How to Get Rich Felix Dennis, 2008 An outspoken entrepreneurial dynamo reveals the secrets behind his self-made fortune. Starting as a college dropout with no family money, Felix Dennis made himself the sixty-fifth richest individual in the U.K. And had a blast in the process. *How to Get Rich*, his #1 British bestseller, is different from any other book on the subject because Dennis isn't selling snake oil, investment tips, or motivational claptrap. Having already made his fortune, he merely wants to help readers embrace entrepreneurship and learn from his successes and failures. Dennis reveals, for example, why a regular paycheck is like crack cocaine; why being young, penniless, and inexperienced is a fine combination; why great ideas are vastly overrated; and why ownership isn't the important thing, it's the only thing. Part naked memoir, part contrarian manual, this book is invaluable for anyone willing to stare down failure and take a chance on not just getting rich, but very rich indeed!

**How to Get Rich** Felix Dennis, 2008-06-12 Felix Dennis is an expert at proving people wrong. Starting as a college dropout with no family money, he created a publishing empire, founded Maxim magazine, made himself one of the richest people in the UK, and had a blast in the process. *How to Get Rich* is different from any other book on the subject because Dennis isn't selling snake oil, investment tips, or motivational claptrap. He merely wants to help people embrace entrepreneurship, and to share lessons he learned the hard way. He reveals, for example, why a regular paycheck is like crack cocaine; why great ideas are vastly overrated; and why ownership isn't the important thing, it's the only thing.

**A Glass Half Full** Felix Dennis, 2013-01-31 Multi-millionaires are not supposed to write poetry. It offends against natural justice. **Writing, Publishing, and Reading Local Gazetteers in Imperial China, 1100-1700** Joseph R. Dennis, 2020-05-11 This book is the definitive study of imperial Chinese local gazetteers, one of the most important sources for premodern Chinese studies. Methodologically innovative, it represents a major contribution to the history of books, publishing, reading, and society. By examining how gazetteers were read, Joseph R. Dennis illustrates their significance in local societies and national discourses. His analysis of how gazetteers were initiated and produced reconceptualizes the geography of imperial Chinese publishing. Whereas previous studies argued that publishing, and thus cultural and intellectual power, were concentrated in the southeast, Dennis shows that publishing and book ownership were widely dispersed throughout China and books were found even in isolated locales. Adding a dynamic element to our earlier understanding of the publishing industry, Dennis tracks the movements of manuscripts to printers and print labor to production sites. By reconstructing printer business zones, he demonstrates that publishers operated across long distances in trans-regional markets. He also creates the first substantial data set on publishing costs in early modern China—a foundational breakthrough in understanding the world of Chinese books. Dennis's work reveals areas for future research on newly-identified regional publishing centers and the economics of book production.

**Magazine Journalism** Tim Holmes,Liz Nice,2011-11-10 For those of us who long ago experienced the magazine love-bite and have been battling the prejudice and scant attention shown this beautiful medium ever since, here at last is the book to set the record straight. - Nicholas Brett, Deputy Managing Director, BBC Magazines At a time when magazines are undergoing active redefinition, this book represents a welcome intervention. It engages with a host of pressing issues in a manner alert to professional priorities while, at the same time, encouraging new ways of thinking about the challenges shaping this fast-moving field. Holmes and Nice are trustworthy guides, taking the reader on what proves to be a fascinating journey. - Stuart Allan, Professor of Journalism, Bournemouth University Magazines are the most successful media format ever to have existed: so begins Magazine Journalism as it traces how magazines arose from their earliest beginnings in 1665 to become the ubiquitous format we know today. This book combats the assumptions among media academics as well as journalists that magazines somehow don't count, and presents a compelling assessment of the development and innovation at the heart of magazine publishing. In magazines we find some of the key debates in journalism, from the genesis of 'marketing to the reader' to feminist history, subcultures and tabloidization. Embedding these questions in a thoroughly historical framework, Holmes and Nice argue for an understanding of magazine journalism as essential in the media landscape. Moving beyond the semiotic and textual analysis so favoured by critics of the past, the authors complete the story with an exploration of the production and consumption of magazines. Drawing on interviews with more than 30 magazine journalists across the industry, what emerges is a story of resilience, innovation and a unique ability to embrace new markets and readerships. Magazine Journalism takes the reader to the heart of key questions in the past, present and future of journalism and is essential reading for students across journalism and the creative industries.
