Like I See It Dale Pollak,2017-10-17 Simply Selling More Cars Won't Be Enough: Revolutionizing the Retail Automotive Industry Dale Pollak believes that the car business—and the dealers who make their living in it—are in more trouble than anyone cares to admit. After four decades and three best-selling books, Pollak has witnessed the trials and triumphs of the retail automotive industry from a vantage point that few get. While car dealers are making good money, he warns that the industry is at a critical turning point, with too few paying attention to how inefficiency and lack of transparency are sapping the industry's true potential. Amid the ever-faster confluence of technology, the Internet, and changing consumer preferences, the future prosperity of the industry is far from secure. Like I See It offers practical solutions, such as making the sales process more customer-focused and digitally driven to encourage sales, managing new and used inventory to mitigate margin compression, and ending factory bonus checks. It spurs much-needed conversations and sets guideposts that help dealers, OEMs, and solution providers improve how they do business. It also shows dealers how to stay relevant, evolve to keep up with the changing times, and deal with issues like high personnel turnover and the coming disruption of ride-sharing, self-driving cars, and Millennials who don't want (or can't afford) to own a car. Pollak believes that success will come to dealers who recognize that each customer engagement is a chance to make a positive impact and create a bond. He offers a collectively minded approach that will help build a better, more profitable, and prosperous retail automotive industry for tomorrow.

Perfect Dealership Max Zanan,2017-11-07 Remember travel agencies? They were a thriving business not so long ago. Then online services transformed the industry, and brick-and-mortar travel agencies died--and died quickly. Today, traditional car dealerships are facing much the same threat. If car dealerships don't adapt, they too will face an industry-wide extinction. Perfect Dealership offers help and hope for dealerships struggling to adapt to this digital-based paradigm shift. Consultant Max Zanan applies fifteen years of automotive-industry experience to the future of the car dealership. Arguing that dealerships must make significant changes if they are to survive the coming storm, Zanan takes a close look at every department within the business, including human resources,business development centers,information technology,parts and service, andfinance and insurance.By improving the role of each department and transforming them from individual echelons into a cohesive whole, Zanan offers a road map for the creation of a perfect dealership--the only way to remain relevant and solvent in the digital age.

How to Start, Run and Grow a Used Car Dealership on a Budget Aaron Simmons,2017-04 How to Start, Run and Grow a Used Car Dealership on a Budget Start Part-Time or Full-Time Right from Home-Start Your Own Used Car Business It is not hard to become a used car dealer even if you are on a tight budget. As far as the income potential is concern, it is higher than most other side gigs you will find. Just imagine this, you buy a 6 years old Toyota Camry with 87K miles for \$4,500, you bring it home, clean it up, fix few minor scratches, wash it wax it, then put it up for sale on Craigslist for \$7100. In the first three days you get a few calls, and after 4 test drives, you sell it for \$6,600. Let's see how much you made from this sale. You paid \$4,400 + you spend \$350 on fixing minor issues, so your total cost was \$4,750, but you sold it for \$6,600, so your net profit from this sale is \$6,600-\$4,750 = \$1,850 Not bad for few hours of work. You see if you buy the right type of cars and price them right, there is no reason you can't sell 2-3 cars a month and make a handsome extra income each month. I have a friend, who has a small insurance business. He has been selling cars on the side for last 25 years, and he told me just by selling 2-3 cars a month, he was able to pay for college for all his three kids. On the other hand, if you want to grow, then start small but reinvest the profit you make from selling each car back into the business and soon you will see, you are growing at a fast and steady pace, but you have to be focused and dedicated. Let's See What You Will Learn From This Book: 12 Steps to get started All 50 State licensing requirements Bond and insurance you will need Personal financial statement & sample How to incorporate and Name your business Sample Article of Incorporation Which is the best legal business entity for you How to get a EIN number and open a Commercial Bank account Where to get all your dealer supplies and Forms What and how Auction houses work How to get started on a tight budget How to find financing for your new business All Legal requirements How to develop your Inventory How to sell cars How much can you make How to do it part-time from home Dealer management software How to grow your used car dealership Enjoy and good luck!

The Art and Science of Running a Car Dealership Max Zanan,2019-10-09 This book is the pocket guide I wish I had when I first became a general manager of a Mitsubishi dealership in New York. Honestly, I am not the brightest star in the sky and made every mistake anyone could've possibly made. Unfortunately, I see dealer

principals/general managers/general sales managers making the same mistakes today. The only difference is the time and consequences of these mistakes. I got my first GM gig in 2004. That was in the beginning days of the Internet, before millennials joined the workforce, and way before any viable disrupters entered the market space. It was a lot easier to get away with mistakes then. I don't think you could get away with making the same mistakes now. The stakes are too high. Automotive retail profit margins are tiny. According to the National Automobile Dealers Association (NADA), automotive net profit margin as of March 31, 2019 was merely 1.38 percent. As a result, every misstep makes it harder to stay in business. The car business desperately needs better leadership skills, understanding of social media, inventory management, fixed operations, and so much more. There is no educational barrier to the entry into car business, and there are only a handful of universities offering a major in car dealership general management, such as Liberty and Keiser. On top of that, only a tiny percentage of dealer principals and general managers attend the National Automobile Dealer Association University. That means that a vast majority of general managers receive training on the job, even if we took business-related classes in college. The auto business is a different animal. General information will only carry you so far. That is exactly why general managers make the same mistakes year after year. My goal is to break this vicious cycle and provide as much information as possible to ensure that automotive retail survives the disruptions we are witnessing today. We need to be ready for the next generation of car buyers, people who are more computer savvy and not afraid to search for better deals. According to surveys, 80 percent of millennials plan to buy a vehicle in the next five years. In fact, millennials worldwide will buy about 40 percent of all vehicles in the next decade. At the same time, they spend an average of 17 hours on line before going to a dealership. Are you ready for them?

Exposed! Vehicle Information Resource LLC, 2017-12-21 Are you in search of a new vehicle and hate the idea of not knowing if you got a good deal? Well, to relieve you from the hassles and negotiations the car dealerships implement, you need to be on a level-playing field. On January 18, 2013, Vehicle Information Resource LLC was formed to assist people in the purchase of their next vehicle. The owner of this company has over thirty years automotive experience and is now able to share the secrets the car dealerships use to negotiate their best deals. This book is not designed to bash car dealerships! It is designed to disclose the secrets the dealers will use in maximizing their profits. People hate to shop for a car because they dislike the negotiation process, the inflicted pressure to buy today, and not being familiar with the terms of leasing or purchasing a vehicle. In order for you to get the best deal, you need to know these secrets. To prepare you in getting your best deal, this book includes the negotiation skills and terminology, compares leasing versus buying, contract disclosures, advertising examples, and statements the dealers will use in selling you your next vehicle. Our intention is to get you the best deal and for you to avoid the aggravations which comes with a vehicle purchase.

The Little Book of Broken Car Thoughts Tom Santospago, 2015-06-19 The Little Book of Broken Car Thoughts gives dealership owners and other dealership employees an understanding on how to get the job done. Most underperforming dealerships are doing so not because of the car line they sell, the location they're in, their employees, or even the advertising but for only one reason—fear. The word fear may sound nonsensical to a dealer who has been in business for thirty years or more, but ask yourself a few questions. If your store is not performing, do you know why? If so, why haven't you made important changes? A dealer from a premium franchise recently admitted that he avoids changes in order to keep his staff of over twenty years intact. This is what I call “broken thoughts.” You'll find out how to overcome these broken thoughts with the three-car sales system described in this book and how to turn your dealership into a well-oiled machine.

Dealership Process Secrets Philip J Cheatham, 2020-10-12 After revolutionizing the digital desk-log and then running some of the best performing dealerships in the country: Philip Cheatham returns with a step-by-step playbook, taking you on a journey to transform your dealership and accelerate your path to a top performing store. No matter your product, your dealership size, or how well you're operating, this book will provide the processes to help you achieve your sales goals more rapidly than you ever thought possible. Cheatham, who has helped dealers across the country, has become the Nation's leading dealership strategist. In this book, he takes you on his journey to reveal how to grow your dealership exponentially.

The Art of F&I - Conversations from The Box Lloyd W Trushel, 2020-08-02 There are many books on how to succeed in F&I. Experts are everywhere trying to give you advice on how to be successful. You see magazines, blogs, podcasts, and even TV shows, telling you how to “maximize your profits” and “overcome any objection”. Yet, something is still missing. Customer satisfaction is incredibly low. People dislike the buying process. Nearly 6 out of every 10 customers skip buying a vehicle service contract from their selling dealer, while third party competition is thriving on selling to those same customers. With the advent of DealerTrack and RouteOne, coupled with the evolution of the desk submitting deals before F&I involvement even begins, people should be delighted with the overall transaction times, but they're not. Another problem we face is that most F&I training offered today follows an old model of trying to simply overcome objections. The focus on objections made F&I development companies a solution for dealers wanting to create their own F&I departments in the 1970's. And it worked. They

created an industry. But the world keeps moving. Today endlessly debating with customers by overcoming every objection is a problem. We must be as Bruce Lee said, “Like water”, and adapt to each customer individually. For instance, today a menu presentation with every product bundled into the “Complete” or “Platinum” column may be the best way to present your payments... or it may not be. Do you know what sales process is most effective in YOUR store? Or...are you just doing what the trainer tells you works best? More importantly, can they bring data? Can they demonstrate effective results in YOUR store? If not, why are they giving you advice?

The Unfair Advantage Chris Martinez,2018-12-13 Do you know how to create a digital marketing strategy that grows your auto dealership month after month? Chris Martinez's approach helped grow the Charles Maund Toyota Dealership in Austin, Texas by approximately 680% in seven years. Developing an effective, scalable marketing strategy is every car dealership's most pressing challenge. Yet most dealerships have no idea where to start or are spinning their wheels (and losing the majority of their marketing dollars) with ineffective strategies. The Unfair Advantage will show you: - The critical role branding your auto dealership plays in your long-term success - why humanizing your dealership can make all the difference (and how to do it) - the key area most dealerships are virtually ignoring (to the detriment of their long-term growth) - how to develop a solid, effective, scalable marketing strategy that will take your dealership to the next level - the reasons most dealerships fail to implement a successful marketing plan (so you can avoid them) Whether you're a car dealership owner, general manager, marketing team member or salesperson, this proven, repeatable and scalable approach to dealership marketing will get you back in the driver's seat so that you're positioned to skyrocket the growth of your auto dealership.

Don't Get Taken Every Time Remar Sutton, Gives advice on every aspect of purchasing a car, including determining budget limits; buying new, used, or foreign cars; negotiating a deal; and making financing arrangements.
