative new solutions for seemingly intractable problems. Providing low-cost health care, fighting poverty, creating renewable energy, and preventing obesity are just a few of the tough challenges that also represent tremendous opportunities for those at the vanguard of this movement. They create markets for social good and trade solutions instead of dollars to fill the gap between what government can provide and what citizens need. So what drives the solution economy? Who are these new players and how are their roles changing? How can we grow the movement? And how can we participate? Deloitte's William D. Eggers and Paul Macmillan answer these questions and more, and they introduce us to the people and organizations driving the revolution—from edgy social enterprises growing at a clip of 15 percent a year, to megafoundations, to Fortune 500 companies delivering social good on the path to profit. Recyclebank, RelayRides, and LivingGoods are just a few of the innovative organizations you'll read about in this book. Government cannot handle alone the huge challenges facing our global society—and it shouldn't. We need a different economic paradigm that can flexibly draw on resources, combine efforts, and create value, while improving the lives of citizens. The Solution Revolution shows the way.

Delivering on Digital William D. Eggers, 2016-06-07 The government reform expert and acclaimed author of *The Solution Revolution* presents a roadmap for navigating the digital government era. In October 2013, HealthCare.gov went live—and promptly crashed. Poor website design was getting in the way of government operations, and the need for digital excellence in public institutions was suddenly crystal clear. Hundreds of the tech industry's best and brightest dedicated themselves to redesigning the government's industrial-era frameworks as fully digital systems. But to take Washington into the 21st century, we have to start by imagining a new kind of government. Imagine prison systems that use digital technology to return nonviolent offenders

promptly and securely into society. Imagine a veteran's health care system built around delivering a personalized customer experience for every Vet. We now have the digital tools—such as cloud computing, mobile devices, and analytics—to stage a real transformation. Delivering on Digital provides the handbook to make it happen. A leading authority on government reform, William D. Eggers knows how we can use tech-savvy teams, strong leadership, and innovative practices to reduce the risks and truly achieve a digitally transformed government.

Founder's Pocket Guide: Cap Tables Stephen R.

Poland,2015-04-12 The goal of this guide is to help you understand the key moving parts of a startup cap table, review typical cap table inputs, and demystify terminology and jargon associated with cap table discussions. Along the way, this highly visual guide provides easy-to-follow examples for the most common calculations related to cap table building. Expanding on these key skills every startup founder should know, this Founder's Pocket Guide helps you learn how to: • Build your basic cap table step by step, including founder's shares, option pools, angel investor rounds, and VC rounds. • Decipher cap table specific lingo, such as fully-diluted shares outstanding, preferred shares vs. common shares, Series A, Series B, and so on. • Establish a stock option pool in your cap table and understand the option pool effect on founder dilution. • Understand the simple math behind cap table formulas and calculations, including calculating fully diluted shares outstanding, investor equity ownership percentages, and share price.

Crack the Funding Code Judy Robinett,2019-02-05 Crack the Funding Code demystifies the world of angel investing, venture capital, and corporate funding and lays out a strategic pathway for any entrepreneur to secure funding fast. Lack of funding is one of the biggest reasons small businesses fail. In 2016 in the United States alone, more than 31 percent of small business owners

reported that they could not access adequate capital, and the lack of capital prevented them from growing the business/expanding operations, increasing inventory, or financing increased sales. This book will show you how to find the money, create pitches that attract investors, and then structure fair, ethical deals that will bring them new sources of outside capital and invaluable professional advice. Crack the Funding Code gives you the broader perspective on: how funding works, how investors think, and what they need to hear to put their money where your mouth is. Every entrepreneur who reads this book will get easy-to-follow deal checklists, a roadmap of where and how to locate the best funding resources and top business mentors for their industry or geographical location, and a step-by-step process to create pitches that make their idea or business irresistible.

Zika Virus: What Have We Learnt Since the Start of the Recent Epidemic? Rubén Bueno-Marí, Juan-Carlos Saiz,Óscar D. Salomón, Luis C. Villamil-Jiménez,Jorg Heukelbach,Carlos H. Alencar,Paul Armstrong,Paulo Henrique Rosado-de-Castro,Pedro M. Pimentel-Coelho,2018-04-12 The considerable number of viral infectious disease threats that have emerged since the beginning of the 21st century have shown the need to dispose global and coordinated responses to fight properly and efficiently against them. Severe acute respiratory syndrome (2003), avian influenza in humans (2005), A(H1N1) pandemic influenza (2009), Middle East respiratory syndrome coronavirus (MERS-CoV) (2012 onward) and Ebola virus disease (2014-2015) are some of the most important examples. The latest emerging and devastating threat was Zika virus, an arbovirus that provoked more than 500,000 suspicious cases in the Americas in 2016 and notable processes of social and medical alarms due to the evidence of a causal link between Zika virus and several congenital injuries, like microcephaly, as well as due to its association with neurological disorders such as Guillain-Barré syndrome in adults (PAHO, 2017). In the framework of this global response and multistrategic approach, the purpose of this Research Topic is to provide updated information and novel researches about control strategies, encompassing virological, entomological and epidemiological data, in order to reach the triad of protagonists of transmission cycles (virus, mosquitoes and humans).

The Six Secrets of Raising Capital Bill Fisher,2014-09-29 Based on Bill Fisher's three-day seminars that regularly sell out all over the world, this book offers the kind of capital-raising street

smarts no entrepreneur can do without. As a banker in Silicon Valley in the '80s and a businessman who founded a number of successful companies beginning in the '90s, Fisher has seen firsthand the kind of rookie mistakes aspiring entrepreneurs make that end up stopping them before they have a chance to get started. Fisher looks at six traditional steps in the capital-raising process and digs beneath the surface to expose subtle but critical aspects of each—knowledge that, until now, could come only with experience. For example, entrepreneurs believe that great business ideas get funded. Not true—just look at the failure rates of venture-backed companies. Great business stories get funded, and all great business stories have a similar construction and shape. And of course the entrepreneur needs an investor, but each investor comes with his or her own personality issues. You need the right match for long-term success, not just whoever is waving the biggest check—a temptation that is easy for cash-strapped entrepreneurs to succumb to. Having this book is like going into your investor meetings with a trusted advisor who knows all the ins and outs of raising capital.
