Selling Technology Asaf Darr,2018-07-05 Selling Technology offers a look at high-tech markets from within, through the experience of salespeople, purchasing agents, and engineers who construct markets for emergent technologies through their daily engagement in sales interactions. Although sales occupations comprise 12 percent of the American labor force, sales work has been a neglected area of study. Asaf Darr's ethnographic exploration of the sales process for standard and emergent technology argues that our cultural stereotypes of sales work and salespeople, shaped during the industrial era and through popular images of the Yankee peddler and the car salesman, no longer apply to the changing nature of sales in an information economy. In the high-technology settings in which cutting-edge artifacts are traded, Darr finds that sales work deviates sharply from our traditional cultural images. The educational level and technical skills of the sales force are increasing, sellers' and buyers' engineers engage in co-development, and long-term collaborative relationships are replacing brief sales encounters. A growing number of work tasks and skills previously performed and mastered in the design or production phases have become part of the sale of emergent technology. New control mechanisms over the work of the sales engineers are also appearing. Unlike most ethnographic studies of salespeople, which focus on the insurance, finance, and retail sectors., Darr's groundbreaking book turns to the daily sales practices of an information economy.

Four Views on the Church's Mission Zondervan,2017-10-24 What is the Church's mission? What does it mean to participate in God's mission personally? How do mission and culture interact and conflict? This book articulates various evangelical views regarding the church's mission and provides a healthy, vigorous, and gracious debate on this controversial topic. In a helpful Counterpoints format, this volume demonstrates the unique theological frameworks, doctrinal convictions, and missiological conclusions that inform and distinguish the views: Soteriological Mission: Jonathan Leeman Participatory Mission: Christopher Wright Contextual Mission: John Franke Ecumenical-Political Mission: Peter Leithart Each contributor answers the same key questions based on their biblical interpretations and theological convictions: What is your biblical-theological framework for mission? How does your definition of mission inform your understanding of the church's mission? How does the Mission of God and Kingdom of God relate to the mission of the church? What is the gospel? How does your view on the gospel inform the mission of the church? How do verbal proclamation of the gospel, discipleship, corporate worship, caring for the poor, social justice, restoring shalom, developing culture, and international missions fit into the church's mission? The interactive format helps readers get a clearer picture of why different conclusions are drawn and provide a fresh starting point for discussion and debate of the church's mission. The Counterpoints series presents a comparison and critique of scholarly views on topics important to Christians that are both fair-minded and respectful of the biblical text. Each volume is a one-stop reference that allows readers to evaluate the different positions on a specific issue and form their own, educated opinion.

Grace and Christology in the Early Church Donald Fairbairn,2003-03-06 Was there a genuine theological consensus about Christ in the early Church? Donald Fairbairn's persuasive study uses the concept of grace to clarify this question. There were two sharply divergent understandings of grace and christology. One understanding, characteristic of Theodore and Nestorius, saw grace as God's gift of co-operation to Christians and Christ as the uniquely graced man. The other understanding, characteristic of Cyril of Alexandria and John Cassian, saw grace as God the Word's personal descent to the human sphere so as to give himself to humanity. Dealing with, among others, John Chrysostom, John of Antioch, and Leo the Great, Fairbairn suggests that these two understandings were by no means equally represented in the fifth century: Cyril's view was in fact the consensus of the early Church.

The Single Market Review European Commission,1997 Based on studies by some of Europe's leading economists, The Single Market Review is a 39-volume series which looks at the true impact of the single market on a range of industries.

Fable: Blood of Heroes Jim C. Hines,2015-08-04 The official companion novel to the videogame Fable® Legends Deep in Albion's darkest age, long before once upon a time . . . Heroes are thought to be gone from the land. So why have the bards begun singing of them once more? For Fable newcomers and dedicated fans alike, Blood of Heroes delves into a never-before-glimpsed era, telling the tale of a band of adventurers who come together to defend a kingdom in desperate need. The city of Brightlodge is awash with Heroes from every corner of Albion, all eager for their next quest. When someone tries to burn down the Cock and Bard inn, four Heroes find themselves hastily thrown together, chasing outlaws through sewers, storming a riverboat full of smugglers, and placing their trust in a most unlikely ally. As the beginnings of a deadly plot are revealed, it becomes clear that Heroes have truly arrived—and so have villains. What connects the recent events in Brightlodge to rumors about a malicious ghost and a spate of unsolved deaths in the nearby mining town of Grayrock? Unless Albion's bravest Heroes can find the answer, the dawn of a new age could be extinguished before it even begins.

Dommering,Alexander Scheuer,2008-01-01 Supplies an in-depth commentary on EU media law, with detailed analysis of all important legislation and court decisions. It leads European lawyers with vast knowledge and practical experience of media law provide detailed expert commentary.

Official Gazette Philippines,2007

Mobilizing the Information Society Robin Mansell,W. Edward Steinmueller,2000-10-26 Mobilizing the Information Society comprehensively and critically examines the interaction between social, regulatory, and market developments underlying the growing use of new technologies such as the personal computer and the Internet. Based upon empirical research by an international team, it offers insights needed to understand public policy, corporate strategy, and individual choices taken in response to the deluge of new technological opportunities. A principal theme of Mobilizing the Information Society is that changes are governed by public decisions that establish the institutional framework in which the private sector operates. The quality and value of the information society for the citizen is not the inevitable consequence of market and technological forces. Policy choices, however, that fail to take market and technical influences into account will prove ineffective. The authors lay the foundation for improved theories of the process of change, more appropriate strategies to achieve desired aims, and more effective policies for

mitigating the effects of dislocation and exclusion from the information society. Mobilizing the Information Society offers unique insights into the social, economic, and political forces that are structuring the pathway to the information society, and their consequences for businesses and citizens in their everyday lives.

Green Paper on the Liberalisation of Telecommunications Infrastructure and Cable Television Networks Commission of the European Communities,1994 Part I together with Part II launch the process of formulation of the European Union policy on infrastructure. Part II launches a broad discussion with all interested parties of the major issues involved in the future regulation of network infrastructure. This will allow the development of a common approach to infrastructure provision in the European Union. Covers: the major drivers for change; universal service; employment, societal & cultural issues; & much more. Charts & tables.
